

YOUR HAPPY LANDING IS ALWAYS 100% GUARANTEED!

Risk-free shopping. No strings attached.

We stand behind 100% of our products, 100% of the time. So if you buy something and it's just not working out, we'll refund every single penny, including taxes and freight. We'll even schedule and pay for the return shipping! Don't worry, no empty promises here — see what our customers say:

"EXCELLENT SERVICE IF ANYTHING NEEDS RETURNED"

— DONNA R.

"PRODUCT GUARANTEE IS TOP NOTCH"

— DINA L.

"FULLY EXPECTED TO PAY RETURN SHIPPING. THEY WOULDN'T LET ME DO THAT."

– DUSTIN H.

"EXCEPTIONAL **RETURN POLICY**"

- LARRY S.

"THEY BACKED UP THEIR 100% SATISFACTION RETURN"

— JESSICA B.

FREE! PIG SPORKSBALL

Chuck this full-size Sporksball to any open co-worker and watch the crowd go hog wild. You'll always have a nose for the ball with our latest fun freebie, featuring an authentic pebbled surface, squeezable foam grip, and PIG logo so you know it's from us. (WARNING: Careful not to hit the boss!)

Yours FREE with \$249 purchase. Use promo code on back cover.

WE PIG PROMISE TO KEEP CUSTOMERS HAPPY!

Helpful Service — Get through to real people, really fast!

At New Pig, you'll never have to wade through phone menus or repeat yourself five times to a voice recognition robot. From our offices in Tipton, PA, an actual human being says *Hello* and asks how we can help! 96% of calls are answered within 3 rings and 99% of chats connect within 9 seconds.

Expert Advice — Get FREE help when you've got questions.

From product support to regulatory compliance, and every head-scratching subject in between, our Technical Service Reps are educated on the issues that affect you most. We love solving problems and figuring out fixes for the issues at your workplace.

Reliable Shipping — We bust our tails to deliver your stuff.

Thanks to our hard-working warehouse crew and massive in-stock inventory, your order is shipped as fast as humanly possible — 94.7% ship the same day! And when you order using Autoship, you'll never run out of your favorite PIG products! (Details at newpig.com/autoship)

THE FIRST NAME IN FLOOR SAFETY.

The world's first adhesive-backed mat — now trusted in tens of thousands of sites worldwide.

When we invented **PIG Grippy Mat** over a decade ago, it revolutionized floor safety with an all new way to prevent slips and falls. Thanks to our exclusive adhesive formula and our obsession with quality, Grippy Mat still boasts the best stick-and-release performance on the market. You can always trust it to stay put, absorb your liquids, and peel back up — residue-free! *See our full offering of styles, colors and sizes on pages 242–257.*

LITHIUM BATTERY FIRE RISKS ARE FOR REAL

PIG Obsidian products are the safer way to handle lithium batteries.

All lithium-ion batteries have the potential to enter thermal runaway — a dangerous chemical reaction that can produce smoke, fire, explosions and toxic off-gassing (see below for a closer look). We've developed a line of products to help you reduce risks, meet DOT regulations, and minimize the occurrence of secondary fires.

Trusted solutions to help with:

SHIPPING

DOT compliant solutions for transporting damaged or recalled batteries

STORAGE

Military-grade cases with fire resistant lining and more for on-site storage

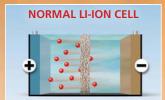

RESPONSE

Bags and blankets help reduce risk of damage and secondary fires

Learn more on pages N2–N5!

A CLOSER LOOK AT THERMAL RUNAWAY

Lithium-ion cells consist of an anode (–), cathode (+), separator and electrolyte. Under normal conditions, the separator controls the flow of ions while separating the anode from the cathode.

DAMAGED LI-ION CELL

When a cell is compromised — either by short circuit, physical damage, overuse or overcharging — this causes the anode and cathode to interact, generating heat and vapors through an exothermic reaction.

THERMAL RUNAWAY

As the internal temperature rises and pressure builds, the separator and active materials break down. The cell enters a state of thermal runaway, leading to self-ignition, explosions and the release of harmful gases.

The severity and speed of lithiumion battery fires depends on the stored potential energy of the charged cell. Higher levels can cause a chain reaction that spreads to a connected series or nearby batteries.

PIG OBSIDIAN LITHIUM BATTERY SHIPPING PILLOW

Pack, ship and store lithium-ion batteries using these pillows.

Environmentally friendly recycled material filler helps reduce risks for packing, shipping and storing lithium-ion batteries. Pillows are absorbent, cushioning, non-conductive and non-combustible, plus the durable polypropylene skin resists tearing and reduces dust. Can be reused if not compromised during shipping or storage. Intended for use as packing material for shipping and storing lithium-ion cells and batteries; do not use in response to active fires.

HELPS YOU COMPLY with 49 CFR 173.185 for packaging and shipping of lithium-ion cells and batteries that are DDR or need to be recycled

SCAN THE CODE to discover our full range of PIG Obsidian products for shipping, storage and response.

PIG OBSIDIAN LOOSE SHIPPING MATERIAL

Environmentally friendly material reduces risks and helps meet DOT hazmat regulations.

When used as a component in a shipping system, it helps you comply with DOT HazMat Regulations for Damaged, Defective, or Recalled (DDR) batteries. Also for use in DOT compliant shipping of non-DDR batteries used in laptops and other personal electronic devices.

HELPS YOU COMPLY with 49 CFR 173.185 for packaging and shipping of lithium-ion cells and batteries that are DDR or need to be recycled

WARNING: The Personal Protective Equipment (PPE) provided with this product were selected for their performance properties related to the most common battery types that would be appropriate for use with the product solutions New Pig provides. Due to the wide variety of available batteries, including watt hours, state of charge, chemistry, and also site-conditions and proximity to other combustible materials, New Pig Corp cannot guarantee that the selected PPE is the best choice or appropriate for every situation. Customers should always confirm that the provided PPE is suitable and sufficient for your specific intended purposes to ensure the safety of personnel. Additional PPE may be required depending on your circumstances.

PIG OBSIDIAN LITHIUM BATTERY STORAGE CASES

Store or ship lithium batteries in these UN Rated cases with fire resistant lining to reduce risks.

Designed for shipping and storing high-value equipment that contains lithium-ion batteries and/or stand-alone batteries. High-strength aluminum cases lined with Fire Resistant Anti-Static (FRAS) materials help reduce the risk of propagation of fires. Meets US military specifications under MIL-STD-810 and are internationally recognized under UN Packaging Group X, the highest-rated designation for hazardous material packaging.

HELPS YOU COMPLY with 49 CFR 173.185 for packaging and shipping of lithium-ion cells and batteries that are DDR or need to be recycled

WHEELS & PADLOCK FOR PIG OBSIDIAN LITHIUM BATTERY STORAGE CASES

Lock your Obsidian Battery Case and make it easier to move.

Clip-on casters install on a PIG Obsidian Lithium Battery Storage and Shipping Case in seconds — no drilling required which means the case's UN rating isn't affected. Casters available in swivel and fixed versions; install two of each type for best results (sold separately). They fit all cases listed above except BAT250.

Padlocks help prevent unauthorized access to cases at your facility, and they prevent tampering or accidental opening during transit. User determines the number combinations. TSA Lock can be opened by TSA agents without damaging the lock.

BAT261

LITHIUM BATTERY FIRE RESPONSE BLANKET

Cover lithium battery fires to help reduce the risk of damage, spread and secondary fires.

Made of non-combustible materials per EN ISO Standards 1716, 1182 and EN13501, and prepacked in a backpack for quick deployment. Blanket may help temporarily reduce the risk of damage by partially insulating the fires and reducing the paths for flame, debris or heat to escape and spread which can cause collateral damage to the surrounding environment. Available in three sizes to cover everything from small devices to passenger vehicles. One-time use only.

Lithium Battery Single Use Fire Response Blanket						
Item #	Item # Intended Use Dimensions					
BAT302	Passenger Vehicles	26' W x 19' L	\$1639			
BAT301	Forklift/Pallet Jack	16.4' W x 16.4' L	\$1026			
BAT300	Personal Electronic Devices	5.9' W x 5.9' L	\$905			

GENERAL WARNING STATEMENT Lithium-ion batteries can sometimes enter a state called "thermal runaway," which can sometimes lead to fire, explosion, and the release of toxic smoke and fumes. Lithium-ion battery fires are chemical reactions that can continue to burn even if deprived of oxygen. Call the Fire Department immediately in the event of any fire, whether or not you choose to use products from New Pig. Fires create great risk of injury or death and property damage. In the event of any fire, warn others to evacuate the premises, call the Fire Department and ensure that you have a clear path of escape. Do not take any unnecessary risks to combat a fire that has already started. While no fire suppression device can fully extinguish a lithium-ion battery fire until the chemical reaction has completed, the products offered by New Pig may help temporarily reduce the risk of damage by managing thermal runaway, partially insulating the fires, and potentially reducing the paths for flowed or heat to escape and spread. These products are not guaranteed to prevent thermal runaway from starting or spreading beyond its immediate area. Burned or partially burned lithium-ion batteries have the potential to reignite and should be handled with extreme care by trained first responders or friefighters.

PIG LITHIUM BATTERY ABSORBENT MAT

Specially designed to safely absorb lithium-ion battery electrolyte.

Mat is specially treated to quickly absorb lithium-ion battery electrolyte for faster, easier cleanups and safer workplaces. It's chemical-resistant and won't degrade or cause a dangerous reaction upon contact with lithium-ion battery electrolyte spills. Recommended to keep on hand during the manufacturing process of lithium-ion cells and batteries. PIG Mat won't rip, tear or fray, even when saturated, and it lasts 2x longer than competitive mats.

Light	MAT3100	14.75"x 50'	1 roll	2.2 gal./box	\$59	\$56

NOTE: PIG Lithium Battery Absorbent Mat has been rigorously tested in a controlled laboratory setting and has been found suitable for absorbing electrolytes used in many common lithium-ion cells and batteries. However, due to the wide variety of electrolyte chemistries used in batteries available on the market, some of which are proprietary and not available to New Pig Corporation, New Pig Corporation does not guarantee that this product is compatible and can be used with every electrolyte formulation. Prior to using this product, end users of this product are responsible for verifying the suitability of polypropylene absorbent mats and surfactants with their specific battery manufacturer, or the manufacturer of the device which contains the battery.

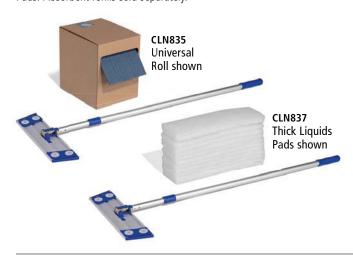

PIG ABSORBENT FLAT MOP

Mop your floors using PIG Mat with an all-in-one bundle.

Mop cleans in hard-to-reach places, such as under machines. Aluminum construction has a 360° swivel head with lockout tab and 71" telescoping extension handle. Mop base is 18" wide with riveted hookand-loop strips to keep the absorbent in place.

CLN835 comes with your choice of Universal or Oil-Only Absorbent Roll; CLN837 is available with Universal, Oil-Only or Thick Liquids Absorbent Pads. Absorbent refills sold separately.

^{*} WARNING: Cancer - www.P65Warnings.ca.gov

Direct sunlight and mildew are no problem for these absorbent socks.

Flexible socks absorb leaks, drips and condensation from under freezers, coolers and equipment and they help contain growhouse/greenhouse watering messes. 100% polypropylene filler and skin resist the growth of mildew, plus the skin resists UV rays for up to one year. When absorbing water, socks can be air-dried and reused 1-3 times.

Clip-&-Fit version allows you to customize the length of your sock by clipping ends with included cable ties and cutting the material to size.

PIG® UV-Resistant Absorbent Sock

PIG COOLANT SKIMMING PAD

Remove damaging oil from coolant.

Pad floats in tank at coolant level and skims tramp oil off to extend coolant life, saving money on disposal and costly replacement. Durable guilted design absorbs oil but not water and it won't sink, even with soaps or detergents present.

PIG® Coolant Skimming Pad						
Weight Item # Size Unit (pads) Abs. Up To Pallet Qty. 1						1+
Limbs	SKM4221	11"W x 14"L	20	1.12 gal./box	60	\$155

PIG UV-RESISTANT ABSORBENT MAT

Absorb liquids over long periods, even in direct sunlight.

Black top layer resists UV rays for up to one year so you can use near windows, on fuel islands, in greenhouses, indoor grow operations and more. Absorbs common industrial liquids including oils, coolants, water and more, and can be left down long-term without growing mildew. MAT2900—MAT2902 are scored on the underside for easy folding; fold to the thickness and width needed for extra targeted absorbency.

BODILY FLUID SPILL KITS AND REFILLS

Safely clean up and dispose of bodily fluid spills.

Bloodborne Pathogen Spill Cleanup Kit contains 32 pieces, including PPE. Plastic case holds two separate inner packs for easier replenishment; choose 22-piece Bodily Fluids Cleanup Refill or 10-piece Personal Protection Refill.

Bodily Fluid Spill Cleanup Kit contains 20 essential supplies for cleaning up bodily fluid spills. Kit is single-use and disposable to help prevent cross-contamination.

HELPS YOU COMPLY with 29 CFR 1910.1030

PIG BACKPACK SPILL KITS

Keep both hands free on the way to a spill, even in difficult locations.

Clean up spills in hard-to-access locations in mining, forestry and more. High-visibility backpack with reflective dots is easy to find, and the rugged construction won't tear so you can refill and reuse it. Multiple storage pockets allow you to add extra spill response products or safety items, and the included flashlight has three settings to help you be visible: high, low and flashing red.

ATTENTION: Independent testing indicates that PIG HazMat products are compatible with and absorb most acids and bases. Due to variables and conditions of applications beyond our control, New Pig cannot guarantee that this product will absorb to your satisfaction. To ensure effectiveness and your safety, we recommend that you conduct compatibility and absorption testing of your chemicals with PIG HazMat products prior to purchase. To ensure safety when using PPE, please consult chemical compatibility guide(s) to determine if PPE is compatible with your chemicals and fluids, or ensure compatibility with chemical manufacturer. If you have any questions or need samples to test, please call us toll free at 1-800-HOT-HOGS.

^{*} MARNING: Cancer - www.P65Warnings.ca.gov

BUTYL GLOVES

Butyl is best when working with highly aggressive chemicals.

Water-based butyl formulation provides superior protection against highly agressive chemicals like aldehydes, ketones, solvent esters and concentrated mineral acids. Flexible and dexterous for easier movement with raised diamond pattern to enhance grip.

Ansell Alphatec® 38-001 Butyl Gloves		A	nsell
(Specify Size: M, L, XL or XXL)			
Item #	1-5	6-11	12+
GLV770 • 14 mil • 14"L • Unlined • 1 pair	\$50	\$48	\$47

NOTE: For chemical resistance and exact thickness information call Technical Services at 1-800-HOT-HOGS® (468-4647) or go to newpig.com.

LATEX GLOVES

Specially chlorinated to reduce the risk of allergic reactions.

Gloves go through a special chlorination process to decrease the chance of allergic reactions, and they comply with FDA food handling regulations. Fish scale texture increases grip so they're ideal for lightduty, low-hazard applications in wet conditions.

Ansell Alphatec® 88-356 Latex Gloves		A	nsell
(Specify Size: M, L, XL or XXL)			
Item #	1-5	6-11	12+

ALPHATEC PVC COATED GLOVES

Fully-coated gloves defend against chemical splashes and abrasions.

Full PVC coating provides splash protection against a wide range of potentially harmful chemicals. Unique rough finish adds a stronger grip in wet and oily conditions, plus it offers superior abrasion protection.

Ansell Alphatec® 04-644 PVC Coated Gloves	;	Ar	sell
(Specify Size: M, L, XL or XXL)

ACTIVARMR PVC COATED GLOVES

Chemical protection, even in low temps, plus insulative interior.

PVC foam coating stays flexible in temperatures as low as -15°F and provides moderate cut resistance. Gloves are liquid-proof with a liquidrepellent surface barrier that keeps hands dry, and the soft, insulative acrylic interior keeps hands comfortable and warm.

NEOPRENE GLOVES

Neoprene guards against a range of chemical hazards.

- GLV767: 100% impermeable to liquid; textured finish for handling wet parts
- GLV768: Case-hardened to enhance resistance to abrasion and chemicals; smooth sand patch finish provides greater tactile sensitivity

ALPHATEC 4000 & 5000 LEVEL B/C COVERALLS

Ultrasonic welding and taping provide excellent protection.

Alphatec 4000 Coveralls provide heavy-duty chemical protection with ultrasonic welding and taping. Permeation tested to withstand over 200 chemical hazards, including chemical warfare agents. Meets EN 1149-5 antistatic standards.

Alphatec 5000 Coveralls are highly resistant to chemicals, biological hazards and chemical warfare agents. Ultrasonic welding and taping offer heavy-duty, multi-layer protection against particulates and liquids. Also usable as a hazmat suit due to the bright orange color. Satisfies EN 1149-5 antistatic standards.

ALPHATEC 2300 LEVEL B/C COVERALLS

Lightweight defense against low-hazard chemicals.

Combines a polyethylene barrier coating with a bi-component nonwoven inner layer to guard against inorganic liquid chemicals, including acids and bases. Satisfies EN 1149-5 antistatic standards and the bright yellow color ensures visibility. Features respirator-fit hood and zip flap with self-adhesive tape closure.

ALPHATEC 2000 LEVEL D COVERALLS

Breathable coveralls guard against static discharge and heat stress.

Alphatec 2000 Coveralls are made of microporous polyethylene laminate nonwoven fabric and the water-vapor permeability of the material protects against heat stress. Satisfies EN 1149-5 antistatic standards, low-linting and silicone-free.

Alphatec 2000 Comfort Coveralls have microporous front material and SMS polypropylene back panel to help reduce risk of heat stress by allowing air and water vapor to escape. Silicone-free to reduce the risk of contaminant transfer to metal prior to spray painting, and adheres to EN 1149-5 antistatic standards.

MOLDEX RESPIRATORS, FILTERS & COVER

Breathe safely and comfortably.

Half-masks have extra-wide sealing areas and the low-profile, compact design fits well under welding helmets and with safety glasses. RSP200 is made of thermoplastic elastomer and RSP201 is made of silicone for enhanced comfort and durability. Full-face model has unique molded-over lens to provide greater field of vision, and it meets ANSI Z87+ for high-impact requirements.

All filters are NIOSH certified and encased in Dura-Mesh for durability. RSP205—RSP206 have exclusive lonicAir filtration technology to provide even more airflow and comfort. Reusable covers snap on to protect filter from sparks and splashes.

CLEANROOM COVERALLS

Wear these in cleanrooms to protect yourself from contaminants.

CleanMax Coveralls are tested in accordance with ASTM D6978 for chemotherapy permeation. WPL3015 is made of breathable SMMS which is meltblown material between spunbond nonwoven fabric.

IsoClean Coveralls are gamma sterilized to ensure a very high level of cleanliness and safety. Clean-processed garments (WPL1018 and WPL1020) offer the lowest level of particle shedding within the DuPont product portfolio.

DISPOSABLE CLEANROOM GLOVES

Lakeland

Dupont Tyvek®

Wear these gloves to stay safe while performing a range of cleanroom tasks.

Polyurethane gloves protect hands from chlorinated solvents (MeCL and TCE), acetone, xylene, freons and IPA. They're sulfur-free and have strong resistance to punctures, snags and abrasion which is great for cleaning precision parts, degreasing items and industrial painting and finishing.

TRUSHOT 2.0 MOBILE DISPENSING SYSTEM

Simplify routine cleaning for a range of surfaces.

Easy-to-use system requires no mixing or measuring and the intuitive design takes just minutes to learn. No-spill, nine-ounce concentrate cartridges snap directly into trigger dispenser, and on-board 10-ounce water reservoir easily fills at any water source. Ideal for smaller offices, convenience stores or any location where task cleaning is required. Buy the starter pack initially then replenish concentrate cartridges and trigger dispensers as needed.

Mobility Belt holds up to four cartridges and a trigger sprayer, so it eliminates the need to keep returning to the supply closet.

EZ CARE PADS

Scrub, polish and condition floors.

Heavy Duty Scrubbing Pad cleans and shines simultaneously, plus it removes scuffs, scratches and black heel marks. For use with low-speed scrubbing machines on a variety of flooring (full list at newpig.com).

High Speed Polish and Conditioning Pad smooths and conditions floors prior to applying EZ Care Floor Coating. Works on vinyl composite tile, vinyl asphalt tiles, terrazzo and select concrete.

೯೬೬ HOOFTRAX WET AREA RUNNERS

Add different levels of traction in wet areas where absorbency is not needed.

Keeping floors dry isn't always part of your gameplan, but that doesn't mean you have to sacrifice floor safety. PIG HoofTrax Runners are the perfect non-absorbent solution for wet areas that just need traction.

Anti-slip properties provide remediation for floors that are otherwise potential slip hazards. The simple peel-and-stick application adheres to VCT, ceramic tile, laminate, marble, sealed stone, sealed concrete and more. Vinyl runners are easy to clean with mops and floor scrubbers, and they won't interfere with facility cleaning services. When it's time to replace them, they peel up with little to no residue left behind. Plus, they're ADA compliant for wheelchairs and walkers. Product life is up to 3 to 12 months, depending on traffic and conditions.

Which HoofTrax Runner is best for your application?

Learn more about each different texture here and on the next page.

CHOOSE THE TRACTION YOU NEED

Sand Texture Gritty, non-abrasive surface provides the most traction in the

HoofTrax™ line.

Pebble Texture Heavily embossed

for safer footing in almost any setting, indoors or out.

Fine Texture

Lightly embossed for added traction on slick, smooth or polished floors.

PIG HOOFTRAX RUNNER - SAND TEXTURE

Add traction in continuously wet areas where absorbency is not needed or permitted. Crystal clear properties help you meet cleaning, sanitizing and hygiene standards, making it easy to inspect for dirt and the growth of mold or bacteria. Sand Texture surface is gritty, but non-abrasive, to help create safer footing around food processing, kitchens, air blades, breezeways, freezers and coolers. UV-resistant for indoor/outdoor use where wet conditions are prevalent.

New Pig Adhesive-Backed Runner Notice: New Pig Adhesive-Backed Runners are formulated to work with most common hard-floor surfaces. New Pig Adhesive-Backed Runners are not intended for use on wood flooring with stains, finishes, or coaling heve Pig Adhesive-Backed Runners have non-permeable barrier layers to prevent liquid pass-through and though some product construction includes a breathable film layer, may not be suitable for use on surfaces that require air curing, including, but not limited to, newly poured concrete or recently applied coatings, sealants, and finishes. All adhesive runners have some potential to leave residue or lift or discolor finish coatings, paint, and loose or pre-damaged tiles depending on the condition and age of the floors or other surfaces. For these reasons and others, if you have questions about the suitability of New Pig Adhesive-Backed Runners for your application, let at small section of mat in a discrete or non-critical area before using on larger areas. New Pig Adhesive-Backed Runners should be replaced immediately if they show signs of wear or damage and should always be replaced no later than their recommended usage life.

CUSTOMER ASSUMES THE RISK. THAT NEW PIG ADHESIVE-BACKED RUNNERS MAY DAMAGE OR ALTER CUSTOMER'S EXISTING FLOORING OR FLOOR COVERING. NEW PIG PROVIDES NO WARRANTY OF FITNESS FOR A PARTICULAR PURPOSE AND NO WARRANTY THAT THE USE OF AN ADHESIVE-BACKED RUNNER WILL BE ACCEPTABLE FOR USE ON CUSTOMER'S FLOORING OR ANY OTHER SURFACE. NEW PIG SHALL HAVE NO RESPONSIBILITY FOR, AND CUSTOMER'S RELEASES AND DISCHARGES NEW PIG SHALL HAVE NO RESPONSIBILITY FOR, AND CUSTOMER HERBY RELEASES AND DISCHARGES NEW PIG FROM, ANY DIRECT, INDIRECT, INCIDENTAL OR CONSEQUENTIAL DAMAGES TO OR RELATED TO CUSTOMER'S FLOORING MATERIAL, OR ANY OTHER SURFACES IN CUSTOMER'S DWELLING OR FACILITY. CUSTOMER IS SOLELY RESPONSIBLE FOR DETERMINING THE FITNESS AND APPROPRIATENESS OF THE USE OF NEW PIG ADHESIVE-BACKED RUNNERS IN CUSTOMER'S DWELLING OR FACILITY.

SURECAN FUEL CANS

Fuel machinery with cans that are full of unique features.

FM approved, Type II safety cans help you comply with OSHA standards when storing and dispensing fuels. Flexible nozzle rotates more than 180° to make filling easier in awkward locations. Thumb trigger makes it easy to control flow and minimize spillage, and the can self-vents when the thumb trigger is used. Self-closing safety fill cap and flame mitigation device in fill neck help prevent spills, fires and explosions. Replacement parts sold separately.

ABSORBENTS

ALL-AROUND WORLD'S BEST BRAND.

World's first sock: The PIG that launched an industry.

In the early '80s, our founders were working hard cleaning up grease and grime in dirty factories. The worst job was shoveling up the loose, oil-soaked cat litter around the bases of leaking machinery. The clay pellets stuck to everything, and when they started losing money on these jobs, they set out to find a better way to soak up the mess.

They cut up pantyhose and stuffed them with everything from sawdust to rice hulls. Then they laid these sausage-shaped things into pools of oil to see what would happen, but nothing worked. Finally, they tried ground corncob, and the world's first contained

absorbent was born — the PIG Original Sock!

Old-school "solutions" don't work!

FLIMSY CARDBOARD

Slips and slides underfoot; even when it's taped down.

HEAVY, HAZARDOUS CLAY

Makes a mess of floors, machinery and your lungs.

CHEAP COMPETITOR MATS

Can't hold their liquids and fall apart in tough jobs.

PIG ABSORBENTS HELP YOU COMPLY

29 CFR 1910.22(a)(2)

Floors in the workplace should be maintained in a clean and, to the extent feasible, a dry condition.

UNIVERSAL

Also called "MRO" absorbents, they soak up the widest range of general liquids — oils, coolants, solvents and water.

Pages 6-37

OIL-ONLY

PIG Oil-Only Absorbents repel water, so you can clean up fuel and oil-based spills, even in outdoor applications.

Pages 38-60

WATER

PIG Water Absorbents are designed for fast-acting, high-volume absorbency that works on contact.

Pages 61-65

HAZMAT

PIG HazMat Absorbents are specially treated to soak up acids and bases without degrading or reacting.

Pages 66-75

Pis UNIVERSAL ABSORBENTS

UNIVERSAL ABSORBENTS

Also called "MRO" absorbents, they're great for everyday applications and soak up a wide range of liquids, including:

- Hydraulic oil
- Vegetable oil
- Coolants
- Isopropyl alcohol
- Lubricants
- Water-based solvents
- Propylene glycol
- Acetone
- Toluene & Xylene
- MEK (methyl ethyl ketone)
- Many other noncorrosive liquids

"Since we started using PIG products, we cut our spill cleanup costs almost in half! PIG Mats are the perfect size for an automotive shop. There are nasty spills here, and your mats kick 'em to the curb!"

— Rebecca, MAT412 Customer

FOR OILS, COOLANTS, SOLVENTS AND WATER

MAINTENANCE MATS

(pages 10-17)

When you need an absorbent mat for catching everyday leaks and drips or soaking up spills, PIG Mat delivers. These mats keep your workstations clean, and they're perfect for jobs without much foot traffic:

PIG Mat PIG Rip-&-Fit Mat PIG High-Visibility Mat Pig Blue Mat

WALK-ON MATS

(pages 21–25)

Got a messy application that will see a fair share of foot traffic? Make sure you're choosing a mat that's built for the job. Step up to these PIG Mats with a spunbond top layer for extra walk-on durability:

PIG 4 in 1 Mat PIG Ham-O Mat PIG Chat Mat PIG Fat Mat

HIGH-TRAFFIC MATS

(pages 26-27)

If leaks and spills are hitting your busiest aisles and walkways, you need our roughest, toughest PIG Mats. These high-traffic mats are designed to withstand a daily barrage of wheels and workboots:

PIG Elephant Mat PIG Traffic Mat

If you're not happy with your New Pig purchase, we'll refund every penny, including taxes and shipping. Even the return freight is on us!

ASK THE EXPERTS

From product support to regulatory compliance, our team is here to help you find cleaner, safer, better ways to work.

Live Chat at newpig.com

Email hothogs@newpig.com

NEED A MAT THAT STICKS WHERE YOU PUT IT? SEE GRIPPY MATS ON PAGES 242–257.

When should I reach for a sock instead of a mat pad?

Small spills and machine overspray call for the quick absorbency of PIG Mat. But leaking machines or runaway spills must be confined before they make your floors a mess and create slip hazards. From PIG Original Socks for general maintenance to PIG Blue Socks for diking and damming liquids, every sock we sell is PIG-tough to do the job right!

Highly absorbent filler traps and holds liquids so they won't leach out onto floors. Moldable skin won't fall apart.

Absorbent material is contained so socks are easy to pick up and replace.

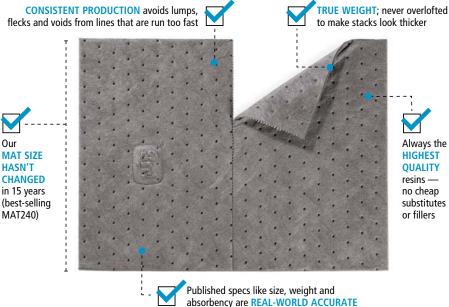

SOME MAT BRANDS CUT CORNERS TO SAVE COSTS. WE DON'T DO THAT.

It's great when a manufacturer can cut their costs, but not so great when it affects product performance. Going backwards in mat size, raw materials or production efficiencies might save dollars up front, but the finished product always suffers. That's what happens in some corners of the absorbents industry, but rest assured, it's not happening at New Pig.

PIG MAT KEEPS IT REAL.

2 LOWER QUALITY

10% less absorbency.

By using lower grades of resin and adding cheap fillers, they save costs while giving customers the short end of the stick. Performance *and* chemical compatibility are compromised.

3 OVERLOFTING

Instead of reducing pad count, some manufacturers reduce material by injecting air. The mats may look the same, but these overlofted fibers underperform in absorbency and retention.

4 RUSHED PRODUCTION

Time is money, and mat production lines are no different. In an effort to lower their costs, companies run lines faster than they should, creating voids, hard flecks and high lumps.

MISLEADING SPECS & CLAIMS

Published specifications like size, weight and absorbency don't always match what's in the box. They might have been true at one time in lab settings, but they don't reflect real-world use.

WE'VE GOT STANDARDS, YES WE DO.

Nobody beats the quality, engineering or performance of the World's #1 Mat Brand. To make sure our claims translate to real-world performance, we conduct regular testing, following strict ASTM and ISO standards. Our goal: for every PIG Mat to do what we say it will do.

1. BASIS WEIGHT — ASTM D3776

PIG Mat material is weighed on our 0.01g calibrated scale to measure basis weight per square yard. This measurement helps to ensure that real-world absorbency matches our stated product specifications.

2. BULK (LOFT) — ASTM D1777

We check the thickness of PIG Mat to 1/1000 of an inch. This level of tolerance helps regulate loft to produce consistent material for superior retention.

3. OIL/WATER CAPACITY — ASTM F726-17 and ISO 20158:2018

PIG Mat is soaked in DTE 24 hydraulic oil for 15 minutes then hung for drip-out, with weight measured before and after.

4. TENSILE STRENGTH — ASTM D5034

Force transducers stretch our mat until it eventually pulls apart, far exceeding the rigors of real-world abuse.

5. RECIPROCAL ABRASION — ASTM D3884-22

The Reciprocal Abrasion Testing (RAT) Machine creates back-and-forth friction to gauge a mat's scuff resistance.

6. ROTARY ABRASION — ASTM D3389

The rotary abrasion tester measures the "scrubability" of a mat, and how much punishment it can take in general.

7. VERTICAL WICKING — ISO 9073-6-2000

PIG Mat is hung above hydraulic oil to measure liquid draw, in time and distance, as oil travels up the mat. This test is also repeated with water.

PiB UNIVERSAL ABSORBENT MAT PADS

The one absorbent mat pad to have if you only have one.

TRIED & TRUSTED

PIG Mat delivers the perfect balance of absorbency, retention and durability. When we say universal, we mean it! Our best-selling gray pads soak up all sorts of stuff, including hydraulic oil, acetone, coolants, propylene glycol and many other noncorrosive liquids. They're ideal for catching drips and soaking up spills from machinery or other potentially hard-to-reach areas.

SAVES YOU MONEY

By staying down longer and needing fewer changeouts, PIG Mat saves you time and money. When cheaper mats can't keep up and need constant replacing, those initial "savings" go right out the window.

HELPS YOU COMPLY with 29 CFR 1910.22(a)(2) for maintaining floors in a clean, dry condition.

SOAKS UP FAST

Our exclusive dimple pattern speeds up the wicking of liquid throughout the mat. Leak and spill cleanup is quick and easy.

HOLDS ITS LIQUID

Highly absorbent fine fibers trap liquids so they don't pour back out when you pick up the mat. The mess is gone for good!

LASTS 2X LONGER

Multiple layers of thermally bonded polypropylene give PIG Mat superior strength and abrasion resistance.

A CLOSER LOOK

PIG exclusive! Multiple layers of thermally-bonded, melt-blown polypropylene make PIG Mat the toughest mat on the market.

PIG UNIVERSAL MAT PADS

Pads are ideal for catching drips and soaking up spills — get them in a dispenser box for easy, clean storage. Choose lightweight mat for small jobs and routine changeouts; mediumweight as a great general purpose mat; and heavyweight for bigger leaks and spills.

PIG RIP-&-FIT MAT ROLLS

Extra perforations let you customize PIG Mat to the shape you need.

Rip-&-Fit Mat's extra perforations let you easily "rip" this PIG Mat and "fit" it to your space without cutting. Use only what you need and waste less. Customizable to your application; create long, narrow strips to fit into tight spaces or bigger sheets for around machinery. MAT253 and MAT242 come in a dispenser box which makes it easy to carry and store your mat while protecting it from dirt and moisture.

PIG MAT TABLET PACK

Hang this handy pack of mat pads anywhere you need it.

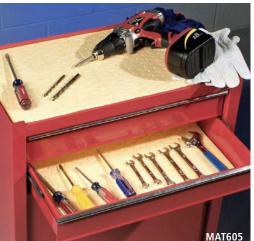

Packs are perforated at the bound edge so one quick tear is all it takes. Pop-up tabs and cardboard back let you hang them anywhere in your plant — on a pegboard by your workbench, on your tool cart, even on your forklift. Multiple layers of 100% polypropylene are thermally bonded to make PIG Mat the strongest mat on the market. It won't rip, tear or fray even when saturated.

A CLOSER LOOK

PIG exclusive! Multiple layers of thermally-bonded, melt-blown polypropylene make PIG Mat the toughest mat on the market.

PIG HIGH-VISIBILITY MAT

Can't-miss-it safety yellow mat alerts workers to potential hazards.

Bright yellow color stands out so it's easy for workers to see hazards, repairs or cleanups in progress, even in poorly lit areas. Multiple layers of 100% polypropylene are thermally bonded to make PIG Mat the strongest mat on the market. It won't rip, tear or fray even when fully saturated.

MAT606

BLUE MAT

Our most absorbent mat stays down longer so you use less and save \$\$\$.

THIS MAT IS TRUE BLUE

Clean up big, persistent leaks and drips with our maximum absorbency pads — they soak up more liquid than any other mat we offer. Our pads and rolls won't fall apart, even when soaked with coolant, paint, gear oil and viscous liquids. Mats contain 75% recycled fibers and are fire retardant.

OUTSTANDING VALUE

By staying down longer and needing fewer changeouts (perfect for hard-to-monitor areas), Pig Blue Mat saves you time and money. When cheaper mats can't keep up and need constant replacing, those initial "savings" go right out the window.

HELPS YOU COMPLY with 29 CFR 1910.22(a)(2) for maintaining floors in a clean, dry condition.

Nothing beats **Pig Blue Mat** for soaking up spilled coolant.

Pig Blue Absorbent Mat stands out from the crowd with its ability to soak up coolant, gear oil and various viscous liquids. Its high-loft design absorbs and retains the mess to help you stay clean, safe and productive. Pig Blue also saves you time and money — it soaks up more so you use less.

A CLOSER LOOK

Super absorbent core fuses natural and synthetic fibers to enhance absorbency, strength and loft.

PIG BLUE MAT PADS AND ROLLS

Pads are ideal for catching drips and soaking up spills from machinery or other potentially hard-to-reach areas. Rolls absorb heavy, persistent leaks and overspray in large areas. Choose lightweight for small jobs and routine changeouts or heavyweight for bigger leaks and spills.

engines and cleaning up spills. During the day, he and his team at Importapart, a specialized auto salvage operation in Hazelwood, MO, have plenty of hands-on experience. At night and on weekends, he's hard at work for his "I Do Cars" YouTube channel where he shares those engine teardowns with the world.

Absorbent Bibs work with lawn mowers, car engines, tanks, IBCs and much more!

PIG ABSORBENT BIB

Catch drips and splashes while filling your tank.

Keep the tank, floor or ground clean by catching drips and splashes with absorbent bibs. They're made to fit around a wide variety of fill openings, including large tanks and IBCs. They absorb and retain most common industrial liquids including oils, water, solvents and coolants. Area around fill neck must be cool before placing bib; easily removable.

PIG Absorbent Mats are flame resistant in their unused state, but take on the properties of flammable liquids they absorb. Always take proper precautions against potential ignition in handling and disposal of these mats if they have absorbed flammable liquids. For further assistance, please call Technical Services.

CHECK OUT OUR BURPLESS DRUM FUNNELS ON PAGES 358-361

PIG BARREL TOP SAFETY MESSAGE MAT

Convey important messages on your drum tops!

Message remains visible even when drums are grouped in storage and sides are covered by other drums. SGN1206 and SGN1214 have a blank space where you can write your own custom message. Mats absorb coolants, oils, solvents and water, and poly backing prevents liquids from reaching drum tops.

PIG BARREL AND PAIL TOP MAT

Keep drum and pail tops clean with mats that are shaped to fit.

Our Barrel and Pail Top Mats fit perfectly, with precut holes for bungs, and the dispenser box (except MAT237) makes them easy to store and dispense. Choose Universal for most applications or Pig Blue for coolants, gear oil and viscous liquids. Poly-backed version offers an extra layer of protection against liquids reaching your drum.

"It fits perfectly inside the drum top, absorbs all drips and spills, and is easy to replace when dirty. This saves us hours of cleaning off the drum top and using other caps and covers that don't perform as well. Highly recommended!"

— John, MAT208 Customer

PIG EXTRA-DUTY ABSORBENT MAT

Clean up with two-sided toughness.

Two additional spunbond outer layers resist ripping and fraying from wiping coarse surfaces or parts that would shred conventional mats. Low-lint for wiping rough parts or equipment and for cleaning in paint booth applications. It's great for lining benches or for placing under sharp parts.

PIG RE-UZ-IT WRINGABLE MAT

Soak it up, wring it out and reuse it up to 100 times!

Durable needle-punched outer layer extends product life, and specially designed filler springs back into shape after being wrung out so it's ready to use again. Soak up oils, coolants, solvents and water then release them when processed through an absorbent wringer (see page 312) which saves money by reclaiming and recycling used liquids.

PIG 4 IN 1 MAT

Pull it out and tear it to size. It's four products in one!

Exclusive 4 in 1 Mat is a pad, roll, sock and wiper! Use it as a pad to catch drips and soak up spills; roll it out to cover large areas; fold along score lines to make a thick, absorbent sock; tear off a piece to use as a low-lint wiper. Scuff-resistant, spunbond outer layer resists wear and tear, even under medium foot traffic or abrasive conditions. Rolls are scored and perforated every 10" so it's easy to tear to size and use only what you need.

A CLOSER LOOK

PIG exclusive! Multiple layers of thermally-bonded polypropylene and a spunbond top provide absorbency and wear resistance.

Pis HAM-0 MAT

Bring the fun to workplace messes with our PIG-printed camouflage!

Our distinctive Ham-O pattern is printed with thousands of pigs! The pattern conceals absorbed leaks and drips to keep the mat on the job and looking good until it's completely saturated. The tough, scuff-resistant spunbond top layer stands up to foot traffic without ripping, tearing or fraying. Use it anywhere: line workbenches, counters and toolboxes, catch drips and overspray around machinery, clean up oil and grease in service pits and more!

NOTE: Ham-O Mat is not recommended for absorbing solvents or corrosive liquids that may affect the printed pattern.

NOW YOU SEE IT... NOW YOU DON'T!

Oily leaks, drips and spills disappear as they're absorbed.

A CLOSER LOOK

PIG exclusive! Multiple layers of thermally-bonded polypropylene and a spunbond top provide absorbency and wear resistance.

PIG HAM-O UNIVERSAL ABSORBENT MAT

Available in two grime-hiding colors. Mat Pads are ideal for catching drips and soaking up spills, while Mat Rolls are good for covering large areas and absorbing overspray. Dispenser box makes it easy to carry and store your mat while keeping it protected.

PIG CHAT MAT

Clean up spills while sending a can't-miss safety message.

Clearly visible messages are repeated down the length of the roll to help create a safer environment for workers. Choose from the five messages shown to the right. The durable Chat Mat top layer prevents wear, even under foot traffic, and under it is proven multi-layer PIG Mat, the strongest mat on the market. It absorbs and retains oils, coolants, solvents and water while the easy-tear perforations let you take only what you need.

PIG exclusive! Multiple layers of

thermally-bonded polypropylene and a spunbond top provide absorbency and wear resistance.

PIG FAT MAT

Double-thick to absorb more and last longer.

Fat Mat has twice as many layers of 100% polypropylene as our regular PIG Mats, and those layers form one super-absorbent mat that can drink up huge volumes of liquid. Fastwicking "diaper action" transfers liquids into the inner layers to keep moisture away from the mat surface. Tough, spunbond top layer stands up to foot traffic — it won't rip, tear or fray, even when saturated. Easy-tear perforations let you take only what you need, so you use less and save money.

PIG ORIGINAL SOCK

Control your everyday leaks.

This is the sock that started it all back in 1985! Formable corncob-filled socks hug corners and surround machine bases to absorb leaks, contain puddles and keep workers safe. Polypropylene skin resists tearing; reduces dust and holds in liquids, even when wet.

"PIG Absorbent Socks work fantastic keeping our floors clean and dry of unwanted oil and solvent leaks. They are priced right and get the job done! Customer service is fantastic and a pleasure to deal with."

— Jeff, Happy Customer

* A WARNING: Cancer - www.P65Warnings.ca.gov

NEED TO TALK ABOUT A SOCK? CALL OUR TECH TEAM AT 1-800-HOT-HOGS!

Vermiculite filler quickly absorbs leaks and gives weight to the sock.

3 SIMPLE STEPS TO GET THE MOST OUT OF YOUR PIG SOCKS.

- 1. Clean up all loose absorbents, rags and other debris around the source of the leak. Hold each sock by its ends and shake to evenly distribute filler. This will create better surface contact.
- 2. Make sure your PIG Socks have direct contact with the floor and the liquid being absorbed. Don't stack socks on top of each other. When placing end-to-end, overlap them by 3".
- 3. If it ain't soaked, don't pitch it! Let the sock work until it's saturated. Replace the sock when you see liquid seeping out from underneath.

UNIVERSAL

PIG SUPER ABSORBENT SOCK

Our most absorbent sock.

Extra-thirsty, formable socks hug corners and walls, surround higher-volume machine leaks and contain spills to keep workers safe. Super absorbency means that you replace them less often, and they're wringable for reclaiming up to 65% of absorbed liquid.

Super Socks can be wrung out to reclaim liquids for recycling. (See page 312 for wringer.)

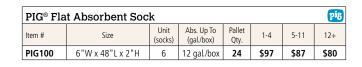

PIG FLAT ABSORBENT SOCK

More ground contact for best protection against seepage.

Flat design is a hybrid of round socks and flat pillows; hugs walls, machine bases and uneven ground to contain leaks, drips and spills. Low-profile design puts more material in contact with the ground for better diking and maximum saturation.

PIG ABSORBENT PILLOW

Big absorbency for big cleanups.

Some messes need more than a mat. Fast-wicking cellulose makes our high-capacity Pillows perfect for soaking up large leaks and spills. Polypropylene skin resists tearing, reduces dust and holds in liquid while compact design is great for catching persistent leaks and drips in small spaces or for adding absorbency for spill response.

"We've used these pillows for catching oil drips in tight spots, as they can be shoved into a nonconforming area and positioned to catch drips. They hold up extremely well!"

— David, PIL201 Customer

PIG DRI LOOSE ABSORBENT

PLP213-1

Highly absorbent granules are heavy like clay and won't blow around.

Unlike clay, which simply gets coated with liquid, fast-wicking cellulose-based kaolin granules begin to soak up liquid the moment they touch the spill. 47% recycled content; silica-free composition doesn't pose the health hazards associated with breathing in clay dust. Easier than clay to carry and use without injury. Select easy-to-use shaker bottles or pouches for small spills.

PIG® Dri Loose Absorbent			pig

Corrosive Liquids Notice: Not recommended for acids, bases or other corrosive liquids. Ingredient Notice: Contains intentionally-added ingredients that may contain fragrance allergens.

*▲ WARNING: Cancer - www.P65Warnings.ca.gov

"We tried several different brands from at least 6 different vendors. This product tops them all. Very little dust, it's light, but won't blow away in outside applications and it absorbs faster than anything we've tried. New Pig has all my shop's business for absorbent products."

- Mark, PLP213-50 Customer

LITE-DRI VS. CLAY? THERE'S NO COMPARISON!

What happens when we put PIG Lite-Dri Absorbent against clay on a 45-gallon spill? Lite-Dri Absorbent wins hands down!

Number of bags needed

Dry weight of absorbent

Used absorbent & liquid

Lite-Dri	= 1 drum
Clay	= 2 drums

Disposal costa

Lite-Dri	$= \$600^{\circ}$	
Clay		= \$1,800°

Total costs (material, disposal)

^aWhether you use incineration or landfill, savings are 50% because you dispose of 50% less volume.

PIG LITE-DRI LOOSE ABSORBENT

Lighter and easier to carry than clay, plus it absorbs up to 3X more!

Fast-wicking recycled cellulose soaks up the spill the moment it touches, unlike clay, which simply coats itself with liquid. Silica-free, non-abrasive composition is three times more absorbent — you'll use less material on the spill, reducing your labor and disposal costs. This lightweight absorbent is easier to carry than clay, and there's less risk of back injury during use.

Pis OIL-ONLY ABSORBENTS

Soak up oily leaks and spills without wasting absorbency on water.

WORLD'S
#1
ABSORBENT
BRAND

OIL-ONLY ABSORBENTS

PIG Oil-Only Absorbents do not absorb water. They should be your first choice for any application — indoors or out — where you need to soak up oil without wasting absorbency on water. They're perfect for any oil- or hydrocarbon-based liquids, including:

- Motor oil
- Hydraulic oil
- Cutting oil
- Diesel fuel

- Synthetic oils
- Vegetable fluids
- Oil-based solvents

FOR OIL-BASED LIQUIDS BUT NOT WATER

OIL-ONLY ABSORBENTS

FLOAT ON WATER

Absorb oil spills on water — our mats won't sink, even when they're soaked.

ABSORB ONLY OIL

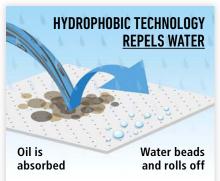

If you're only dealing with oil, don't spend more on a universal mat.

WORK IN THE RAIN

Water-repellent PIG Mats are great during and after rainy weather.

2 WAYS TO ABSORB OIL AND LEAVE WATER BEHIND:

Oil-Only Socks & Booms —

Floating absorbents help you control even large waterborne oil spills. They stay afloat even when saturated.

Oil-Only Mat Pads & Rolls —

Maximize efficiency and save money, indoors or out, if you're only cleaning up oils or fuels.

Oil-Only Pillows—

Clean up large volumes of oil with our high-capacity pillows. Great for big spills on water or use beneath leaky machines.

Oil Absorbent Filter Mats —

Designed for stormwater applications and oily cleanups on land, these absorbent mats work rain or shine.

Oily Water Pour-Through Filter—

Oil filtration system uses replaceable absorbents and gravity for easy oil/water separation.

Frequently Asked Questions:

Q: Will oil-only mats absorb diesel fuel?

A: Yes! PIG Oil-Only Mat absorbs all fuels and oil-based liquids including hydrocarbon-based, vegetable-based and synthetic oils and solvents. If static is a concern, choose PIG Stat-Mat Absorbents, sold on page 44.

Q: Which absorbents should I use to filter oil from water?

A: PIG Oil Absorbent Filter Mats (sold on page 48) and PIG Pour-Through Oily Water Filters (sold on page 51) absorb oils and fuels but let water pass through. Great for stormwater jobs or general maintenance.

Q: What can I use for oil spills on land?

A: PIG Peat Absorbent (sold on page 60) is ideal for cleaning up oil that was spilled on soil. PIG Oil-Only Absorbent Booms (sold on page 57) can also be used to contain and absorb oil spills on land.

Pis OIL-ONLY MAT

Our most cost-effective mat when you only need to absorb oil.

Absorb and retain fuels and oil-based liquids without taking in a drop of water. Durable multi-layer mat repels rainwater and floats for skimming applications and cleaning up spills on water. White color draws attention to machine leaks and clearly shows saturation level during spill response.

SOAKS UP FAST

Our exclusive dimple pattern speeds up the wicking of oil throughout the mat. Leak and spill cleanup is quick and easy.

HOLDS ITS LIQUID

Highly absorbent fine fibers trap oil so it doesn't pour back out when you pick up the mat. The mess is gone for good!

LASTS 2X LONGER

Multiple layers of thermally bonded polypropylene give PIG Mat superior strength and abrasion resistance.

A CLOSER LOOK

PIG exclusive! Multiple layers of thermallybonded, melt-blown polypropylene make PIG Mat the toughest mat on the market.

Mat Pads are ideal for soaking up spills on water or catching oily leaks and drips from machinery or other potentially hard-to-reach areas. Choose lightweight for small jobs or routine changeouts; medium weight as a great general purpose mat; and heavyweight for bigger spills and leaks. Poly-Back Pads (MAT4980) prevent absorbed liquids from reaching surfaces.

PIG OIL-ONLY TABLET PACK

Hang this handy pack of mat pads anywhere you need it.

Packs are perforated at the bound edge so one quick tear is all it takes. Pop-up tabs and cardboard back let you hang them anywhere in your plant — on a pegboard by your workbench, on your tool cart, even on your forklift. Multiple layers of 100% polypropylene are thermally bonded to make PIG Mat the strongest mat on the market. It won't rip, tear or fray, even when saturated. White color tells you it's only for oils and fuels.

PIG Absorbent Mats are flame resistant in their unused state, but take on the properties of flammable liquids they absorb. Always take proper precautions against potential ignition in handling and disposal of these mats if they have absorbed flammable liquids. For further assistance, please call Technical Services.

Patent 6,548,135

PIG MAT COMBO IN DISPENSER BOX

Convenient combo box dispenses two types of PIG Mat.

Stay ready for more kinds of spills with two types of absorbents loaded into one dual-dispenser box. Ideal for keeping in areas where a variety of leaks and spills occur. Gray PIG Universal Mat Pads soak up water, coolants, solvents and oils; white PIG Oil-Only Mat Pads absorb oils and fuels while repelling water.

MAT2240

Each box includes equal amounts of both mat types.

PIG RIP-&-FIT OIL-ONLY MAT

Create a custom size to fit your workspace and reduce waste.

Extra perforations allow you to easily "rip" this PIG Mat and "fit" it to your application without cutting. Absorbs and retains oil-based liquids — including lubricants — without taking in a drop of water. Bright white color makes absorbed oil easier to see, draws attention to leaks and clearly shows saturation level during spill response.

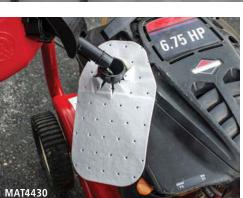

Tear at the perforations to create the right mat size for any area.

Bibs fit over a wide variety of fill openings.

PIG STAT-MAT ABSORBENT BIB

Safely catch drips and splashes while filling your tank.

Keep the tank, floor or ground clean by catching drips and splashes with absorbent bibs. They absorb oils and fuels like acetone, benzene, gasoline, toluene, xylene, mineral spirits and jet fuels, but they don't absorb water. They reduce the risk of electrostatic charge which is a critical precaution around flammable liquids and vapors; packaged in static-dissipative bags to help reduce static-charge buildup. Area around fill neck must be cool before placing bib.

MAT4430

PIG® S	stat-Mat®	Absorbent	Bibs			pig
Weight	Item #	Size (W x L)	Opening Size	Unit	Absorbs Up To	1+

PIG Absorbent Mats are flame resistant in their unused state, but take on the properties of flammable liquids they absorb. Always take proper precautions against potential ignition in handling and disposal of these mats if they have absorbed flammable liquids. For further assistance, please call Technical Services.

PIG STAT-MAT PADS AND ROLLS

The ONLY absorbent mat for fuels & solvents proven to dissipate static.

The best mat you can buy to reduce the risk of electrostatic discharge; a critical precaution around flammable liquids and vapors. Stat-Mat Pads and Rolls pass ANSI and MIL-SPEC standards for static decay and surface resistivity, making them perfect for fueling areas and solvent cleanup. Mat absorbs and retains oils and fuels — including acetone, benzene, gasoline, toluene, xylene, mineral spirits and jet fuels — but not water.

Available in pads, easy-tear perforated rolls and unperforated rolls that allow you to cut custom lengths.

HELPS YOU COMPLY with 29 CFR 1910.106(e)(6)(i) for preventing the ignition of flammable vapors

Packaged in special bags that dissipate static charge buildup for sensitive environments; bright pink color is easily distinguishable to prevent improper use or pilfering.

PIG Static-Dissipative Absorbent Sock reduces the risk of electrostatic discharge while surrounding spills of volatile liquids. See page 53.

PIG OIL-ONLY BARREL AND PAIL TOP MAT

Absorb oily drips from your pump without absorbing water.

Keep the oil in drums and pails from making a mess with these perfect-fit mat pads. They soak up fuels, oils and oil-based liquids but NOT water, plus they have precut holes for bungs. Dispenser box makes them easy to store and dispense. Available in original, poly-backed, UV-resistant and pail versions.

"These mats are fantastic for keeping our drum areas clean and in compliance with regulatory requirements. Inspectors are very happy to see them in place.

Never have to worry about oil sheen running off the drum when it's out in the wet weather."

— Ted, MAT4109 Customer

PIG OIL-ONLY FAT MAT

Double-thick so it absorbs more.

Fat Mat has twice as many layers of 100% polypropylene as our regular PIG Oil-Only Mats, and those layers form one superabsorbent mat that can drink up huge volumes of oily liquid. Spunbond top layer stands up to foot traffic without tearing or fraying, even when saturated. Absorbs and retains oil-based liquids without taking in a drop of water, and fast-wicking "diaper action" keeps moisture away from the surface.

MAT4101

Fat Mat has double the layers to take on your biggest oily messes.

A CLOSER LOOK

Spunbond top adds walk-on durability. Double-thick, multi-layer polypropylene makes Oil-Only PIG Fat Mat extremely absorbent.

MAT437

Now you see it... now you don't!

Oily leaks, drips and spills disappear as they're absorbed.

PIG HAM-O OIL-ONLY MAT

Ham-O layer camouflages liquids and grime while it absorbs.

Printed with thousands of pigs, these hamouflage mats are a fun way to absorb liquid and hide grime. Ham-O keeps your workplace tidy — absorbed leaks and drips blend right in to the top layer so the mat appears clean. Use it anywhere: line counters, catch drips around machinery, clean up oil and grease in service pits and more!

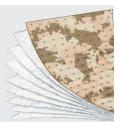

MAT437

NOTE: Ham-O Mat is not recommended for absorbing solvents or corrosive liquids that may affect the printed pattern.

A CLOSER LOOK

PIG 4 IN 1 OIL-ONLY MAT

Our most versatile mat is like four products in one.

Exclusive 4 in 1 Mat is a pad, roll, sock and wiper all in one. Use as a pad to catch drips and soak up oil-based spills; roll out to cover large areas; fold along score lines to make a thick, absorbent sock; tear off a piece to use as a low-lint wiper. Scuff-resistant, spunbond top layer resists wear and tear, even under foot traffic or abrasive conditions, and highly absorbent, fine-fiber construction won't leave behind oil or fiber residue.

PIG OIL ABSORBENT FILTER MATS

Traps oils but lets water pass through for fast outdoor cleanup.

Absorbs hydraulic fluid, motor oil and other oil-based liquids from water before it hits the waterway; allows only clean water to pass through. Ideal for stormwater applications and general filtration of oily water on land — rain or shine (UV resistant for outdoor use)! Great for use near storm drains, pipes, outflows, storage tanks, roll-offs, vehicles and other oily equipment; can also be used as a pour-through filter for mop buckets or other containers of oily water.

MAT1201 and MAT1206 come in special vacuum packaging for compact storage in a vehicle or spill kit.

HELPS YOU COMPLY with SPCC and Stormwater Regulations

MAT465

59"W rolls fit between

standard railroad tracks while 19"W mat (MAT466) can be used on the outside of tracks.

Rugged top layer adds durability. Middle layer absorbs oils and fuels while bottom layer prevents them from seeping into the ground.

PIG OIL-ONLY ABSORBENT GROUND TARP

Durable mat absorbs oils and fuels. not water, in outdoor applications.

Heavy-duty, three-layer, UV-resistant mat ensures oily leaks and drips never reach the ground — perfect for outdoor equipment maintenance or storage.

Top layer is a tough geotextile fabric. Highly absorbent polypropylene middle layer traps oils and fuels but allows rainwater to evaporate, and bottom barrier film prevents liquids from leaching into the ground. Liquids absorb quickly for easier cleanup and the tarp won't rip, tear or fray, even when saturated. Material cuts easily with utility knife or scissors, plus it protects user while they're lying on the ground.

PIG OIL-ONLY RAILROAD MAT

Same great ground tarp, but it's specially sized for railroad tracks.

This rugged, three-layer mat is designed specifically to absorb oils and fuels, not water, from railcars during railyard maintenance. 59" width roll fits right between standard rails; 19" width roll can be used on the outside of rails. UV resistant for outdoor use.

Top layer is extremely durable while middle layer absorbs oils and fuels. Bottom barrier film prevents liquids from leaching into the ground.

MAT466

PIG OILY WATER FILTER BUCKET

Connect to a leak diverter to comply with regs.

Oil-only absorbents soak up hydrocarbons but repel water which flows through the UV-resistant bucket to lower drainage point.

Top hose fitting accepts 3/4" hose from a PIG Leak Diverter (sold separately) or other liquid sources; 3/4" connection on bottom of container accepts a drain plug (included), drainage hose (included) or can be used as a free-flowing drain.

FLT730 absorbs up to five gallons of oil; FLT1153 absorbs up to one gallon of oil.

HELPS YOU COMPLY with 40 CFR 122.26 Stormwater Regs

PIG POUR-THROUGH OILY WATER FILTER

Separate oil from water.

Pour-through filters separate oil from water through gravity. Simply pour liquid into the top and filtered water flows out of the drain at bottom. The replaceable PIG Oil Absorbent Pillows are easy to change and rotate for maximum life. 55-gallon drum handles up to eight gallons of liquid per minute. Add optional Carbon Pillows (FLT612) to remove trace hydrocarbons from wastewater.

PIG OIL-ONLY WEIGHTED BLANKET

It stays put, even in 40 mph winds.

Ballast keeps blanket in place while hydrophobic polypropylene filler absorbs petroleum-based liquids but not water. Durable spunbond outer shell repels water and is UV resistant up to 12 months. Folds easily for conforming to uneven surfaces or adding capacity where you need it, and grommeted corners allow blanket to be staked down in soil or gravel applications.

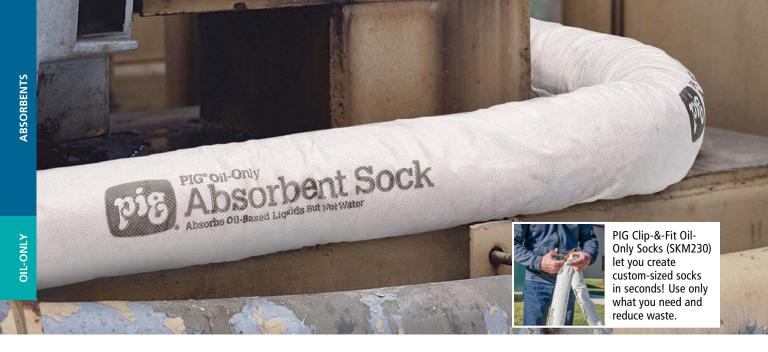

HELPS YOU COMPLY with SPCC and Stormwater Regulations

PIG OIL-ONLY ABSORBENT SOCK

The best outdoor sock for oil.

UV resistant for up to 12 months plus meets ANSI and MIL-SPEC standards for static decay. Moldable sock hugs corners and surrounds equipment bases to absorb leaks and contain puddles. Ideal for use on land, but also floats to clean up oil spills on water. PIG Clip-&-Fit Oil-Only Socks let you create custom-sized socks by cutting the exact length you need.

NOTE: Not recommended for use with acids, bases or other corrosives.

"We had a small oil spill in our parking lot and used these socks to clean up the spill before the oil could get into the storm sewer. They worked on standing water and on the pavement where the oil was dripping! They saved the day!"

— David, SKM210 Customer

PIG OIL-ONLY MAINTENANCE SOCK

Soak up oil-based liquids indoors.

These socks absorb oils, solvents and other hydrocarbons, but not water. Economical design is great for general use compared to specialty socks. Tan color hides grime, and the filler is a mixture of pre- and postconsumer hydrophobic newsprint that's 95% recycled content.

NOTE: Not for continuous outdoor use.

PIG® Oil-Only Maintenance Absorbent Sock								
Item #	Size	Unit (socks)	Abs. Up To	Pallet Qty.	1-4	5-11	12+

Corrosive Liquids Notice: Not recommended for acids, bases or other corrosive liquids. Ingredient Notice: Contains intentionally-added ingredients that may contain fragrance allergens.

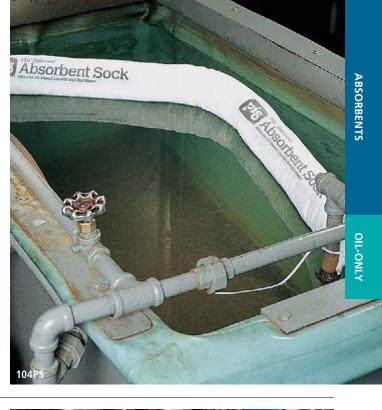

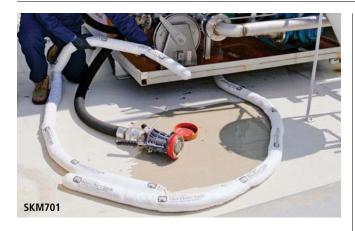

Absorb oil from chemical baths.

Skimmer socks are ideal for skimming oil off acid or caustic baths or for use in other acidic environments. They float at the surface for easy retrieval, and they meet ANSI and MIL-SPEC standards for static decay. UV-and chemical-resistant skin and filler absorb oil-based liquids but repel water-based liquids.

PIG® Skimmer Oil-Only Absorbent Sock								
Item #	Size	Unit	Abs. Up To	Pallet Qty.	1-4	5-11	12+

PIG FLAT OIL-ONLY SOCK

UV-resistant sock has a wider surface area for oily drips outdoors.

A hybrid of round socks and flat pillows that hugs walls, machine bases and uneven ground to absorb and contain oil-based leaks but no water. Low-profile design puts more material in contact with the ground for better diking and max saturation. Skin is UV resistant up to 12 months plus meets ANSI and MIL-SPEC standards for static decay.

Corrosive Liquids Notice: Not recommended for acids, bases or other corrosive liquids. Ingredient Notice: Contains intentionally-added ingredients that may contain fragrance allergens

PIG SUMP SKIMMER

Perfectly sized for sumps and tanks.

Simply lower floating skimmer into sumps, tanks and bilges to absorb oil-based liquids without taking in water. Bright white color makes absorbed oil easy to see. SKM400 and SKM404 meet ANSI and MIL-SPEC standards for static decay.

Skimmers float on water but do not absorb it.

"Your skimmers and oil-only products saved our bacon many times during surprise environmental regulators' visits. They were impressed with how they absorb all the oil and don't drip any while being retrieved from the sump."

— Robert, SKM400 Customer

PIG MONITORING WELL SKIMMING SOCK

Small-diameter sock lets you know if there's oil in your monitoring well.

Socks are just the right size for keeping an eye on well maintenance. Skimmer floats while absorbing oils — including lubricants and fuels — without taking in water. Polypropylene skin resists tearing and meets ANSI and MIL-SPEC standards for static decay. Bright white color makes absorbed oil easier to see and clearly shows saturation level.

PIG SHEEN CLEAN BOOMS & SOCKS

Clean up thin, oily residue on water that other absorbents leave behind.

Proprietary filler blends high-capacity recycled cellulose with a copolymer that pulls in thin, "rainbow" sheens of oil. Ideal for long-term deployment to remove sheen from oil spills or absorb residue in retention ponds, catch basins, tanks and more. Skin is UV resistant up to 12 months; provides long-term outdoor use without degradation.

pie OIL-ONLY ABSORBENT BOOMS

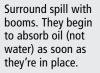

Control an oil spill on water with our field-proven booms.

Booms float at the surface to confine and soak up oil spills on water and that makes for easy retrieval, even when the booms are saturated. There's a rope running along the length of the boom that withstands up to 400 lb. loads, adding strength for deployment and retrieval, plus they have strong, zinc-plated carbon steel clips and rings which allow you to link booms together for greater length. The tough outer mesh lets fluids easily pass through to the filler material that absorbs and retains oilbased liquids — including lubricants — without taking in a drop of water. Can also be used to contain and absorb oil spills on land.

OIL-ONLY BOOMS AT WORK

As oil is absorbed, the boom sinks in the water. Oil is now exposed to fresh absorbent.

When completely saturated, the boom will "bob" just below the water's surface.

PIG OIL-ONLY ABSORBENT BOOM

Bright white booms are easy to see in outdoor environments and clearly show the saturation level. The spunbond polypropylene skin is UV resistant for up to 12 months, plus it meets ANSI and MIL-SPEC standards for static decay. Available in three diameters and two lengths to suit a variety of applications.

PIG PEAT ABSORBENT

Our best loose absorbent for cleaning up oil spilled on soil.

Superabsorbent, nonleaching activated sphagnum peat moss absorbs up to eight gallons of oil per bag. Just throw it on a spill and sweep it up! If used indoors, it even removes oily sheen from your floor.

NOTE: Not recommended for oil spills on water.

PIG® Peat Absorbent				pig
Item #	Pallet Qty.	1-9	10-39	40+
PLP404 • 15 lb. Bag • Absorbs up to 8 gal./bag	80	\$40	\$38	\$35

PIG OIL-ONLY LOOSE ABSORBENT

Our most absorbent loose for oils and fuel.

Polypropylene material absorbs oil-based liquids but not a drop of water. It's packaged loose so it can be broadcast into areas where booms and pillows can't reach. Ideal for use on shorelines where saturated absorbents can easily be raked up on ground or rocks.

PIG® Oil-Only Loose Absorbent				pig
Item #	Pallet Qty.	1-4	5-11	12+
SA8010 • 5 lb. Bag • Absorbs up to 7.5 gal./box	36	\$122	\$114	\$109

PIG OIL SOLIDIFYING ABSORBENT POWDER

Turn spilled oils into a solid.

Permanently solidifies absorbed oils and locks them into the material for easy cleanup. It won't leak or revert to liquid state, even in disposal. Environmentally friendly product absorbs oils and oil-based liquids but will not absorb water.

Pi8 WATER ABSORBENTS

WATER ABSORBENTS

PIG Water Mats, Strips and Socks are designed for quick-acting, higher-volume absorbency that works on contact.

WEATHER-RELATED

Manage weather-related issues such as a leaky roof, wet entrance or rising water at the loading dock.

OPERATIONAL

Be prepared to handle liquid messes from washdowns, cleanouts and other maintenance operations.

HELPS YOU COMPLY

29 CFR 1910.22(A)(2)For maintaining floors in a clean, dry condition

DID YOU KNOW?

- The No. 2 business insurance claim is water damage (avg. cost \$17,000)
- The No. 5 business insurance claim is slips and falls (avg. cost \$20,000)

LOTS OF WATER? SUCK IT UP WITH OUR WATER VACUUM BARRIER (WTR052). SEE PAGE 317.

A CLOSER LOOK

PIG exclusive! Spunbond top layer adds durability. Fused natural and synthetic fibers create strength and enhance absorbency. Lofty inner core provides superabsorbency.

PIG WATER MAT

The ONE mat to stock for cleaning up water problems.

PIG Water Mat has superfast wicking that helps you quickly eliminate puddles to prevent damage, slips and falls.

Be prepared to soak up water that comes in from roof leaks and seepage through doors and docks, cracked foundations or open windows. Absorb excess water in food service, food processing and other critical areas where standing water is prevalent. And deal with water from maintenance and system breakdowns, including burst or leaking pipes, broken hoses, leaking equipment and cleanouts.

Wring and re-use during a single water spill cleanup, then dispose. Cleaner than dirty mops, rags and towels, which can recontaminate floors by spreading bacteria, mold and odors.

PIG MILDEW-RESISTANT WATER SOCK

Deploy long-term, air-dry and reuse!

Flexible socks absorb water from under freezers, coolers and equipment. Polypropylene skin and filler resist the growth of mildew so they can be left down long-term. To reuse, simply air-dry and redeploy or squeeze water from socks for faster results. Choose yellow for high visibility or blue to blend in with surroundings. NOTE: Not for use in direct sunlight.

PIG106

	PIG® Mildew-Resistant Water Absorbent Sock								
	(Specify Color for PIG105: Blue Yellow) (PIG106 available in Blue only)								
	Item #	Size	Unit (socks)	Abe lin to 1-7		1-2	3-6	7+	
6	PIG105	Ext. Dia. 3" x 48"L	12	12 gal./box	24	\$51	\$47	\$41	
	PIG106 Ext. Dia. 3" x 48"L		4	4 gal./box	56		\$28		

PIG SUPER WATER-ABSORBING SOCK

Absorb and contain large water leaks and water-based spills.

These socks are filled with super absorbent polymer (SAP) to quickly absorb or divert water seeping into your facility under doors or through windows and cracked foundations. Each sock can absorb 15 times its weight, so you can use them as a weighted berm when saturated. Also great for use around pipes, broken hoses, leaking hot water tanks or malfunctioning equipment.

	PIG® Super Water-Absorbing Sock								
	Item #	Size	Unit	Abs. Up To	Pallet Qty.	1-4	5+		
4	WTR018 Ext. Dia. 3" x 48"L		40/box	70 gal./box	12	\$149	\$142		
	WTR020	Ext. Dia. 3" x 48"L	20/box	35 gal./box	24	\$81	\$75		

Each sock delivers 4 feet of spill-stopping power to prevent water problems from spreading.

Use with water-based, non-corrosive liquids (not for use with acids, bases or corrosive fluids).

PIG ABSORB-&-LOCK STRIPS AND PADS

Low-profile absorbents swell up to pull in high volumes of water.

Absorbed water is "locked" inside; it won't run out when you pick up or dispose, even when fully saturated. Super Absorbent Polymer (SAP) filler swells on contact and expands to pull in large volumes of water quickly, so they're great for sewage and restroom backups and overflows.

WTR003

Strips and pads (before water contact) are low-profile to fit tight spaces but once they expand, they create a barrier to help prevent leaks from escaping and spreading.

PIG WATER HOG

Absorb only water and remove it from your fuel tanks.

Water Hogs absorb water but not fuel (kerosene, gasoline, diesel and others) so they're perfect for removing water from tanks as well as preventing frozen fuel lines and gelled fuel. They combat rust, algae and filter blockage to help prevent premature engine wear and potential failure. Heavy-duty rip-stop cotton skin with unbreakable plastic casing ensures snag-free use in closed tanks and ports. Attached string allows for easy deployment and retrieval.

Drop in a water hog, let it

^{*} WARNING: Cancer, Birth Defects and Reproductive Harm - www.P65Warnings.ca.gov

Absorbent material swells as it absorbs water, and outer casing protects it from damage.

Pis HAZMAT ABSORBENTS

HAZMAT ABSORBENTS

PIG HazMat Absorbents are specially treated to soak up spills without degrading or reacting to corrosive liquids, including:

- Sulfuric acid
- Hydrochloric acid
- Nitric acid
- Hydrofluoric acid
- · Phosphoric acid
- Sodium hydroxide
- · Potassium hydroxide
- Hydrogen peroxide

COURS PIG HazMat completely absorbs 98% sulfuric acid. THEIRS Highly concentrated corrosives just puddle on top.

FOR MOST ACIDS, BASES & CORROSIVES

MAKE THE HAZARD A HAS-BEEN

Only PIG HazMat can handle high-concentration chemicals.

Highly corrosive liquids like 98% sulfuric acid and 30% sodium hydroxide can cause inferior cellulose absorbents to degrade or react. But PIG is specially treated to absorb high concentrations of corrosive chemicals.

PIG HazMat Absorbents provide the widest range of chemical resistance you can buy, but don't let the pink color fool you — they're all tough as nails. You get the same strength and durability that make PIG the world's #1 selling absorbent brand. Nasty chemical spill? Think pink!

Look where customers are using PIG HazMat:

- · Surrounding drums in chemical storage areas
- Around battery packs
- Around dip tanks
- Boiler rooms
- R&D labs
- Finishing departments

If you're not happy with your New Pig purchase, we'll refund every penny, including taxes and shipping. Even the return freight is on us!

DID YOU KNOW?

OF STORED HAZARDOUS LIQUIDS ARE WITHIN 20 FT OF AT-RISK DRAINS

Nearly one third of all drums, tanks and IBCs containing hazardous liquids are within striking distance of at-risk drains. Take note of where PIG HazMat Absorbents can help!

Data provided by our patented Spill Risk Algorithm.

LEARN MORE AT NEWPIG.COM/ALGORITHM

PREPARING FOR SPILL RESPONSE? SEE HAZMAT SPILL KITS ON PAGES 110-123.

NEUTRALIZING ABSORBENTS

Color-change technology provides safer handling and cleanup.

Neutralizers and neutralizing absorbents are made for spills of five gallons or less. If you're working with small quantities of acids or bases, neutralizers can help make these liquids safer to clean up and handle. Because the process of neutralizing acids and bases generates heat, it can also create the potential for a fire, making

neutralizers impractical for large corrosive spills.

To further minimize your risk during cleanup, many of our neutralizing absorbents change color during neutralization with acids or bases. Color change continues until pH becomes neutral and is safe for handling.

See our offering on pages 72-75.

PIE HAZMAT PADS AND ROLLS

Soak up hazardous chemicals — even highly concentrated corrosives.

PIG HazMat Pads and Rolls soak up the widest range of acids, bases, corrosives and chemicals — even those with high concentrations like 98% sulfuric acid and 30% sodium hydroxide. Great for use in chemical storage areas, around dip tanks, in cleaning agents used in food processing plants, in boiler rooms, labs, and R&D departments. High-viz pink color is designated for hazardous chemicals and is easy to identify.

Two different mat weights are available: heavyweight is highly durable and absorbent for demanding tasks and large-volume cleanups while lightweight delivers the best value for cleaning up small leaks and drips of hazardous liquids from workbenches, counters and shelves.

KEEP YOURSELF PROTECTED WITH PPE. SEE PAGES 198–241.

SOAKS UP FAST

Our exclusive dimple pattern speeds up the wicking of liquid throughout the mat. Leak and spill cleanup is quick and easy.

HOLDS ITS LIQUID

Highly absorbent fine fibers trap liquids so they don't pour back out when you pick up the mat. The mess is gone for good!

LASTS 2X LONGER

Multiple layers of thermally bonded polypropylene give PIG Mat superior strength and abrasion resistance.

MAT301

A CLOSER LOOK

PIG exclusive! Multiple layers of thermally-bonded, melt-blown polypropylene make PIG Mat the toughest mat on the market.

PIG HAZMAT PADS AND ROLLS

Mat Pads are ideal for catching drips and soaking up spills — get them in a dispenser box for easy, clean storage. Mat Rolls are perfect for covering large areas and absorbing overspray. Extra perforations on our Rip-&-Fit Rolls allow you to create custom mat sizes for tight spaces.

Haz/Mat Notice: To ensure effectiveness and your safety, we recommend that you conduct compatibility and absorption testing of your chemicals with PIG Haz/Mat products prior to purchase. If you have any questions or need samples to test, please call Technical Services.

"I've tried all the competitors. Don't waste your time; you'll end up with pads that either rip on deployment or won't absorb whatever hazmat you're dealing with. Get the right thing the first time — you know PIG provides it!"

— Michael, MAT301 Customer

STORE YOUR MOST-USED ABSORBENTS IN A DISPENSING STATION. SEE CAB590 ON PAGE 77.

PIG HAZMAT TABLET PACK

Hang this handy pack of mat pads anywhere you need it.

Packs are perforated at the bound edge so one guick tear is all it takes. Pop-up tabs and cardboard back let you hang them anywhere in your plant — on a pegboard by your workbench, on your tool cart, even on your forklift. Multiple layers of 100% polypropylene are thermally bonded to make PIG Mat the strongest mat on the market. It won't rip, tear or fray, even when saturated. Pink color is designated for hazardous chemicals and is easy to identify in the event of a spill.

PIG HAZMAT BARREL AND PAIL TOP MAT

Safely soak up hazardous chemicals that drip from the pump on your drum or pail.

Highly durable and absorbent to handle frequent pump drips and dispensing spills of hazardous liquids. Dispenser box makes them easy to store and dispense; pink color ensures that workers use the correct pad for chemicals. Drum versions fit 55-gallon steel and poly drum tops; precut with two 3.5" holes to fit a variety of openings, even poly drums with dual 2" bungs. Pail version fits 5-gallon steel pails and has one opening for a 2" bung.

PIG HAZMAT SOCKS, DIKES AND PILLOWS

Contain and absorb spills of highly concentrated chemicals.

Absorbs the widest range of acids, bases and unknown liquids, even those with high concentrations like 98% sulfuric acid and 30% sodium hydroxide. Chemical-resistant polypropylene material won't degrade or cause a dangerous reaction upon contact with corrosive spills.

Socks (124CR and PIG301) are excellent for diking and stopping the spread of smaller chemical spills while dikes (HA1010) are ideal for diking and stopping the spread of larger chemical spills.

Pillows have large surface area, high capacity and fast-wicking filler to quickly soak up liquids which is great for adding absorbency during spill response.

Item #	1-2	3-6	7+				
PLP801 • 1 - 40 lb. Pail • Neutralizes up to 16 gal.	\$280	\$274	\$266				
PLP802 • 10 - 2 lb. Shaker Bottles • Neutralizes up to 8 gal.	\$240	\$234	\$226				
PLP800 • 1 - 8 lb. Pail • Neutralizes up to 3.2 gal.	\$80	\$78	\$75				

Notice: Not for use with hydrofluoric acid. See HazMat notice on page 72.

MAT304

PIL352

PIG309

PLP801

PLP800

PIG BATTERY ACID NEUTRALIZING ABSORBENT

It's pelletized for safer cleanup with no dust cloud.

Contains, absorbs and neutralizes battery acid spills. Pelletized formula absorbs more and requires less cleanup, and it doesn't create hazardous respirable dust or leave residue.

PLP303

PIG® Battery Acid-Neutralizing Loose Absorbent			gig
Item #	1-4	5-9	10+
PLP303 • 30 lb. Pail • Neutralizes up to 10.5 gal./pail	\$288	\$282	\$274
PLP301 • 10 lb. Pail • Neutralizes up to 3.5 gal./pail	\$114	\$110	\$104
See note on page 72 for more details on compatibility and testing.			

FORMALDEHYDE NEUTRALIZING PADS

Minimize vapors for safer formaldehyde cleanup.

Specially treated polypropylene quickly absorbs formaldehyde, formalin, formaldehyde-based fixatives, glutaraldehyde and other aldehyde solutions. Rapidly neutralizes formaldehyde vapors to help protect workers.

Formaldehyde-Neutralizing Absorbent Mat Pad			
Item #	1-2	3-6	7+
MAT1400 • 16"W x 20"L • Absorbs up to 4.5 gal./box 25 pads/box	\$460	\$448	\$434

NOTE: Do not use on concentrations above 10%

PIG HYDROFLUORIC ACID NEUTRALIZER

Converts acid into calcium fluoride and inorganic salts for safer cleanup.

Liquid changes from beige to red during neutralization then returns to normal when neutralization is complete; helps identify the best time to handle. Safer to use than caustic soda neutralizers which can form a poisonous gas byproduct. Use 1:1 ratio for neutralization up to 49% concentration of hydrofluoric acid.

PIG® Hydrofluoric Acid Neutralizer		pi	8
Item #	1-2	3+	
GEN864 • 4 - 1 gal. Bottles • Neutralizes up to 4 gal.	\$437	\$424	4

PIG HYDROFLUORIC ACID NEUTRALIZING LOOSE

Pelletized formula safely absorbs acid and is easy to clean up.

Contains, absorbs and neutralizes hydrofluoric acid. Pelletized formula absorbs more and requires less cleanup than traditional hydrofluoric acid neutralizers, and it's safer to use because it doesn't splatter, create hazardous dust or leave residue like other powdered loose neutralizers.

PIG® Hydrofluoric Acid-Neutralizing Loose Absorbent			Big
Item #	1-2	3-6	7+
PLP806 • 6 - 1.5 lb. Containers • Neutralizes up to 1.4 gal./box	\$131	\$127	\$122

SPILL-X NEUTRALIZING ADSORBENTS

Neutralize spills up to 5 gallons for cleanup and handling.

 GEN322 and GEN381 neutralize and solidify most mineral and organic acids including sulfuric, hydrochloric, nitric and hydrofluoric

- GEN323 and GEN382 neutralize and solidify many caustics including sodium hydroxide (50%) and ammonium hydroxide (29%)
- GEN324 adsorbs spills of many common hydrocarbon solvents (including mineral spirits, naphtha and xylene), reagents and fuels; solidified liquid is easy to clean up

GEN381

Spill-X® Neutralizing Adsorbents		
Item #	1+	
GEN382 • Spill-X-C [®] Caustic-Neutralizing Adsorbent • 168 lb. Fiber Drum Neutralizes up to 20 gal.	\$2406	
GEN381 • Spill-X-A® Acid-Neutralizing Adsorbent • 168 lb. Fiber Drum Neutralizes up to 20 gal.	\$1382	
GEN324 • Spill-X-S® Solvent-Neutralizing Adsorbent • 16 lb. Pail Neutralizes up to 3 gal.	\$726	
GEN323 • Spill-X-C® Caustic-Neutralizing Adsorbent • 44 lb. Pail Neutralizes up to 4–6 gal.	\$660	
GEN322 • Spill-X-A® Acid-Neutralizing Adsorbent • 50 lb. Pail Neutralizes up to 4–6 gal.	\$423	

SPILL-X PORTABLE NEUTRALIZERS

Neutralize a variety of small spills.

- GEN522 is a portable kit packed with agents that neutralize a wide range of chemicals and solvents; includes guide, safety goggles, rubber gloves, disposal bags, scraper, pick-up pans and pH test paper
- GEN527 has separate neutralizers for acids, caustics, organic solvents
- GEN528 is packed with spill control agents that neutralize and solidify acid spills; works on most mineral and organic acids including sulfuric, hydrochloric, nitric and hydrofluoric
- GEN529 has spill control agents that neutralize and solidify caustic spills like sodium hydroxide (50%) and ammonium hydroxide (29%)

Spill-X® Portable Chemical-Neutralizing Kit

GEN529 • Caustic-Neutralizing Kit • 6 - 2 lb. Shaker Bottles Neutralizes up to 3 gal.	\$270	

NOTE: To ensure safety when using PPE, please consult chemical compatibility guide(s) at newpig.com to determine if PPE is compatible with your chemicals and fluids; or ensure compatibility with the chemical manufacturer.

SEE NEUTRALIZING SPILL KITS ON PAGES 116 -121

GEN527Multi-pack includes agents for cleaning up acids, caustics and organic solvents.

PIG PICKER

Save your back!

Pick used absorbents off the floor or from hard-to-reach spaces without bending or stooping. Rubber cups provide precision grip on objects as small as a postage stamp. Holds up to 5 lbs. and has a 34"-long handle for extended reach.

PIG® Picker	gig
Item #	1+
GEN572 • 34"L	\$44

PIG WALL-MOUNT MAT ROLL HOLDER

Wall mount your PIG Mat Roll.

Drop-in core rod holds mat roll which makes it easy to refill and replace. "Slot and cork" brake prevents mat from unfurling as it's dispensed. Durable hot-rolled steel frame and galvanized core rod are built to last in industrial settings. Three sizes available.

PIG® Wall-Mount Mat Roll Holder	Big
Item #	1+
MAT291 • For rolls up to 20"Dia. x 16.5"W	\$140
MAT292 • For rolls up to 20"Dia. x 24"W	\$165
MAT293 • For rolls up to 20"Dia. x 36"W	\$215

Easily refill and replace mat rolls up to 36" wide and 20" in diameter.

ADJUSTABLE ROLL HOLDER

Works with a variety of PIG Mat Rolls and Jumbo Wiper Rolls.

Tilted design enhances stability when dispensing, and durable painted steel resists rust and corrosion. Locks open for hassle-free moving, and width adjusts from 16" to 32".

Adjustable Roll Holder	
Item #	1+
GEN182 • Use with 16"-32"W Mat Rolls or Jumbo Wipers	\$174

PIG VERTICAL MAT ROLL HOLDER

Put your PIG Mat Roll on wheels.

No more lugging around large rolls of mat! No-tip swivel wheel casters allow holder to move freely, and 3"-high platform is low enough for easy mat positioning. For use with any PIG Mat Roll up to 36" wide x 20" in diameter.

PIG® Vertical Mat Roll Holder	pig
Item #	1+
GEN249 • For rolls up to 20"Dia. x 36"W	\$190

Stay ready to roll to spills when you stow absorbents in this steel cart with lockable doors.

Lockable double doors secure absorbents to prevent pilfering and bright yellow finish is easy to spot in an emergency. Cabinet rolls smoothly on lockable polyurethane casters while ergonomic handle makes it easy to push. Flat top doubles as work surface (not intended as storage space), and 16-gauge steel stands up to industrial environments.

SPILL KITS

IT'S WHAT'S INSIDE THAT COUNTS.

Top 3 things that separate PIG Spill Kits from the pack:

- World's #1 Absorbents inside
 PIG Mats, Socks, Pillows and Loose
 are the best you can buy found
 exclusively in PIG Spill Kits.
- Pilled for fast response
 We pack our kits in the order you need the contents, so there's no dumping or digging required!
- Biggest selection anywhere
 From UN Rated salvage drums to
 grab-and-go bag kits, you'll find
 a Spill Kit that's a perfect fit.

Choose a Kit based on the liquids at your facility:

UNIVERSAL

For everyday cleanup of oils, coolants, solvents and water.

Pages 80-95

OIL-ONLY

Repels water so you can absorb oils and fuels, even in rain or on water.

Pages 98-107

WATER

Fast-acting and highly absorbent when water is all you're dealing with.

Pages 108-109

HAZMAT

Specially treated to soak up highly concentrated acids and bases.

Pages 110-123

PIG SPILL KITS HELP YOU COMPLY

SPCC 40 CFR 112.7

Facilities must have written plans and documentation of the products that are in place to prevent discharge of oil into waters.

STORMWATER 40 CFR 122.26

Facilities with an SWPPP must describe the plan and equipment available to prevent illegal discharge of pollutants into waterways.

HAZWOPER 29 CFR 1910.120 (j)(1)(vii)

Requires spill responders to have "DOT specified salvage drums or containers and suitable quantities of proper absorbents," in areas where spills may occur.

We have Specialty Kits for specific applications.

TRUCKS

Road-ready spill kits for cleaning up oil, gas and other vehicle fluids.

FUEL STATIONS

UV-safe containers hold static-dissipative absorbents for spilled fuel and oil.

BATTERY ACID

Stay ready with kits for cleaning up and neutralizing battery acid.

Nobody delivers a bigger selection of containers!

OVERPACKS

UN Rated containers are perfect when you need to ship your spill cleanup waste.

MOBIL F

Roll your spill response supplies right to the spill site in these containers on wheels.

GRAB-N-GO

Store these kits just about anywhere for easy access and quick transport to the spill.

"This is a great kit ... It is worth the investment of purchasing this complete kit rather than throwing items in a box or tote. Our city inspector liked it as well and that is a PLUS!"

- Jeff, PIG Spill Kit Customer

SPILL KIT SUPPLIES DISAPPEARING?

If you're thinking about locking up your spill kit, maybe reconsider. Having an easily accessible kit is crucial when a spill emergency happens, but ease of access tempts workers to use those supplies for everyday use, too. Luckily, PIG has some tips on how to stop raiders and keep your kit fully stocked when you really need it.

Have a dispensing station for everyday absorbents

Give workers an eye-catching alternative to opening a spill kit.

Secure your kits with a tamperproof seal

Encourages employees to only break the seal for true emergencies.

Add signage to spill kit areas Lets everyone know that the supplies stored here are for spill events.

ষ্টে SPILL KIT IN OVERPACK DRUM

Strong enough to earn a UN Rating for shipping.

Clean up spills and then ship the waste in these durable overpack salvage drums. X-rated for Packing Groups I, II, and III for shipping by land, sea or rail. Leakproof, twist-on lid is notched for easy removal or tightening with a 2x4 or pole. Molded ledges make container easy to move by forklift. Only PIG Spill Kits feature PIG Absorbents — the world's #1 brand.

HELPS YOU COMPLY with HAZWOPER 29 CFR 1910.120 (j)(1)(vii) and 40 CFR 112.7 SPCC Regulations

"This product is great — we had a fuel supplier who was not paying attention and overfilled our tanks. We had this on-hand, ready for action and it held everything we needed to contain and resolve the spill. Great stuff!"

— Jim, KIT236 Customer

NOTE: A PIG Overpack Protection Cover (sold separately on page 124) is suggested for outdoor storage to protect container from dirt, moisture and the elements.

Pis SPILL CADDY

Swing-out doors and flip-top lid offer instant access to spill supplies.

Wheel these caddies to large spills or use them as highly visible central stations for absorbents and spill supplies. Swing-out doors, prepacked adjustable shelves and compartments make carts easy to inventory and access. These are the only kits in our lineup that hold a mounted roll of PIG Mat for easy pull-and-tear dispensing. Narrow enough to fit through most doorways and rolls easily over uneven surfaces with HDPE wheels.

Choose our standard Cart, available in hi-viz yellow (KIT2401) and standard gray (KIT2901), or step up to the Big Daddy (KIT820), available in hi-viz yellow — almost 2X larger and absorbs over 2X more!

HELPS YOU COMPLY with 40 CFR 112.7 SPCC Regulations

NOTE: Not for outdoor storage.

The Big Daddy Spill Caddy comes packed with PIG Absorbents, including a 135' roll of PIG Mat!

Pie SPILL KITS IN BAGS

These kits are made for portable spill response that's fast and easy!

Take spill response wherever you need it with our Spill Kits in Bags. Kits are packed with PIG Absorbents to absorb oils, coolants, solvents and water. Their compact size is ideal for storage in vehicles or in other tight spaces. Sturdy bags have straps for grab-and-go convenience.

HELPS YOU COMPLY with 40 CFR 263.30(a) and 40 CFR 263.31 Regulations

"Great product. The see-through bag was a big hit. The oil rigs that we work for were impressed with the size of the kit and products inside the bag. They even took one of our kits back to show their safety team!"

— Quay, KIT274 Customer

DUFFEL BAG

Duffel bag is packed with four kits — absorb spills at a great price, then keep the bag to refill. Bag is great for multiple uses or locations.

Water-resistant bag with hook-and-loop closure protects kit contents.
Bright yellow bag makes kit easy to see.

CAMO DUFFEL BAG

Durable, camouflaged duffel bag hides dirt and is easy to grab and go to the spill. Bag is spacious enough to fit additional items.

Vinyl-coated canvas tool bag withstands tough environments; pockets store additional tools and supplies. Bag also features a wide-opening mouth and self-standing design.

SEE-THROUGH BAG

Compact kit with zipper is easy to store and carry. Transparent bag lets you check supply levels at a glance while keeping contents clean and dry.

SPILL PACK

Rugged vacuum packaging keeps contents clean and dry and makes it easy to store and detect tampering. Highly visible pack is easy to locate.

Fig TRUCK SPILL KITS

Kick some asphalt with our road-ready Truck Spill Kits!

Designed just for trucks! Packed with PIG Absorbents and essential spill supplies to clean up oil, gasoline, coolants and other vehicle fluids (see contents at right). Hi-viz yellow bags are easy to find, they increase driver visibility during spill response, and the bold "spill kit" lettering on the front and sides makes for quick identification. Bags won't rip or tear thanks to the rugged construction designed for the rigors of the road.

HELPS YOU COMPLY with 40 CFR 263.30(a) and 40 CFR 263.31

KIT632

KIT622

SEE-THRU BAG

The see-thru bag allows for easy inspection of contents, and it fits behind or beneath the seat of a truck or other vehicle. The bag is constructed of cold-resistant vinyl with a reinforced zipper and seams.

STOWAWAY BAG

Suitcase-style stowaway bag is designed to fit behind or underneath the seat of a truck or other vehicles. Three interior compartments help to segregate contents for faster response.

KIT624

KIT628 Large Duffel

8.8 GALLONS

Small Duffel

Fits wheel well boxes and other long, narrow areas. Side and end straps let you easily pull the bag from storage.

KIT626 Small Duffel

TOTE DAG

Cube-shaped bag fits in a mounted storage box or large external compartment of a truck or other vehicles.

"Everything that is required for spill control in one easy to store package. Fits nicely behind the seat of my trucks or in the storage bins. High visibility bag means that my crew will always be able to find it during an emergency."

THE 3 STEPS OF LOADING

Spill Kits and DrainBlockers go hand-in-hand for best response.

When fuels, oils or hydraulic fluids spill in your parking lots or loading areas, your first concern should be preventing them from escaping down a storm drain. That's why we recommend storing a PIG DrainBlocker Drain Cover in a protective case near your docks or other areas where drains are located. It only takes seconds to respond, then once the drain is sealed, you can proceed with business as usual: containing the spill with PIG Socks, then cleaning it up with PIG Mats, Pillows and Loose Absorbent.

See our bestsellers on the opposite page, and more on 168–171.

DID YOU KNOW?

9% OF DOCKS HAVE AT LEAST ONE STORM DRAIN WITHIN 50' OF A POTENTIAL SPILL.

From drum drops to hose bursts, loading docks are a hotbed for leaks and spills. Plus, docks are usually sloped inward toward a storm drain, so you have even less time to respond.

Data provided by our patented Spill Risk Algorithm.

Patent 8, 117,62 Urethane Notice: Due to the nature of softer urethane, the physical properties of these products may change over time with exposure to certain environmental conditions like temperature, humidity and UV radiation. Typical life expectancy is 5 years. Please inspect the stored product regularly to ensure it is in a usable state. For more details and for chemical compatibility, please call Technical Services. For optimum performance, ensure that the area surrounding your drain is free of debris, cracks and holes.

PIG OIL-ONLY SPILL KIT IN OVERPACK DRUM

Strong enough to earn a UN rating to ship waste after an oil spill.

Absorb fuels and oil-based liquids but repel water for quick spill cleanup, indoors or out. PIG Oil-Only Absorbents meet ANSI and MIL-SPEC standards for static decay for safer use with fuels and flammables. Overpacks are X-rated for Packing Groups I, II and III for shipping spill cleanup waste by land, sea or rail.

PIG UV-RESISTANT OIL-ONLY SPILL KIT

Kit is UV-safe up to a year.

Opaque container blocks UV from degrading contents for up to 8,000 hours and all absorbents resist UV for up to one year (12 hours per day of direct exposure for 12 months), plus they float to absorb oil on water. Lift-out, prepacked baskets allow easy access to kit contents, and the overpack drum is UN rated for shipping waste after cleanup. Reflective tape striping on the lid adds visibility to kit.

KIT467 includes the same absorbents as KIT416 plus materials for responding to ruptured or punctured transformers (see contents).

HELPS YOU COMPLY with 40 CFR 112.7 SPCC regulations

PIG REG TIP

SPILL KITS CAN HELP YOU MEET SPCC REQUIREMENTS FOR ACTIVE SECONDARY CONTAINMENT.

If your facility is subject to SPCC requirements, spill kits can be an effective active secondary containment strategy for areas where you don't store bulk containers but you still have the potential for oil discharges.

NOTE: To ensure safety when using PPE, please consult chemical compatibility guide(s) at newpig.com to determine if PPE is compatible with your chemicals and fluids, or ensure compatibility with chemical manufacturer.

PIG OIL-ONLY SPILL KIT IN HIGH-VISIBILITY CHEST

High-capacity, wheeled mobile kit gets you to the spill fast.

31"-wide chest fits through standard doors and aisles, plus it has forklift entry for easy moving. UV-resistant, polyethylene container keeps PIG Oil-Only Absorbents secure and dry indoors or out. Highly visible color helps you locate the kit faster, and the hinged lid is lockable. Choose 5" rubber wheels or 8" no-flats for rugged terrain.

HELPS YOU COMPLY with 40 CFR 112.7 SPCC Regulations

NOTE: A PIG Response Chest Protection Cover (available separately) is suggested for outdoor storage to protect container from moisture, dirt and the elements. See PAK802 on page 124.

PIG OIL-ONLY SPILL CADDY

Swing-out doors and flip-top lid offer instant access to spill supplies.

Wheel these caddies to large spills or use them as highly visible central stations for absorbents and spill supplies. Swing-out doors, prepacked shelves and compartments make carts easy to inventory and access. The only kits that hold a mounted roll of PIG Oil-Only Mat for easy pull-and-tear dispensing. Narrow enough to fit through aisles and doorways.

Choose standard Cart or step up to the Big Daddy — nearly 2X larger and absorbs over 2X more!

SPILL KITS

PiB OIL-ONLY TRUCK SPILL KITS

Space-saving spill response is rugged and road-ready for on the go.

Designed just for trucks! Packed with PIG Absorbents and essential spill supplies to clean up oil and fuel without taking in any water. Hi-viz yellow bags are easy to find, they increase driver visibility during spill response, and the bold "spill kit" lettering on the front and sides make for quick identification. Bags won't rip or tear thanks to the rugged construction designed for the rigors of the road.

HELPS YOU COMPLY with 40 CFR 263.30(a) and 40 CFR 263.31

"This is a great product for transportation crews to have with them in case of an accident to help with spill control. The tote bag fits perfectly in tool box for storage."

- Brandie, KIT625 Customer

Our physics-based algorithm analyzes your spill risks so you can protect your people, comply with regs, and be more prepared for inspections.

PIG FUEL STATION SPILL KITS

The ONLY kits made specifically for safe cleanup at fuel islands.

Tough, grime-hiding containers are packed with absorbents specifically made for gasoline, jet fuel and kerosene. The absorbent, static-dissipative mats and socks pass ANSI and MIL-SPEC standards for static decay and surface resistivity. Kits are UV-resistant and weather-resistant, and they feature reflective labeling for increased visibility at night.

ATTENTION: Independent testing indicates that PIG HazMat products are compatible with and absorb most acids and bases. Due to variables and conditions of applications beyond our control, New Pig cannot guarantee that this product will absorb to your satisfaction. To ensure effectiveness and your safety, we recommend that you conduct compatibility and absorption testing of your chemicals with PIG HazMat products prior to purchase. To ensure safety when using PPE, please consult chemical compatibility guide(s) to determine if PPE is compatible with your chemicals and fluids, or ensure compatibility with chemical manufacturer. If you have any questions or need samples to test, please call us toll free at 1-800-HOT-HOGS.

PIG LAB & CHEMICAL CLEANUP KITS

Be prepared for small spills in the lab with our compact kits.

Single-use kit is faster and more efficient than dragging a large spill kit to a small cleanup; safer and more effective than using rags or paper towels. Compact design can be stored anywhere for fast response, and easy-open bag protects kit contents from dirt and moisture.

PIG® La	PIG® Lab & Chemical Cleanup Kit					
Item #		1+				
KIT5007 Each • Absorbs up to 18.3 oz.						
KIT5007 Contents • 3 Mat Pads • 1 Acid Loose Absorbent • 1 Base Loose Absorbent • 1 Pair of Gloves 1 Scoop and Scraper • 1 Disposal Bag • Tywrap Nylon Zip Tie						
KIT5009	Pack of 10 Lab & Chemical Kits	\$290				

* WARNING: Cancer - www.P65Warnings.ca.gov

See note on page 110 for more details on absorbent and PPE compatibility and testing. NOTE: Not for use with hydrofluoric acid as it may create a hazardous gas.

PIG HAZMAT SPILL KIT IN LARGE MOBILE CONTAINER

Roll to the spill for fast response.

Lightweight, polyethylene container with hinged lid resists chemicals while keeping contents clean and dry. It's packed with PIG Absorbents that are specially treated to handle concentrated chemicals, and the heavy-duty 8" rubber wheels roll easily over nearly any surface. NOTE: Protective cover required for outdoor storage.

	PIG® HazMat Spill Kit in Large Mobile Container		gig			
	Item #	1-2	3+			
6	KIT366 • High-Visibility • Absorbs up to 34 gal. • 8" Rubber Wheels	\$669	\$649			
	KIT359 • Standard Blue • Absorbs up to 34 gal. • 8" Rubber Wheels	\$669	\$649			
	KIT366 & KIT359 Contents * 6 Socks * 70 Mat Pads * 2 Loose Absorbents * 5 Disposal Bags and Ties 6 Tamperproof Labels					

See note on page 110 for more details on compatibility and testing.

PIG HAZMAT KIT IN SEE-THRU MOBILE CONTAINER

Inventory your spill supplies with this see-through container.

Protect your absorbents with this durable polypropylene container ideal for storage closets and tight spaces. Its snap-tight lid keeps contents safe from dirt and moisture. Mounted on 1½" caster wheels, kit rolls easily on smooth floors. Includes PIG HazMat Pads, Pillows & Loose Absorbent.

PIG® HazMat Spill Kit in See-Thru Container with Neutralizer					
Item #	1-2	3-4	5+		
KIT395 • Absorbs up to 8 gal. • 1.5" Plastic Wheels	\$248	\$242	\$234		
KIT395 Contents • 4 Socks • 12 Mat Pads • 4 Pillows • 1 Acid Loose Absorbent • 1 Base Loose Absorbent 5 Disposal Bags and Ties					

See note on page 110 for more details on absorbent and PPE compatibility and testing. Avoid contact with metallic nitrates, cyanides, sulfides and strong oxidizers. Contact with sodium or calcium hypochlorite creates chlorine gas. Not for use with hydrofluoric acid as it may create a hazardous gas.

PIG HAZMAT SPILL KIT IN HIGH-VISIBILITY CHEST

Wheel through doorways to get to a big chemical spill.

31"-wide, UV-resistant, lockable chest keeps absorbents secure and dry indoors or out, plus it fits through standard doors and aisles. It has forklift entry so it's easy to move, and you can choose between 5" or 8" wheels. The bright color helps you to locate the kit quickly.

NOTE: A PIG Response Chest Protection Cover (available separately) is suggested for outdoor storage to protect container from moisture, dirt and the elements. See PAK802 on page 124.

See note on page 110 or more details on compatibility and testing.

PIG HAZMAT KIT IN BULK CONTAINER

Absorb up to 108 gallons with our largest chemical spill kit.

Seamless, lockable polyethylene container keeps absorbents clean, dry and secure while the opaque walls block UV rays from degrading contents for up to 8,000 hours. Four-way forklift entry makes the kit easy to move, and you have a choice of wheels — select 10" wheels for uneven surfaces or 5" for smooth indoor rolling.

KITR304

NOTE: A PIG Bulk Container Protection Cover (available separately) is suggested for outdoor storage to protect container from moisture, dirt and the elements. See PAK800 on page 124.

PIG HAZMAT SPILL CADDY

Swing-out doors and flip-top lid offer instant access to spill supplies.

Wheel these caddies to large spills or use them as highly visible central stations for absorbents and spill supplies. Swing-out doors, prepacked shelves and compartments make carts easy to inventory and access. The only kits that hold a mounted roll of PIG HazMat Mat for easy pull-andtear dispensing. Narrow enough to fit through aisles and doorways.

Choose standard Cart or step up to the Big Daddy — nearly 2X larger and absorbs over 2X more!

NOTE: Not for outdoor storage.

PIG HAZMAT SPILL KITS IN BAGS

Hazardous material spill? You'll get to it faster with a grab-and-go kit!

Sturdy bags are packed with PIG HazMat Absorbents to soak up most acids, bases and chemicals. Compact and easy to store, these kits in bags are great for use in trucks or equipment or to keep on hand in labs or where chemicals are stored. Bags are equipped with straps or handles for easy carrying. Use the included temporary disposal bag to clean up used absorbents.

PIG MERCURY SPILL KIT

Keep the dangers of mercury spills to a minimum with a kit that's made for the job.

PIG Mercury Absorbent Powder transforms up to 1,000 grams of visible mercury into zinc amalgam and PIG Mercury Cleanup Wipers decontaminate hands, tools and surfaces. PPE is also included to guard and protect users. Container is lightweight and is made of 100% polyethylene to resist chemicals and suppresses hazardous mercury vapors. Screw-on lid opens easily for access to supplies.

STEP 1

Shake PIG Mercury Absorbent Powder onto spills to absorb visible mercury, transform it into a zinc amalgam and suppress hazardous vapors.

STEP 2

Use enclosed hand broom and dustpan to sweep up stabilized mercury for easy transfer into disposal bags.

STEP 3

Eliminate dangerous residue and decontaminate hands, tools and surfaces with premoistened PIG Mercury Cleanup Wipers.

See note on page 110 for more details on absorbent and PPE compatibility and testing.

PLP602 • Absorbs Mercury • 1 - 1,000 gram Container

 $NOTE: Avoid \ contact \ with \ metallic \ nitrates, \ cyanides, \ sulfides \ and \ strong \ oxidizers. \ Contact \ with \ sodium \ or \ calcium \ hypochlorite \ creates \ chlorine \ gas.$

PIG FORMALDEHYDE-NEUTRALIZING KIT

Absorb and solidify formaldehyde.

Absorb and solidify formaldehyde, glutaraldehyde, formaldehyde-based fixatives and other aldehyde solutions. PPE and neutralizing tools included for safe, effective spill response.

PIG® Formaldehyde-Neutralizing Spill Kit in	Bucke	t	pig
Item #	1-2	3-5	6+

PIG HYDROFLUORIC ACID NEUTRALIZING KIT

Neutralize dangerous hydrofluoric acid without nasty by-products.

KIT601 has a liquid neutralizer that can be poured on spills or sprayed in the air for vapor control. It changes color from beige to red during neutralization, then back to normal when complete. KIT602 contains a pelletized loose absorbent that neutralizes the acid and is ideal for horizontal surfaces. Both kits include PPE and supplies to clean up the neutralizing agent.

PIS BATTERY ACID SPILL KITS

Safely respond to battery acid spills with specially equipped spill kits.

Corrosive liquids require special handling and extra precaution when they hit the floor. Everyday absorbents just don't cut it when you're dealing with the nasty stuff. That's why we pack our Battery Acid Spill Kits with specialized contents. We've hand-picked the perfect mix of neutralizers, absorbents and personal protective equipment to help you clean up the mess — and stay safe doing so.

HELPS YOU COMPLY with 29 CFR 1910.178(g)(2)

DID YOU KNOW?

38%

OF FACILITIES DO NOT HAVE A BATTERY ACID COMPATIBLE SPILL KIT.

Whether your forklifts charge in-vehicle or on a battery rack, leaks and spills of battery acid are a nasty hazard that require special attention. If and when the acid hits the floor, responding with proper absorbents that are close at hand is key.

Data provided by our patented Spill Risk Algorithm.

LEARN MORE AT NEWPIG.COM/ALGORITHM

We don't mess around when it comes to battery acid. Our kits contain everything you need to clean up a spill — and do it safely.

OVERPACK DRUM

20-gallon overpack salvage drum (UN Rating 1H2/ X46/S) meets DOT shipping specs for overpacking hazardous materials.

"Great service, a well thought-out product in a professional package that makes us look like we are on the cutting edge of battery acid spill control. Thank you, New Pig."

Kevin, KIT352 Customer

CART

Cart in hi-viz yellow is easy to locate. Swing-out doors and prepacked shelves and compartments make it easy to access and inventory. Contents help you absorb and neutralize acid.

SEE-THROUGH BIN

Bin stores easily on workbench or shelf. Transparent door aids in quick supply checks. Built-in handles for grab-and-go spill response.

SPILL PACK

Highly visible foil vacuum package protects contents and deters pilfering. It's compact enough to tuck behind a forktruck seat.

BUCKET KIT

Absorbs and neutralizes NiCad battery electrolyte spills. Use the bucket to ship or temporarily store used absorbents.

PIG BATTERY ACID KIT IN COUNTERTOP BOX

Respond to lead acid battery spills with neutralizing, color-changing absorbents.

These kits are great to have on hand for recurring drips, leaks and spills of battery acid near forklifts and their charging stations, storage areas, warehouses and more. Mat pads and wipes change color as they neutralize acid, so you know when it's safe to handle and dispose of them. High-visibility yellow box is easy to find and made of durable corrugated plastic, plus it has a handle for easy carrying and holes to mount it on the wall (hardware not included).

PIG BLOOD, VOMIT & URINE **CLEANUP KIT**

Stay safe and sanitary while you take care of bodily fluid messes.

Easy-to-open kit includes absorbent mat pads and loose absorbent to clean up blood, vomit, urine and other bodily fluids. Its compact design lets you store a spill kit anywhere you need one for fast response. Plus, because it's resealable, it protects absorbents from dirt and moisture or it can be used to contain used absorbents. Single-use kit is faster and more effective than using rags or paper towels. It also means no more dragging a large kit to a small spill.

PIG PROTECTION COVERS

Add visibility and guard spill kits from UV rays and weather.

Keep water, snow, dirt and debris off lids and resist weathering and UV rays. The high-visibility color is easy to locate and has an attached seethrough pocket for an identification label. Made of durable, PVC-laminated polyester and elasticized bottom, these covers are available in multiple sizes to fit various types of kits. For overpacks with handles, elastic cutout lets handle stick out but won't let water in.

NON-SPARKING TOOLS

These tools make it safer to handle absorbents, hazardous materials and contaminated soils.

Made of durable polypropylene for excellent chemical resistance. Tools are non-sparking and and corrosion-resistant. Hardwood-core shovel handle resists hundreds of pounds of pressure. Shovel comes in two pieces for easy storage.

POLYETHYLENE DISPOSAL BAGS

Confidently bag hazardous waste or used absorbents for disposal.

Tough, bright yellow polyethylene bags resist punctures, tearing and blowouts. Durable 3-mil thickness (BAG201 and BAG202) is ideal for most waste; 6-mil thickness (BAG111, BAG114, BAG115, BAG206) handles your heaviest saturated waste.

PIG STEEL DOLLY

Quickly move your PIG Overpack Spill Kit.

PIG® Steel Dolly for Overpacks	pig
Item #	1+
PAK414 • For 95-gal. & 110-gal Overpack • 800 lb. Load Capacity	\$246

TRUCK MOUNTING BRACKET

Mount your spill kit right on your truck to save cab space.

Truck Mounting Bracket for PIG® Spill Kit in 6.5-Gallon Bucket		
Item #	1-2	3+
BKT1213	\$160	\$154

THIS BRACKET FITS OUR SPILL KITS IN BUCKETS ON PAGES 84, 94, 95, 103, 107, 112, 117 AND 119.

WALL-MOUNT HOOK

Hang your PIG Spill Kit so you can find it fast.

Wall-mounted kits build awareness of where to find supplies quickly. Durable steel hook mounts on any surface (hardware not included); accepts most PIG Spill Kits with handles or straps.

Wall-Mount Hook for PIG® Spill Kit		
Item #	1-2	3+
BKT214 • Use with Spill Kits w/Handles 2.5"W x 8.5"L	\$39	\$37

WALL-MOUNT BRACKET

Mount spill kits near spill-prone areas.

Bracket keeps spill kits in the open and elevates them to maximize visibility. Made of hot-rolled steel for long-term use. Bracket can be used with 20- and 30-gallon overpack kits; included bungee strap helps to secure kit.

	LBL101 • 6/pack	\$8.50

SPILL STATION SIGN

Make a spill kit easy to find for quick response.

Sign stands out from wall for higher visibility. Even from a distance, it helps indicate the location of spill kits and supplies.

Spill Station 3D Projection Sign		
Item #	1+	
SGN303 • 15"L x 8"H	\$53.80	

PIG SAFETY SIGNS

Clearly alert employees and visitors to hazards, locations and safety equipment.

Available in three compositions to suit your use and budget. Bright, bold colors can't be missed!

Aluminum signs offer superior resistance to UV rays, abrasion, chemicals and weather. Use indoors or out; 5–7 year lifespan.

Plastic signs are an economical choice for light-duty use indoors or out. Weather and UV resistant; 3–5 year lifespan.

Vinyl signs provide exceptional flexibility and feature a highgloss film to resist weather and abrasion. 3-5 year lifespan; use indoors or out.

PIG SPILL STATION GRIPPY MAT

Combines a hi-viz Spill Station message with a high-traction, adhesive-backed mat.

Hi-viz message won't wear off and makes it easy to locate spill kit while adhesive backing keeps mat in place. Mats withstand vacuums, floor scrubbers, heavy foot traffic, forklifts and pallet jacks. Absorbent top layer removes liquid and debris from shoes to help prevent slips and falls.

GRPWS21709

PIG® Spill Station Safety Message Grippy® Mats					
Item #	Size	Unit	1-3 4+		
GRPWS3509	3'W x 5'L	2/roll	\$105		
GRPWS21709	24"W x 17"L	4/box	\$58	\$54	

NOTE: New Pig's Adhesive-Backed Mats work with most common industrial and commercial floor surfaces. To determine the suitability for your application, test a 6"x 6" piece in a non-critical area before use. See the PIG Adhesive-Backed Mat Notice on page 242 for more information.

WATER DETECTION TEST PAPER

Detect the presence of water in any solvent or on any surface.

Paper changes from white to pink/lavender instantly upon contact with water — no additional chemicals or reagents needed. Roll dispenser features a locking mechanism to keep it in place and make tearing individual papers easier.

Bartovation™ Water Detection Test					
Paper					
Item #	1-9	10+			
GEN1014 • 23' roll w/ dispenser	\$19	\$18			

FLUORIDE DETECTION TEST PAPER

Detect fluoride ions or hydrofluoric acid.

Paper quickly changes color when in contact with dangerous fluoride ions or hydrofluoric acid, whether in liquid or vapor. Improve spill response safety by testing unknown liquids before cleanup or by attaching to protective suit for an instant warning. Plastic case protects remaining strips.

Fluoride Detection Test Paper					
Item #	1-4	5+			
GEN179 • 0.75"W x 2.75"L • 200/box	\$59	\$53			

IRON DETECTION TEST PAPER

Detect and measure levels of free soluble iron in water.

These strips test for Fe2+ (ferrous) and Fe3+ (ferric) iron from 0–100 ppm with no field kit or separate reagents needed. Dip strip for two seconds, shake off excess liquid then compare to color chart (printed on bottle) after 30 seconds.

Bartovation™ Iron Detection Test Paper					
Item #	1-9	10+			
GEN1012 • 50/container	\$35	\$33			

CHLORINE DETECTION TEST PAPER

Measure residual free chlorine in 30 seconds.

Results show in 30 seconds, faster than any other similar chlorine test. Dip strip for two seconds, shake off excess liquid then compare to color chart (printed on bottle) after 30 seconds. Use them to detect chlorine in drinking water, cooling towers and more.

Bartovation™ Residual Free Chlorine Detection Test Paper			
Item #	1-9	10+	
GEN1011 • 100/container	\$21	\$19	

WATERPROOF PH TESTER & BUFFER SOLUTION

Accurate even in harsh conditions.

Dip into any liquid for readings down to ± 0.01 ; capable of off-the-chart pH measurements from -1.00 to +15.00. Easy-to-read screen displays pH and temperature; adjusts pH for temps from $32^{\circ}F$ to $122^{\circ}F$. Double-junction electrode withstands plating baths, process streams, wastewater and other harsh liquids.

PLS1552 Protective plastic case and quick-release lanyard also included.

PLS1268
Buffer solutions to calibrate tester come in pH 4, 7 or 10.

Whether you use it on soil or water, if the color changes, there's oil present!

OIL DETECTION TEST PAPER

Hydrocarbon-detecting strips show need for cleanup.

Immerse Oil Detection Paper in water to test for oil contamination or press to soil to check need for remediation. Paper quickly changes color when in contact with hydrocarbons, including gasoline, diesel, fuel, oil, lubricating oils and mineral oils. Easily stored, hard plastic case protects remaining strips.

Oil Detection Test Paper		
Item #	1-4	5+
GEN180 • 0.75"W x 2.75"L • 100/box	\$59	\$53

PH DETECTION TEST PAPER

Find the pH of liquids.

Detect any acid or base and measure its pH, 1–14, with certainty. Strips enable testing of a solution without touching it, and color chart printed on bottle makes pH-level determination easy. Dip strip for two seconds, shake off excess liquid then compare to color chart within 30 seconds. Ideal for laboratories, chemical manufacturing and more.

Bartovation™ pH Wide Range Detection Test Paper				
Item #	1-9	10+		
GEN1010 • 100/container	\$22	\$20		

INSTA-CHEK PAPER

When unknown liquid spills, use this paper.

Paper instantly indicates any pH from 0 to 13 with one of 14 colors. Color chart has checkpoints at each unit pH, determined by single-color match. Distinct, easy-to-read colors for accurate readings. Portable kit includes color chart, dispenser and polyethylene case.

pHydrion® INSTA-CHEK® Paper					
Item #	1-3	4+			
PLS236 • 0.5"W x 50'L	\$18	\$17			

PH SPILL STIKS

Strips keep hands away from acids & bases.

6"-long, nonwicking strip helps keep potentially dangerous acids and bases away from hands. 1"-square pad of pH-testing paper is easy to read in dark or confined spaces.

One-dip, one-color system instantly identifies pH value. Included chart features 14 colors to identify pH from 0 to 13.

	Hydrion® pH Spill Stiks

WIPERS & RAGS

WE'VE GOT YOUR (PR) NUMBER.

Lisa L. — Product Manager **Performance** Ratings help you zero in on the right wiper.

The higher the PR number, the more you can expect from your wiper:

- PR100 Ultra-Duty can be used all day and provides the highest levels of abrasion and solvent resistance
- PR60-80 Heavy-Duty provides extra toughness for jobs like wiping rough parts, gears and sprockets
- PR30-40 Medium-Duty delivers a balance of toughness, absorbency and economical cost per toss
- PR10-20 Light-Duty is made for high-volume use during light wiping or surface drying jobs

Look for the PR icon on each wiper — we've done the comparison shopping for you!

WIPE OUT YOUR MESS!

PIG PR100 DISPOSABLE POLISHING & WIPING CLOTHS

Pores nab dust, wax and other contaminants.

Perfect for no-scratch removal of wax, polishing compound, fingerprints and smudges from surfaces, or for prepping products for painting. Rayon/poly blend stands up to harsh sanitizers, degreasers, cleaners and solvents. The highly absorbent and textured cloth pulls contaminants away from parts and surfaces while soaking up liquids, plus they can be rinsed and reused for long life and less frequent replacement.

Tiny pores are great for final wiping.

PIG PR100 MICROSPUN CLOTHS

Microspun is 50% stronger than T-shirt rags or shop towels.

Highly absorbent microspun material is strong but still soft enough for polishing, plus it's binder-free, solvent resistant and low linting. Size and performance are consistent, unlike T-shirt rags. Use wet or dry for a range of tasks like applying solvents, auto detailing, printing industry and more. Cloths can be repeatedly washed and reused (depending on application) and can be used with Quat-Based Sanitizers as well as Commercial-Grade and EPA List N Disinfectants and Cleaners.

PIG PR80 EXTRA-HEAVY-DUTY MAINTENANCE WIPERS

No stiffness here! These wipers are tough, yet soft.

These wipers offer exceptional abrasion resistance and strength, yet they're very soft and pliable. One wiper can handle everything from scrubbing rough parts to final wipedown and inspection of machined parts. Embossed texture grabs grime with a durable hydroentangled blend of cellulose and synthetic fibers. Binder-free construction withstands solvents, degreasers and cleaning agents while quickly absorbing liquids to leave surfaces dry and lint-free.

WIP881

WIP880

Embossed texture wipes away dirt and grime.

PIG® PR80 Extra-Heavy-Duty Maintenance Wipers									Big
Style	Item #	Color	Wipers/Unit; # Units	Total Wipers	Size	Pallet Qty.	1-2	3-6	7+

WYPALL X80 WIPERS

Clean and reliable every time!

Wipers are fresh and clean every time which means no contaminants, snags or rough edges. They're reusable for small jobs and designed for durability — they withstand solvents just as well as shop towels do. Lowlint so they won't shed, pill or leave behind unwanted fibers when wiping parts. Binderfree construction withstands solvents, degreasers and cleaning agents.

TORK INDUSTRIAL CLEANING CLOTH

Great for cleaning oily parts or surfaces in tight spaces.

Flexible cloths work well in tight spaces to eliminate oil, grease and water. They absorb fully and last longer, even withstanding most solvents, degreasers and cleaning agents.

> NEED A DISPENSER? SEARCH FOR WIP3314 AND WIP4018 ON NEWPIG.COM.

PIG PR70 HEAVY-DUTY MAINTENANCE WIPERS

Absorbent, low-lint blend is our top seller for heavy-duty jobs.

Strong and solvent-resistant for wiping machines and rough parts, but soft enough for cleaning skin or preparing surfaces. Exceptional abrasion resistance and wet strength that stands up to rough surfaces, jagged edges and metal chips makes them ideal for heavy-duty maintenance jobs like machine wipedowns and degreasing parts.

Binder-free cellulose/poly blend leaves surfaces dry and lint-free. Available in blue or white.

"This is a high-quality product with good absorbency, and is tough enough to wring out and keep using all day. It can be used in places that would shred a paper towel. For durability, it's more akin to cloth than to paper."

♠ Best-Seller

WORKWIPES SERIES 70 WIPERS

Great solvent resistance and low-lint construction.

Cellulose-polypropylene blend offers strength and unique "stretch" so you can wipe jagged parts without the material tearing. Economical rolls dispense easily and offer a lower cost per wiper for high-volume use. They're binder-free so they stand up to solvents, degreasers and cleaning agents, and the low-lint construction won't shed, pill or leave behind fibers.

WORKWIPES SERIES 60 WIPERS

Economical wipers can handle many heavy-duty jobs.

These wipers provide great value for fast cleanups because they're tougher than general-purpose and maintenance wipers but are the lightest of the heavy-duty wipers. Cellulose-polypropylene blend is strong, low linting and has a unique "stretch" for wiping jagged parts without tearing. Use them for a range of jobs from applying disinfectants to cleaning hands, glass or stainless steel.

Textured surface grabs dust and dirt.

WYPALL X60 WIPERS

Strong but soft for a wide range of lighter wiping jobs.

Durable enough for any light wiping job, but soft and pliable so they won't scratch delicate surfaces or irritate your skin. They're a great value, they provide fast cleanups and they're tougher than general-purpose wipers.

WORKWIPES SERIES 40 WIPERS

Soft, absorbent wipers are a solid value.

Good for wiping up grease, oils and small spills or for cleaning parts and tools. They're absorbent with clothlike softness for wiping hands and face, and the binder is forced deep into the cellulose fibers for extra strength.

Cellulose fibers with binder are soft enough for hands and face.

Pi8 PR40 ALL-PURPOSE WIPERS

Use our best-selling wipers for tasks from quick cleaning to light degreasing.

Constructed of soft, absorbent cellulose fibers with a high-quality binder to increase strength for wet or dry wiping. They're made thick and thirsty to quickly soak up oils, degreasers and other liquids. Low-lint material won't leave residue or create a mess, so they're excellent for a variety of wiping applications from quick cleanups to degreasing.

Cellulose fibers with binder for extra strength. Available in blue and white.

PIG All-Purpose Wipers are ideal for quick cleanups and degreasing tools and parts.

Soft but strong and absorbent, PIG Wipers quickly soak up oils, degreasers and other liquids without leaving lint residue.

"The mechanics use these wipers to wipe their hands, soak up liquid spills and clean off grease marks. They like that they don't leave lint or fuzz when used on engines, and that they don't have to reclean the area after they use the wipers."

— Zoe, WIP230 Customer

PIG PR35 AIRLAID WIPERS

Extra thick, soft and absorbent!

Thick, high-loft construction quickly absorbs oils, grease and water, so they're great for general cleanup, machine wipedowns and small workstation spills. Sprayed-on binder increases wet strength and overall durability.

WIP155

Soft enough for hands and face.

PIG PREMOISTENED CLEANROOM WIPERS

Cleanroom wiping tasks are a cinch with premoistened wipers.

Presaturated with 70% isopropyl alcohol and 30% DI water for use in ISO Class 5-8 cleanrooms. Extremely low particle generation; meet USP 797 and USP 800 standards.

- Polyester cellulose wipers have four clean-cut edges to prevent loose fibers
- Polypropylene wipers are resistant to heat, abrasion and solvents, plus they're non-shedding and low-linting

TOWELZILLA ULTRA MICROFIBER TOWEL

Big enough to wring less often but sized right for controlled wiping.

These super-thick towels are large enough to get soaking wet before they need to be wrung out. They're equally good at cleaning and drying, so they can be used on glass, metal, painted surfaces, wood and more. Ideal for utility and janitorial carts, automotive shops, office environments, healthcare facilities and more.

PIG SHOPREADY DISPOSABLE MICROFIBER WIPERS

We've never met a tougher microfiber wiper!

Compact microfibers are engineered for superior durability in rough scrubbing and heavy-duty tasks without the "fluff" of standard microfiber cloths. ShopReady wipers have the right amount of loft to trap grease and grime but won't bleed

Priced right for wipe and toss applications that would shred most disposables; ideal for wiping unfinished cast iron, gears, burred edges, and other rough surfaces in a wide variety of applications. Available in multiple colors for color-coding the different processes at your workplace while the pop-up box provides easy dispensing and storage.

CROCODILE CLOTH WIPERS

Oversized, premoistened wipers can tackle almost any mess.

Unique low-foaming degreaser is safe for nearly any surface including plastic, metal, wood, leather and more; infused with aloe and vitamin E to be gentle on skin. 3x the size of standard wipers so you don't need to use as many.

- Original: great for messes in industrial, manufacturing and construction environments
- Automotive: specifically formulated to cut through automotive oil, grease, grime and dirt
- Power Scrub: one side scours and one side polishes; for your stickiest, qunkiest, greasiest messes
- Multi-purpose: biodegradable; use on counters, floors, appliances, cabinets and more

PIG PREMOISTENED HAND AND SURFACE WIPERS

Dual-textured citrus power doesn't need water.

Citrus-based formula needs no water for removing oil, paint, tar, adhesives, ink and dirt. 10" x 12" wipers are tough on grime but gently condition skin. Dual-textured material has a smooth, nonabrasive side for general use and a textured side for scrubbing tough surface dirt and grease. Plastic container with snap-tight lid dispenses wipers individually while keeping the remainder clean and moist, and the compact size makes the container easy to transport and store in trucks, workspaces and on equipment.

WIP1301 72 wipers/ dispenser

Tough dirt and grease have met their match in the textured side of PIG Premoistened Wipers.

"We use these wipes multiple times daily to clean hands and surfaces. They cut grease very well and have a much better fragrance than other wipes. Thanks for another great product."

— David, WIP1300 Customer

WYPALL WATERLESS HAND WIPES

For easy, on-the-go hand cleaning.

Premeasured natural agent cleans and conditions hands with a fresh citrus scent and no unpleasant residue, plus the formula is alcohol-free so it won't chap or dry out hands. Portable bucket is great for work vehicles, toolboxes and remote worksites.

WorkWipes Rags — Screened, sized and

Strict material and size requirements mean more usable, high-quality rags in every package. All rags are double scanned for metallic content and many are screened for printing, so you never have to worry about contamination or poor performance.

- Choose white colored material if you're working with solvents because colored rags might bleed
- Poly bags are compression-packed to take up half the space of loosely packed boxes; plus no heavy packaging added into the final weight
- Cardboard boxes provide neat storage, stacking and dispensing with handles for easy transportation; some are compressionpacked for space savings (see ordering information)

Pick from eight reclaimed options:

- T-shirts are durable, low-lint cotton; ideal for staining, wiping, polishing
- Refreshed T-shirts are washed and scented to remove odors and stains
- Sweatshirts are thick, absorbent cotton and cotton blends for softness and strength; ideal for heavy-duty wiping
- Surgical huck is colorfast, low lint and sanitized; 100% cotton for glass cleaning
- Denim has no rivets or zippers, great for heavy-duty wiping and absorbing oil; ideal for high-temperature worksites
- Flannel is durable, absorbent, soft nonscratching cotton and cotton blends; for general wiping
- Institutional linen is low-lint and laundered for staining, wiping and polishing
- Hospital blankets are soft, absorbent, thoroughly washed and sanitized; ideal for polishing and cleaning

Compression-packed bags take up half the space of loosely packed boxes.

All 10 lb. bags feature a built-in handle, so they're easy to carry. Rags dispense right from the bag!

Personal-sized packs in WIP519 feature a slide closure for easy access to rags.

All boxes feature built-in handles and an opening for easy dispensing.

scanned so you get only usable rags.

SPILL CONTROL

PIG-TESTED FOR THE **TOUGHEST CONDITIONS.**

Jacob R.

Manager

— Product

Serious solutions for sudden spills.

Containing liquids at the source is proactive, smart drain defense. If you have an emergency spill or machines that leak, the last thing you want is for unwanted liquids to get into your drains because that can be a violation of EPA Stormwater and SPCC regs. These PIG-approved spill containment berms, barriers, blockers and booms keep liquid releases out of your drains to keep contaminants out of the water supply.

"If you have drains, and you have chemicals, you should have these."

- Shawn, DrainBlocker Customer

HELPS YOU COMPLY

SPCC 40 CFR 112.7

Facilities must have written plans and documentation of the products that are in place to prevent discharge of oil into waters.

STORMWATER 40 CFR 122.26

Facilities with an SWPPP must describe the plan and equipment available to prevent illegal discharge of pollutants into waterways.

GET A FREE SPILL RISK ASSESSMENT FROM PIG!

Understand your facility's spill risks so you can comply with regs and avoid fines.

Learn more on page 156.

Three PIG-proven ways to control liquids and avoid fines:

BUILD CUSTOM CONTAINMENT

PIG Build-A-Berm Barrier

- Configure a semipermanent barrier to fit your leak-prone areas
- Pliable foam construction springs back to shape so you can roll wheeled equipment right in
- Big savings compared to building concrete curbs or cutting angle iron

See pages 158-161

CONFINE & CHANNEL SPILLS

PIG SpillBlocker Dike

- Flexible and formable to the shape of the spill
- Tacky bottom layer seals tight so no liquid seeps underneath
- Confines spills or channels washdown liquids without absorbing them

See pages 162-166

COVER DRAINS

PIG DrainBlocker Drain Cover

- Seals tight to keep out unwanted liquids
- Won't rip, tear or stretch when you pick it back up
- Use for fast spill response or long-term outdoor deployment without UV degradation

GET A FREE SPILL RISK REPORT FROM NEW PIG!

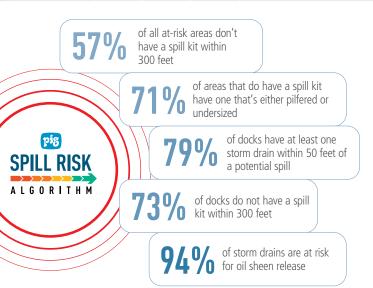

Our patented PIG Spill Risk Algorithm has helped thousands of facilities identify their hazards, develop clear paths to improvement, comply with regs, avoid fines and stay better prepared for spills and inspectors — all without an expensive consultant or trying to figure it out on your own!

We've measured over 13,000 liquid areas at more than 1,000 sites and found the Top 5 Spill Risks that facilities like yours are facing:

Take the guesswork out of spill preparedness with the world's first physics-based Spill Risk Algorithm — a PIG exclusive!

- Six-time patented algorithm performs more than 600 calculations
- Requires just 5 minutes of data collection per area
- You receive a full Spill Risk Report in days

Learn more at newpig.com/algorithm

THE 3 STEPS OF LOADING DOCK SPILL RESPONSE

Spill Kits and DrainBlockers go hand-in-hand for best response.

When fuels, oils or hydraulic fluids spill in your parking lots or loading areas, your first concern should be preventing them from escaping down a storm drain. That's why we recommend storing a PIG DrainBlocker Drain Cover in a protective case near your docks or other areas where drains are located. It only takes seconds to respond, then once the drain is sealed, you can proceed with business as usual: containing the spill with PIG Socks, then cleaning it up with PIG Mats, Pillows and Loose Absorbent.

See our best-sellers below, and learn more on pages 98 and 168.

DID YOU KNOW?

79%

OF DOCKS HAVE AT LEAST ONE STORM DRAIN WITHIN 50' OF A POTENTIAL SPILL.

From drum drops to hose bursts, loading docks are a hotbed for leaks and spills. Plus, docks are usually sloped inward toward a storm drain, so you have even less time to respond.

Data provided by our patented Spill Risk Algorithm.

Urethane Notice: Due to the nature of softer urethane, the physical properties of these products may change over time with exposure to certain environmental conditions like temperature, humidity and UV radiation. Typical life expectancy is 5 years. Please inspect the stored product regularly to ensure it is in a usable state. For more details and for chemical compatibility, please call Technical Services. For optimum performance, ensure that the area surrounding your drain is free of debris, cracks and holes.

PiB BUILD-A-BERM BARRIER

Configure a barrier of any size or shape to fit your leak-prone areas.

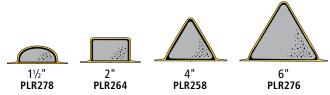

Contain leaks and spills around your machinery without building expensive concrete curbs or installing angle iron. You can create a custom semi-permanent barrier that's exactly the size and shape you need, indoors or out. Pliable open-cell foam barrier springs back into shape after you walk or roll over it with light, wheeled equipment. Durable, 18-oz. all-vinyl covering resists oils, coolants and most chemicals. High-visibility barrier draws attention for increased safety.

HELPS YOU COMPLY with SPCC and Stormwater Regulations

"We have installed this Build-A-Berm kit in order to contain paint. The ease of being able to drive over it, and put pallets of paint in the locations makes it a great product. I would highly recommend this to any company trying to fulfill regulations and even just for the ease of use."

- Andrew, Build-A-Berm Customer

If you're not happy with your New Pig purchase, we'll refund every penny, including taxes and shipping. Even the return freight is on us!

PIG BUILD-A-BERM SELF-RISING DRIVE-OVER BARRIER

Rise to the occasion with this special barrier made to contain spills.

In the event of a spill, drive-over gate section will automatically rise with the spill level to keep liquid contained. When the area is dry, berm lays flat to allow wheels to drive over it for easy access to containment area. Use sealant to adhere barrier to the floor, and vinyl cement to join sections together (both products sold separately on page 159). Can only be used with 4" high yellow Build-A-Berm.

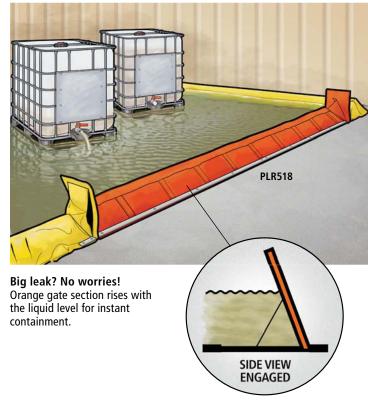

HELPS YOU COMPLY with SPCC and Stormwater Regulations

PIG DRIVE-OVER BUILD-A-BERM BARRIER

Build a custom spill berm that can handle heavy vehicle driveovers.

Custom containment berm helps you control liquids in high-traffic areas. 40-ounce, vinyl-coated fabric with an open-cell foam core compresses when driven over and springs back to shape. Predrilled aluminum mounting strips with anchors secure berm to most surfaces.

Both the 1½" and 2" berms are durable enough to withstand indoor or outdoor traffic from trucks, loaded tow motors and other heavy vehicles with sufficient ground clearance. Additionally, the 1½" berm also accommodates low-clearance traffic like pallet jacks, heavy carts and dollies.

Pis SPILLBLOCKER DIKES

Get fast protection from spreading spills and leaking machines; great for capturing liquids during maintenance.

Super-flexible, reusable SpillBlocker Dikes guarantee fast protection when a spill is heading right for your drain. They seal tight to contain, confine or channel spreading spills, washdown fluids during maintenance applications, or oil from machine or tank leaks. Flexible and formable dike shapes to the spill, confining and diverting fluids without absorbing to make cleanup simpler. Select from five different heights to suit varying depths of liquid.

HELPS YOU COMPLY with 40 CFR 112.7 SPCC Regulations **HELPS YOU COMPLY** with 40 CFR 122.26 Stormwater Regulations

FOR MACHINES WITH CONSTANT LEAKS, SEE SEMIPERMANENT BARRIERS ON PAGES 158–161.

"We are very pleased at how well the Spill Blocker has worked for us. I was surprised at how well they adhered to the floor. Very easy to maneuver into place."

- Adrian, PLR212 Customer

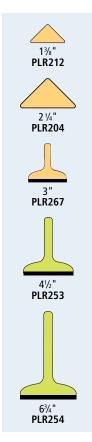

PIG SPILLBLOCKER DIKE

Exclusive New Pig formulation resists tearing, and tacky bottom layer seals tight to smooth surfaces. Polyurethane dike resists water, oils and other chemicals. Material cleans easily with soap and water and built-in connectors let you join multiple sections (PLR204 requires connectors and corners).

NOTE: Due to the nature of softer urethane, the physical properties of these products may change over time with exposure to certain environmental conditions like temperature, humidity and UV radiation. Typical product life expectancy is five years. Inspect the product regularly to ensure it is in a usable state. For details and chemical compatibility, call Technical Services at 1-800-HOT-HOS (46-47) or visit us online at newpig.com. For temporary use only. Pick up after each use, clean, then store properly. Do not leave down for extended periods of time or drive vehicles over dike.

♦ Best-Seller

PIG DOORBLOCKER DIKE

Quickly seal off a doorway from a spreading spill or washdown liquid.

Unique 45-degree wedge design fits snugly against doorjambs to stop the spread of liquids. Works ideally as a barrier in doorways during washdown operations, as a dam to control or contain spilled liquids, or as a diverter to direct rising water away. Lightweight Dike fits any doorway up to 4' wide. Polyurethane construction resists water, oils and many other chemicals.

Patent 5.236.281

"We have tried several products to seal against asphalt and none have been as effective as the rough surface dike, which 'flows' into crevices and crannies to provide a liquid-tight seal every time."

— Philip, PLR230 Customer

Creates a tight seal that contains liquids, diverts stormwater and helps you comply with regs.

Interlocking end joints connect dike sections to create longer lengths.

Optional corner pieces let you make sharp 90° turns to create a fully enclosed containment area.

PIG DRIVE-OVER SPILLBLOCKER

The ONLY flexible barrier for traffic and long-term outdoor use.

Divert stormwater or create a liquid-proof perimeter with the only reusable, flexible barrier designed for extended use outdoors. HogHyde skin stands up to heavy traffic driveovers and resists UV rays. Want to reuse it? Our Spillblockers clean up with soap and water and can be picked up and repositioned as needed.

HELPS YOU COMPLY with 40 CFR 112.7 SPCC Regulations where containment devices can be used to control or prevent oil discharges

HELPS YOU COMPLY with 40 CFR 122.26 when used as a BMP in a Stormwater Pollution Prevention Plan

Problem: Customers were trying to use our spill response dikes for long-term outdoor and drive-over applications — and they didn't work.

Finding the solution: To create a barrier tough enough for long-term use and drive-over applications, we started with our patented HogHyde® skin. Then we combined it with our supersealing urethane so that it would bond to concrete without adhesive. When we tested our dike in all kinds of harsh conditions, it didn't become brittle or lose adhesion — in fact. it stayed put until a snow plow peeled it up.

Problem solved: PIG Drive-Over SpillBlocker Dike

MULTI-FLEX INFLATABLE PIPE PLUG

Temporarily block pipes during repairs or if a spill happens.

Small, flexible design can be snaked through hot tap or branch pipes into larger pipelines that are otherwise inaccessible. Pipe plug inflates up to eight times its size to prevent the flow of liquids, and it conforms to a wide range of pipe dimensions. It can be fully or partially inflated to suit your application. UV-resistant, nylon-reinforced nitrile resists oils and has a shelf life of more than ten years.

Pis DRAINBLOCKER DRAIN COVERS

Super-sealing covers go down fast so liquids can't pass.

When a spill strikes, it's a good move to seal off your drains so no unwanted liquids get into the water supply. PIG DrainBlockers feature a patented, two-layer design: a super-sealing urethane bottom layer and a durable vinyl top layer. When you need to access your drain again, they pull off easily for cleaning, storage and redeployment.

HELPS YOU COMPLY with 40 CFR 112.7 SPCC Regulations **HELPS YOU COMPLY** with 40 CFR 122.26 Stormwater Regulations

"We have deployed these around the perimeter of our facility ... In case of a spill, we can put these down to prevent anything from getting into the storm drains. They have worked without incident in testing and drills."

A CLOSER LOOK

Problem: Our original drain-sealing product worked great for spill response: seal the drain, pick it up, use it again. The problem was that people would leave it outside for weeks and it would become gooey, or it would tear when they picked it back up.

Finding the solution: We wanted to come up with a top cover that could withstand long-term outdoor use and keep the urethane layer from tearing when customers pulled it off the drain. We created 15 different versions before we had the best combination. We ultimately patented a way to bond a layer of Elvaloy vinyl with our super-sealing urethane to create the most weather- and UV-resistant drain cover on the market.

PIG RAPID RESPONSE DRAINBLOCKER DRAIN COVER

Stay prepared for spill emergencies and meet EPA regs.

Hi-viz green cover helps you meet spill plan requirements without buying more cover than you need. It's ideal for limited use or one-time-use emergency spill response; mount on a wall or store in a spill kit. Polypropylene top layer prevents drain cover from stretching or tearing when you deploy it; cover resists chemicals, oils and detergents. Supersealing urethane bottom layer creates a tight seal. Drain cover is packaged in an easy-open, hi-viz storage tube so workers can find it fast and get to the spill.

Storage tube (included) is for indoor use only; for outdoor storage, search PLR700 at newpig.com. Add a Wall-Mount Bracket (BKT102, sold at newpig.com) for easier access and faster response.

CONTAINMENT BOOMS

Contain oil and debris to prevent spreading and protect the environment.

Closed-cell polyethylene foam corrals pollutants while the skirting barrier hangs below the waterline to stop them from creeping under. Galvanized steel chain along the length of the boom adds weight and rigidity and vinyl-coated polyester material is UV resistant.

Foam floats are segmented, so all booms fold up neatly for compact storage. Built-in connectors let you link multiple booms (two styles shown below). Boom's strap handle/anchor point allows easy one-person deployment (featured on all models except EconoMax Booms). High-visibility yellow makes them easily noticeable in emergency situations. Booms conform to OPA-90 specifications (all except BOM301 and BOM302).

HELPS YOU COMPLY with 40 CFR 112.7 SPCC Regulations where containment devices can be used to control or prevent oil discharges

HELPS YOU COMPLY with 40 CFR 122.26 when used as a BMP in a Stormwater Pollution Prevention Plan

HELPS YOU COMPLY with 33 CFR 154.545(a) regarding discharge containment equipment

HELPS YOU COMPLY with 33 CFR 154.1040 requirements for facilities that could cause harm to the environment

Slide connectors

Most booms shown on the opposite page include marine-grade aluminum slide connectors and toggle pins. (Excludes BOM301 and BOM302)

Snap hooks

PIG Oil and Debris Containment Booms (BOM301 and BOM302) feature snap hooks so you can easily secure and overlap booms.

Choose your booms based on type of current and body of water:

For calm waters & low current

Rectangular foam inserts and 16"–18" height provide enough buoyancy for calm water in inner harbors. marinas and waterways.

Choose these products:

EconoMax Booms
PIG Oil & Debris Booms

For calm, shallow waters

10"-high boom with round foam inserts is designed for shallow waters. Use in streams, canals, drainage ditches and swamps.

Choose these products:

Super Swamp Booms

NEED TO ABSORB SPILLS ON WATER? SEE PAGES 56–58.

For fast to strong currents

Round foam inserts and 18"–20" height makes these best for streams, rivers, estuaries and near-shore ocean.

Choose these products:

Optimax Booms & Simplex Booms

What are freeboard and draft?

Freeboard refers to the part of the boom that remains above the waterline. The draft is submerged below the waterline. Both work together to contain spills.

Rivers, Estuaries, Ports, Harbors

50' x 20'

12"

STORMWATER

WHO YOU GONNA CALL? STAIN BUSTERS!

Why comply with Stormwater Regs?

Noncompliance with the EPA's Stormwater Regulations can result in hassles, headaches and even fines. If that's not enough reason to comply, protecting the environment also makes a positive statement toward being a good corporate citizen.

Does your facility need a Stormwater Plan? New Pig can help you choose the best products to get into compliance. Call our Technical Specialists at 1-800-HOT-HOGS for expert advice!

"Ends all your concerns about what's going down your storm drain."

— Matt,
PIG Drain Filter Customer

HELPS YOU COMPLY

SPCC 40 CFR 112.7

Facilities must have written plans and documentation of the products that are in place to prevent discharge of oil into waters.

STORMWATER 40 CFR 122.26

Facilities with an SWPPP must describe the plan and equipment available to prevent illegal discharge of pollutants into waterways.

4 REASONS TO CHOOSE PIG STORMWATER SOLUTIONS

AFFORDABLE & PRACTICAL

Great alternative to detention vaults or green infrastructure.

REGULATION COMPLIANCE

Meet federal, state and local Stormwater Regs.

ENVIRONMENTAL RESPONSIBILITY

Protecting drains protects our natural resources.

TESTED TO ASTM STANDARDS

Performance data to help choose the best products for your site.

IN THIS SECTION: FILTERS • ABSORBENTS • REMEDIATORS • MORE!

New Pig has every solution for source-to-drain protection.

Using a combination of stormwater products (a.k.a. Treatment Train) removes more pollutants than any one product by itself. You can maximize clean discharge with filtration products inside and above your drains, then keep the train going with more products at the source (i.e. dumpsters, downspouts and parking lots). Capturing contaminants before they enter runoff confines the problem and extends the life of your products.

As you're choosing, ask yourself these questions:

- What contaminants am I dealing with?
- What are my drain sizes and shapes?
- What's the traffic flow like near my drains?

Need help? Call the experts at 1-800-HOT-HOGS!

Storm drains in parking lots and areas with vehicle traffic need solutions that work below the surface.

INT400 Adjustable Storm Drain Frame with Replaceable Filters

FLT116 Frameless Storm Drain Filter

FLT746 Sediment Drain Filter

For areas with low to no traffic

For areas with low to no traffic, use these products as standalone solutions or in conjunction with inside-the-drain filtration.

FLT840 Coir Storm Drain Filter with Magnets

FLT957 Coir Storm Drain Filter Roll

Go straight to the source of the problem and capture pollutants before they reach your drains. It all adds up to cleaner discharge.

FLT718 Stormwater Heavy Metal Filter Sock

Remover

PRODUCT PERFORMANCE DATA AVAILABLE FOR SELECT PRODUCTS AT NEWPIG.COM.

PiB ADJUSTABLE STORM DRAIN FRAME WITH REPLACEABLE FILTERS

Filter changeouts are easier and more affordable than ever before!

NEW! You can finally stop fishing out those heavy, overloaded frameless drain filters (a.k.a. "witch hats") that collapse into your basin. Our coated-steel adjustable frame secures the system in place, and you only replace the center filter bag — it's an easy, oneperson job that saves money because you're not disposing of the entire drain insert. Replaceable Filters feature a heavy-duty lifting strap, and hi-viz straps around the frame help inspectors see that you're proactively managing your stormwater. Overflow ports minimize water backup, and patented filter ring channels water to center of filter.

HELPS YOU COMPLY with 40 CFR 122.26 Stormwater Regulations

DID YOU KNOW?

95%

OF STORM DRAINS ARE AT RISK FOR OIL SHEEN RELEASE.

From rigs leaking oil to garbage trucks blowing hydraulics, your parking lots catch it all. Those stains throw off oily sheens every time it rains, sending polluted runoff into your drains.

Data provided by our patented Spill Risk Algorithm.

LEARN MORE AT
NEWPIG.COM/ALGORITHM

PIG ADJUSTABLE STORM DRAIN FRAME WITH REPLACEABLE FILTERS

- Easier changeouts with less waste — the frame stays long-term and only the filter bag is replaced
- ✓ Multiple designs tailored to your drains — select round or rectangular frames for shallow or deep basins
- Better filtration options choose filters for oils and sediment or upgrade to heavy metals

PIG FRAMELESS STORM DRAIN FILTER

If you don't want a frame on your filter, this model is tried-and-true.

Frameless filter has the same construction and four-stage filtration as shown on page 180. Redesigned for better filtration, improved handling and all-around performance, and affordably priced so you can protect more drains at your facility. No more picking and choosing which ones you can afford to protect! Frameless design is ideal for round and shallow drains to capture fuels, oil, sediment and floatables to keep storm drains from clogging and overflowing.

HELPS YOU COMPLY with 40 CFR 122.26 Stormwater Regulations

Protect your smaller storm drains too!

PIG SEDIMENT DRAIN FILTER

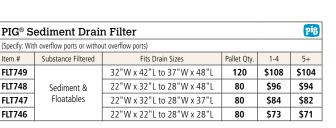

Collect debris and dirt to comply with regs and protect drains.

Drain Filter is ideal for use in the construction industry and anywhere sediment collection is a concern. Geotextile constructed of a monofilament polypropylene captures sand, dirt, sediment, trash, leaves, sticks and cigarette butts. Filters with overflow ports allow excess water to release into drain during heavy flow or if filter is blocked. It also provides an opening to collect samples of filtered stormwater.

HELPS YOU COMPLY with 40 CFR 122.26 Stormwater Regulations

PIG STORM DRAIN SKIMMER SQUID

Item #

FLT749

FLT748

FLT747

FLT746

Install inside your storm drain as a passive last line of defense.

Absorbent spaghetti strip pillow (the "head") floats to remove surfacelevel contaminants while the absorbent pompom (the "tentacles") sweeps through moving water to capture oil below the surface. 3-foot diameter reach covers the largest area of any in-the-drain skimmer on the market, and it works effectively in standing water or turbid conditions. It's designed to work with a PIG Storm Drain Filter for best

performance, but it can also be used as a standalone treatment.

HELPS YOU COMPLY with 40 CFR 122.26 Stormwater Regs

Absorbent "tentacles" sweep through moving water to cover more area and capture more oil.

PIG COIR STORM DRAIN FILTER PADS & ROLLS

Trim-to-fit filter removes sediment and floatables from stormwater.

Captures most floatables and large pieces of sediment; natural coconut fibers are densely woven and vertically oriented to maximize sediment removal and flow rate. Trim to fit for customization to your drain, then rinse and reinstall for extended use. Pads are great for standard drains; use Rolls for trench drains.

Installation kits (sold separately) include everything you need to properly secure coir filters in place.

HELPS YOU COMPLY with 40 CFR 122.26 when used as a BMP in a Stormwater Pollution Prevention Plan

* WARNING: Cancer - www.P65Warnings.ca.gov

PIG STORMWATER FILTER SOCK

Easy and affordable ways to filter contaminants from runoff.

These socks won't grow mold like compost, nor will they release harmful compounds into the water supply like rubber media. The strong but flexible outer skin allows water to flow through while the filter media removes pollutants. They're perfect for use on uneven surfaces like rough terrain or broken asphalt.

- FLT786—FLT787 feature a natural, recycled, shelf-stable media that filters sediment and floatables
- FLT710—FLT711 remove sediment, oil and floatables using parboiled, oven-dried rice hulls as the inner material
- FLT717—FLT718 have the rice hull filler plus activated carbon and zeolite; they remove heavy metals like copper, lead and zinc in addition to sediment, oil and floatables

HELPS YOU COMPLY with 40 CFR 122.26 Stormwater Regs

DID YOU KNOW?

57% OF ALL AT-RISK AREAS DON'T HAVE A SPILL KIT WITHIN 300 FEET.

It's neither practical or necessary to keep a spill kit at every storm drain, but you can get ready for fast spill response by playing some zone defense. Pro Tip: Get a satellite view of your facility and then position spill kits where they can serve multiple drains.

HOW PIG OIL ABSORBENT FILTER MATS WORK

PIG OIL ABSORBENT FILTER MATS

Traps oils but lets water pass through for fast outdoor cleanup.

Absorbs hydraulic fluid, motor oil and other oil-based liquids from water before it hits the waterway; allows only clean water to pass through. Ideal for stormwater applications and general filtration of oily water on land — rain or shine (UV resistant for outdoor use)! Great for use near storm drains, pipes, outflows, storage tanks, roll-offs, vehicles and other oily equipment; can also be used as a pour-through filter for mop buckets or other containers of oily water.

MAT1201 and MAT1206 come in special vacuum packaging for compact storage in a vehicle or spill kit.

Corrosive Liquid Notice: Not recommended for acids, bases or other corrosive liquids.

PIG STORMWATER SAMPLER

Easily collect runoff for testing.

Sampler assembles fast so you can collect and compare pollution levels. Built-in pump draws collected water and channels it through attached hose into your container. Collection cup fits through most drain openings, catch basins or other treatment products.

Wide-mouth sample bottles are leakproof, autoclavable and easy to fill. **HELPS YOU COMPLY** with 40 CFR 122.26 when used as a BMP in

A CLOSER LOOK

PIG exclusive!

Rugged top layer adds durability. Middle layer absorbs oils and fuels while bottom layer prevents them from seeping into the ground.

PIG OIL-ONLY ABSORBENT GROUND TARP

Durable mat absorbs oils and fuels, not water, in outdoor applications.

Heavy-duty, three-layer, UV-resistant mat ensures oily leaks and drips never reach the ground — perfect for outdoor equipment maintenance or storage.

Top layer is a tough geotextile fabric. Highly absorbent polypropylene middle layer traps oils and fuels but allows rainwater to evaporate, and bottom barrier film prevents liquids from leaching into the ground. Liquids absorb quickly for easier cleanup and the tarp won't rip, tear or fray, even when saturated. Material cuts easily with utility knife or scissors, plus it protects user while they're lying on the ground.

HELPS YOU COMPLY with SPCC and Stormwater Regulations

PIG OIL-ONLY RAILROAD MAT

Same great ground tarp, but it's specially sized for railroad tracks.

This rugged, three-layer mat is designed specifically to absorb oils and fuels, not water, from railcars during railyard maintenance. 59" width roll fits right between standard rails; 19" width roll can be used on the outside of rails. UV resistant for outdoor use.

Top layer is extremely durable while middle layer absorbs oils and fuels. Bottom barrier film prevents liquids from leaching into the ground.

Capture oils & other hydrocarbons.

Replaceable absorbent liner captures leaks and spills of oils and fuels; clean water passes through walls as hydrocarbons are filtered out. Berm pad is lightweight yet durable, it folds and straps shut for quick storage and graband-go transportation. It's ideal for temporary storage of generators and other equipment or containers. Pad's corner grommets let you stake it to the ground to help stay in place when empty.

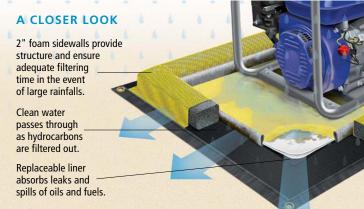

RFL902 Absorbent liner is easy to remove and replace.

PIG STORM DRAIN STENCIL

Paint stencils near storm drains to draw attention and alert to their outflow location.

Spray a stencil on the ground near storm drains to identify them and to maintain awareness of their discharge locations. Plastic stencils are sturdy enough to be used multiple times.

Seymour spray paint is UV resistant to help prevent fading, stands up to heavy foot traffic, and dries in 60 minutes under optimal weather conditions.

PIG MICROBIAL OIL STAIN REMOVER

Break down and eliminate oil and fuel stains with this unique stormwater-safe solution.

Environmentally friendly formula gradually removes stains from pavement and concrete to eliminate rain runoff and sheen emissions. BioBreaker[™] microbes digest hydrocarbons through bioremediation which converts them to water and harmless gases — no containment or cleanup needed. Applies easily using a manual sprayer (see previous page) and light agitation or a pressure washer. Great for use in parking lots and around docks, dumpsters, compactors, stockpiles and more.

ENOUGH FOR 2,000+ STAINS!

Concentrated formula makes 75 gallons; single application coverage for 7,425 sq. ft. or 2,365 oil stains (avg. 2-ft. diameter).

	PIG™ Microbial Oil Stain Remover	Big
	Item #	1+
į	CLN888 • 2 - 2.5 gal. Containers	\$425
	CLN889 • 1 - 1 gal. Container	\$125

See note on page 197 for more details regarding bioremediation and stormwater regulations.

PIG is your one-stop

PIG MICROBIAL OIL REMEDIATOR FOR SOIL, GRASS AND WATER

Get rid of oil and fuel on soil, grass and water.

Gradually remove oil and fuel from soil, grass and water to eliminate rain runoff. Must be diluted 1:10; each diluted gallon remediates approximately one cubic yard of soil or 200 gallons of water.

PIG OIL REMEDIATOR FOR SOIL, GRASS AND WATER

Harness the power of microbes in the environment.

Enzymes in the liquid act as "food" for microbes that occur naturally in the environment. Simply spray onto oil spills — no dilution necessary. Multiple applications may be required for heavily contaminated areas.

NOTE: Does not contain microbes.

PIG MICROBIAL OIL STAIN REMOVER AND ABSORBENT

Bioremediation combined with a loose absorbent.

Comes in powder form; spread on oil and fuel spills to absorb them. After absorption, add water to activate microbes that will "eat" the hydrocarbons. Ideal for manufacturing floors, loading docks, machine shops and more.

bioremediation shop!

PIG MICROBIAL OIL REMEDIATOR **FOR BILGES**

Deodorizes and neutralizes polluting hydrocarbons found in bilge tanks without harming the

PIG MICROBIAL CRUDE OIL **REMEDIATOR**

Break down and eliminate all known components of crude oil in all phases of oil field operations. Applies

easily using a manual sprayer and light agitation or pressure washer.

Dilute 1:15.

PIG MICROBIAL FOOD PROCESSING **OIL REMEDIATOR**

Gradually remove hydrocarbons as well as animal and vegetable grease, oils, fats, lipids and starches from food

processing environments. Dilute 1:15.

PIG MICROBIAL OIL REMEDIATOR FOR GREASE TRAPS

Digests grease, fats and organic wastes that accumulate in grease traps and drain lines to prevent backups and overflows. Also helps to

reduce the need to pump grease traps and reduces odors associated with maintenance of traps.

PIG MICROBIAL OIL-WATER **SEPARATOR REMEDIATOR**

Significantly reduce hydrocarbon contamination in oil-water separators and interceptors. Eliminates hydrocarbon

accumulation that causes backups which can interrupt production at your facility.

PIG MICROBIAL OIL REMEDIATOR FOR SEPTIC SYSTEMS

Break down and eliminate hydrocarbons plus food and vegetable grease, oil, starches and lipids to keep your septic

system working optimally. Use monthly as a preventative maintenance procedure. Dilute 1:10.

Notice: New Pig bioremediation products are engineered for minimum environmental impact. Due to regulatory variances in stormwater management practices, and to determine necessary precautions for your region, always check the composition statement on the data sheet and consult your local authorities before allowing product to enter sewers or public waters. For further assistance, please contact Technical Services.

PERSONAL SAFETY & PPE

SAFETY LOOKS GOOD ON YOU.

Quality comes first at PIG, so consolidate your buying and get your PPE here!

When it comes to gloves, glasses, suits and other safety essentials, it's easy to get buried under all the choices. But we've done the heavy lifting for you, partnering with market leaders and narrowing down the selection so you can choose quickly and get back to work. And don't forget the other perks of doing business with New Pig:

100% Money-Back Guarantee

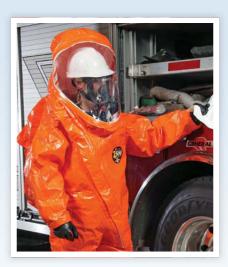

If you're not happy with your order for any reason, we'll refund every penny, including taxes and shipping. We'll even pay the return freight!

Service & Support

Our team of product experts are armed with info and ready to help. Got a question? Fire away!

Autoship

Never run out! Get the stuff you use most, right when you need it, shipped automatically.

"If my guys like them they will wear them, and as everyone knows – safety comes first."

HOW TO CHOOSE A PROTECTIVE SUIT

Level A

Use when you need the highest level of skin, eye, respiratory and mucous membrane protection. Provides Level A protection when combined with

either an SCBA or SAR with egress bottle. Page 215

Level B

Ideal when you need the highest level of respiratory protection, but a lower level of skin, eye and membrane protection. Provides Level B protection when combined with either an SCBA

or SAR with egress bottle.

Level C

Select this suit when the type of airborne substance is known, its concentration is measured, the criteria for using Air-Purifying Respirators (APR) are met, and skin and eve exposure is

unlikely.

Level D

The best choice when you only require minimum protection and no eye, skin or respiratory hazards are present.

Page 216 WPL718

3 seam types offer different levels of protection.

Serged Seams provide general protection. This seam is produced when three threads are interlocked around the raw edges of two materials.

Bound Seams offer mid-range protection. A clean-finished binding encloses the raw fabric edges, then it's sewn through with a chain stitch.

Heat-sealed Seams are very strong for high-end chemical protection. A sewn seam is covered with a strip of material, then "heat taped" with film-laminated fabrics.

DISPOSABLE LATEX GLOVES

Get a tighter fit and better dexterity with super-stretchy latex.

Stretchable latex is more economical than nitrile and it fits tightly to further increase sensitivity for intricate tasks. Ambidextrous design simplifies inventory and beaded cuff prevents ripping.

Nonsterile industrial grade (GLV151 and GLV538) provides an affordable barrier to keep dirt or mild chemicals away from hands; great for assembly, quality control, electronics and others.

ORP POLYTUFF ESD POLYURETHANE GLOVES

Safely handle precision electronics, even in cleanrooms.

NEW! Ideal for use with circuit boards, disk drives, sensors, robotics fabrication, electrostatic painting, cellular device fabrication, and in military, avionics and electronics applications. Static dissipative up to 10^6 ohms and ESD safe compliance to ANSI/ESD S20.20-2014. For use with Class I and Class II static-sensitive devices and packaged for ISO 5 (Class 100) cleanroom applications. Solvent-process PolyTuff polyurethane protects from solvents and chemicals; also provides high tactile sensitivity.

SHOWA CHEMICAL RESISTANT NEOPRENE GLOVES

Neoprene provides enhanced protection from harmful liquids.

Neoprene keeps wearer safe from acids, oils, chemicals, caustics, cuts and abrasion. Breathable liner ensures comfort in hot and cold environments, even during periods of long wear. Rough grip (except GLV1316) allows precision in wet or greasy conditions.

- GLV1317 and GLV1320: FDA approved for food contact
- GLV1318 and GLV1319: Triple-layered foam insulation and nitrileinsulated sleeve; heat protection up to 482°F
- GLV1316 and WPL367: Multi-dipped for superior durability
- GLV1208: Single-dipped for dexterity

MAPA TRILITES TRIPLE POLYMER GLOVES

Comfy and chemically resistant.

Exclusive tri-polymer formulation blends natural rubber, neoprene and nitrile for comfort, durability and chemical resistance. Lightly halogenated finish adds flexibility while textured fingertips provide grip when handling wet or oily objects. Great for lab work, light assembly, parts handing and maintenance.

SHOWA CHEMICAL RESISTANT PVC GLOVES

PVC coating keeps hands safe from chemicals, solvents and more.

PVC coating protects against acids, bases, chemicals and solvents while liner prolongs comfort. Gloves are liquid-proof and abrasion resistant for wet, chemical applications.

GLV1326 is anti-static for handling flammable or explosive materials. Both the liner and coating aid in preventing sparks from friction for safe use in extreme environments.

Dipped rough finish adds grip for

CHEMICAL RESISTANT NITRILE GLOVES

Tactile protection from chemical contact and other hazards.

Nitrile material stands up to long-term submersion in many harsh chemicals, including 30% hydrogen peroxide, ethylene glycol, gasoline and diesel fuel. Reusable gloves resist swelling and degradation to provide excellent protection against skin irritation.

- All gloves are FDA approved for food contact (except GLV210, GLV1305, GLV1312, WPL587 and WPL588)
- GLV1300, GLV1304, GLV1310 and GLV1311 are biodegradable
- GLV1305 has double-dipped nitrile coating for robust durability
- GLV210 has interlock-reinforced lining for increased strength and puncture resistance

SHOWA LATEX COLD GLOVES

Shield hands from cold temps with rubber latex coated gloves.

NEW! GLV1347 features thermal insulation and provides protection from aggressive detergents and alcohols. Natural rubber palm coating with rough texture delivers abrasion resistance and increased grip.

GLV1348 is water-repellent. Intelligent insulation keeps hands warm and dry while reducing perspiration inside the glove to preserve grip. Rough surface allows for increased control.

PYRAMEX CAP-STYLE HARD HAT

Provides dielectric protection up to 20,000 volts.

HDPE shell offers excellent head protection; complies with ANSI Z89.1 for Type 1, Class C, E and G head protection. Dielectric protection up to 20,000 volts. Features four-point ratchet suspension, absorbent brow quard, rear foam pad and rain trough.

Pyramex® Cap-Style Hard Hat	PYRAMEX		
(Specify Color: Blue White Yellow)			
Item #	1-9	10+	
PLS1549	\$14	\$13	

PYRAMEX RIDGELINE VENTED CAP-STYLE HARD HAT

Safe to wear backward if preferred.

Meets ANSI Z89.1 Standard and offers Type 1, Class C protection. Tested and marked safe to wear backward. ABSmaterial composition provides lightweight strength while four-point ratchet suspension absorbs shocks and adjusts easily. Slots for earmuffs, face shields and other accessories.

Pyramex® Ridgeline® Vented Cap-Style Hard Hat							
(Specify Color: Blue Yellow)	Gray	Hi-Viz Green	Orange	Red	Whi	te	
Item #					1-9	10+	
PLS1630					\$15	\$13	

PYRAMEX RIDGELINE FULL BRIM HARD HAT

Full brim provides 360-degree protection for your head.

Meets ANSI Z89.1 Standard and offers Type 1, Class E, C and G protection. ABS-material composition makes it lightweight and strong while full-brim style adds 360-degree protection. Adjust the fit using the ratchet four-point suspension.

Pyramex® Ridgeline Full Brim Hard Hat		PYRAMEX

♠ Best-Seller

AOUARION EYE WASH STATION

Low-maintenance eye wash uses factory-sealed cartridges.

One-step activation; pull down the tray and water flow begins. Factorysealed cartridges are ideal when direct plumbing line is inaccessible. Usage seal on tray, side windows and removable lid make it easy to inspect cartridges.

Fluid cartridges (PLS456, sold separately) provide a 0.4 gpm eye wash for up to 15 minutes.

Aquarion™ Eye Wash Station	
Item #	1+
PLS455 • Holds 7.4 gal. • Flow Rate 0.4 gal/Minute Minimum	\$601
PLS456 • Fluid Cartridges • 2 - 3.7 gal. Cartridges	\$414

ENCON GRAVITY-FED EYE WASH STATION

Get full ANSI flow in a unit that won't take up aisle space.

Unit has a 14-gallon capacity but extends only 9.5" from wall when retractable tray isn't in use. Pinchvalve design and pivoting tray activate unit and ensure flow within one second.

Hydrosep Additive (PLS726) preserves water for up to six months.

•	PLS724 • Holds 14 gal. • Flow Rate 0.4 gal/Minute Minimum	\$504
	PLS726 • Hydrosep® Water Treatment Additive • 4 - 8 oz. Bottles	\$61

HAWS PORTABLE EYE WASH STATION

Take full-flush capability anywhere you go.

Rugged polyethylene construction is well suited to long-term use in harsh environments. Fold-down arm activates eye wash in one motion and protects spray outlets when not in use. Steady flow rate of 0.4 gpm for 15 minutes meets requirements of ANSI Z358.1. Each 5-ounce bottle of water preservative (GEN950, sold separately) preserves 6-20 gallons of water for up to three months.

PIG DRENCH SHOWER TESTER

Stay dry while complying with ANSI shower-testing regs.

Tester catches water and channels it to a floor drain or container which keeps your floor dry. 12"-diameter funnel is made of clear vinyl with a reinforced top opening. The durable

material keeps its shape and allows for easy inspection. Attached 25' flat vinyl hose has 2" diameter and drains up to 20 gallons per minute. Tester has mounting bracket and hooks so it installs easily on most dome-style drench showers.

* WARNING: Cancer Birth Defects and Reproductive Harm www.P65Warnings.ca.gov

Install one unit for total body and face decontamination.

Chrome-plated brass valves stay open until manually closed for complete decontamination. Axion MSR eye wash head design works more effectively with natural eye function than standard eye washes. Inverted streams contact eye at inner corner and sweep contaminants toward outside edge; helps stop contaminants from flowing into other eye or draining into nasal cavities. Antimicrobially treated head prevents the growth of mold and mildew: ANSI Z358.1 compliant.

Haws® Free-Standing Drench Shower & Eye Wash				
Item #	1-2	3+		
PLS1358 • Pedestal Mount Flow Rate Eyewash - 3.7 gal/Minute, Shower - 20 gal/Minute	\$1684	\$1580		

GUARDIAN EYE WASH AND DRENCH SHOWERS

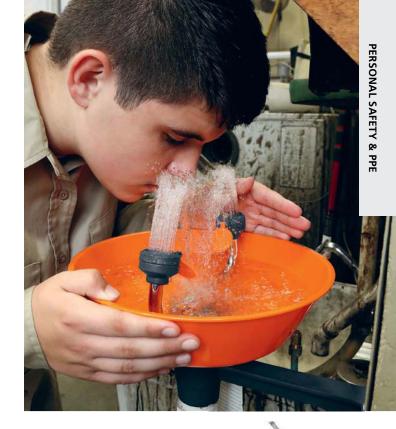

Provide easy access for workers to flush contaminants.

A variety of plumbed safety stations can be installed in high-risk areas to provide onsite initial treatment. Chrome-plated brass valves with PTFE seals stay open until manually closed for complete decontamination. Spray heads include flip-top dust covers plus internal flow control and filter to remove impurities. Highly visible orange color helps workers to quickly locate decon stations. Assembled, inspected and water-tested before shipment to ensure quality and reliable performance at your facility. All models are ANSI Z358.1 compliant.

"It is just what we needed. We had one already and liked it so we ordered two more. They are colored so as to stand out, lightweight, easy to install on any wall, and efficient. Do not need any chemicals, just good old H2O."

— Paublo, PLS1619 Customer

WALL-MOUNT EYE WASH

Bowl with two spray heads delivers a flood of water for rinsing eyes; choose stainless steel or plastic. Large push flag makes it easy to activate water flow, even when vision is compromised. Mounting bracket is included.

DECK-MOUNT DRENCH HOSE & EYE WASH

Unit can be operated in place as a fixed, hands-free eye wash or removed from its seating for use as an 8'-long drench hose. Brass squeeze valve engages locking clip and stays open until clip is released. Mounting flange is included.

GRIPPY MATS

WHERE **WILL YOU** STICK IT?

Get a grip with our adhesive-backed mats and runners!

Grippy Mat — the world's first

Our exclusive adhesive is formulated to perform in the wettest conditions and will never disintegrate, delaminate or leave a gooey mess to clean up.

The right amount of stick

Proven stick-and-release technology keeps mats in place without shifting but pulls up easily without leaving residue.

Easy cleaning

It's the only adhesive that stands up to heavy traffic and deep cleaning with a mop, floor scrubber or carpet extractor.

"I can't express how amazing this product is. It goes down easily and stays down perfectly, creating a safe environment."

Candy, Happy Customer

PIG GRIPPY MATS

RUBBER-BACKED MATS

- STAY IN PLACE
- ALWAYS LAYS FLAT
- **HIGHLY ABSORBENT**
- **EASY TO CLEAN**
- CONTINUOUS COVERAGE
- SHIFT AROUND
- **X** BUNCH & RIPPLE
- LIQUID PUDDLES ON TOP
- LAUNDERING FEES
- **X** GAPS & OVERLAPS

PIG Adhesive-Backed Grippy Mat is 100% guaranteed to perform! With so many advantages over rubber-backed mats, the only question is: Where will you stick it?

ASK THE EXPERTS

From product support to regulatory compliance, our team is here to help you find cleaner, safer, better ways to work.

Call 1-800-HOT-HOGS Live Chat at newpig.com

New Pig Adhesive-Backed Mat/Film Notice: New Pig Adhesive-Backed Mats/Films are formulated to work with most common hard-floor surfaces. New Pig Adhesive-Backed Mats/Films are not intended for use on wood flooring with stains, finishes, or coatings. If using the Carpet Protection versions of our adhesive backed mats, please be sure to use only on carpeted surfaces & never on uncarpeted, hard surfaces. New Pig Adhesive-Backed Mats/Films have non-permeable barrier layers to prevent liquid pass-through & as such, are considered to be non-breathable & may not be suitable for use on surfaces that require iar curing, including, but not limited to, newly poured concrete or recently applied coatings, sealants & finishes. All adhesive mats/films have some potential to leave residue or lift or discolor finish coatings, paint & loose or pre-damaged tiles depending on the condition & age of the floors or other surfaces. For these reasons & others, if you have questions about the suitability of New Pig Adhesive-Backed Mats/Films for your application, test a small section of mat in a discreet or non-critical area before using on larger areas. New Pig Adhesive-Backed Mats/Films are designed for use for up to 3-6 months depending on conditions & traffic patterns. Regardless, New Pig Adhesive-Backed Mats/Films should be replaced immediately if they show signs of wear or damage & should always be replaced to later than 6 months after installation. should always be replaced no later than 6 months after installation.

CUSTOMER ASSUMES THE RISK THAT A NEW PIG ADHESIVE-BACKED MAT/FILM MAY DAMAGE OR ALTER CUSTOMER'S EXISTING FLOORING OR FLOOR COVERING. NEW PIG PROVIDES NO WARRANTY OF FITNESS FOR A PARTICULAR PURPOSE & NO WARRANTY THAT THE USE OF AN ADHESIVE-BACKED MAT/FILM WILL BE ACCEPTABLE FOR USE ON CUSTOMER'S FLOORING OR ANY OTHER SURFACE. NEW PIG SHALL HAVE NO RESPONSIBILITY FOR & CUSTOMER'S PICKED RESPORTS BUSY PIG FROM ANY DIRECT, INDIRECT, INCIDENTAL OR CONSEQUENTIAL DAMAGES TO OR RELATED TO CUSTOMER'S FLOORS, FLOORING MATERIAL, OR ANY OTHER SURFACES IN CUSTOMER'S DWELLING OR FACILITY. CUSTOMER IS SUELY RESPONSIBLE FOR DETERMINING THE FITNESS & APPROPRIATENESS OF THE USE OF A NEW PIG ADHESIVE-BACKED MAY IN CUSTOMER'S DWELLING OR FACILITY.

EXCLUSIVE BENEFITS OF GRIPPY MAT

CREATES SAFE FLOORS

Stays put without shifting to add traction in entrances, walkways and other wet areas.

ENHANCES APPEARANCE

Create continuous runs without coverage gaps, overlaps or out-of-place mats for safe floors that look good.

OUTLASTS TRAFFIC

Durable mat construction withstands cart wheels and repeated foot traffic for up to 3–6 months.

FITS ANY FLOORPLAN

Customize your layout for a seamless look; Grippy Mat cuts to any size or shape for a perfect fit.

REDUCES COSTS & CLAIMS

Eliminates wasted labor while minimizing workers' comp and liability incidents from slips, trips and falls.

Grinny Floor Mat is proven

Grippy Floor Mat is proven to be more environmentally friendly than traditional mats.

ADHESIVE BACKING!

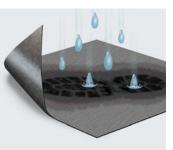

Pis ULTRA-DUTY GRIPPY MAT

Use our toughest adhesive-backed mat for your highest-traffic areas.

Put Ultra-Duty Grippy Mat to work in entrances, aisles, transition areas, and walkways that see tons of traffic. From boots to wheels to whatever, our most durable mat can handle it all. Create as much walk-off coverage as you need — without dangerous gaps or overlaps — to help keep floors dry and prevent slips, trips and falls. Unlike traditional rubber-backed mats, Grippy Mat never shifts, ripples or bunches up, so it won't obstruct doors or become a tripping hazard.

A CLOSER LOOK

Needle punched and heat fused polypropylene delivers extreme durability. Liquidproof barrier layer prevents moisture from reaching the floor. Adhesive backing holds tight but peels up easily.

ABOUT THIS GRIPPY MAT

DURABILITY

Stays in place up to 3–6 months in high traffic

WHERE TO STICK IT

Grocery stores, airports or any facility with extreme foot and wheel traffic. Sticks to most commercial floor surfaces including concrete, vinyl, ceramic tile and laminate flooring.

CLEANING

Broom, vacuum, mop, wet vac or floor scrubber; stands up to aggressive floor care schedules

AVAILABLE COLORS

PIG ULTRA-DUTY GRIPPY MAT

Roll out the exact amount of coverage you need, or choose precut mats in standard sizes that don't require cutting. Heavyweight mat offers the highest absorbency for the wettest problem spots in your facility.

GRP36206

Stands up to 30,000+ tramplings per week!

When we say Ultra-Duty Grippy Mat is made for high-traffic areas, we're talking upwards of 30,000 people per week. This number can help you gauge which Grippy Mat you need at your facility. In addition to all that foot traffic, it's also built to hold up under heavy wheel traffic from dollies, carts and even forklifts.

Ready to apply Grippy Mat? No sweat.

1. PREPARE FLOOR

Clean and dry the floor so Grippy Mat will properly adhere.

2. STICKY SIDE DOWN

Position mat, unroll and cut to size. Some mats may be pre-cut or have a release liner.

3. SMOOTH OUT

Smooth out mat, pushing any air bubbles toward the edge, and press into place.

Make application even easier with handy Grippy Mat Tools!

- Utility Board (GRP001) provides cutting guides for creating perfect seams, corners and 45° angles
- · Safety Knife (GRP012) makes quick, clean cuts without the risk of handling scissors or box cutter
- Smoothing Roller (GRP021) unrolls the mat as you push it along and smooths out bubbles as it secures mat into place
- High Traction Floor Cleaner and Degreaser (CLN9000-CLN9001) is great for degreasing slippery floors before applying PIG Grippy Mat; see page 321 for more info

Utility Board creates perfect angles and smooths mats.

PIG SAFETY BORDER GRIPPY MAT

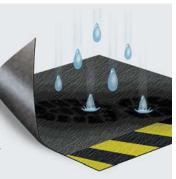

Designate pathways and provide traction to double-down on safety.

Safety Border Grippy Mat is the ONLY floor safety solution that combines a high-traction walking surface with a hi-viz safety edge pattern. Contrasting yellow and black markings are designed to meet ANSI standards and help you comply with OSHA 1910.22 (walking surfaces standard). Durable printed surface withstands industrial wear and tear, and you can run your vacuum, mop, broom or floor scrubber right over it.

A CLOSER LOOK

Needle punched and heat fused polypropylene delivers extreme durability. Liquidproof barrier layer prevents moisture from reaching the floor. Adhesive backing holds tight but peels up easily.

PIE CUSTOM-PRINTED GRIPPY MAT

Affordably put your logo or message in entrances and high-traffic areas.

You get all the floor safety and durability of Ultra-Duty Grippy Mat plus the added benefit of high-definition custom printing. Our mats are much more affordable than bulky rubber-backed mats, giving you the flexibility to change designs, unlike logo rugs that must be used for years to cover your investment. And because Grippy Mat is high-traction and highly absorbent, it's a better solution than floor decals for wet areas or anywhere that slips and falls are a concern.

A CLOSER LOOK

Needle punched and heat fused polypropylene delivers extreme durability. Liquidproof barrier layer prevents moisture from reaching the floor. Adhesive backing holds tight but peels up easily.

ABOUT THIS GRIPPY MAT

DURABILITY

Stays in place up to 3-6 months in high traffic

WHERE TO STICK IT

Entrances and high-traffic/wet areas where you'd like to add branding or floor signage. Sticks to most commercial floor surfaces including concrete, vinyl, ceramic tile and laminate flooring.

CLEANING

Broom, vacuum, mop, wet vac or floor scrubber; stands up to aggressive floor care schedules

3-6

EASY ORDERING & SETUP

Custom sizes available and no minimums! Call 1-800-HOT-HOGS® for details.

Rubber-backed rugs can't compare to Grippy!

Floor mats have finally evolved: Grippy Mat is thin, durable, absorbent and never a trip hazard.

Digital printing on a smooth surface produces sharper graphics than printing on carpet fibers.

Adhesive backing keeps Grippy Mat right where you put it; no shifting or bunching like rubber-backed mats.

PiB INDUSTRIAL ABSORBENT GRIPPY MAT

Sticks and stays down! Perfect for workstations or around machinery.

An industry first invented here at New Pig!

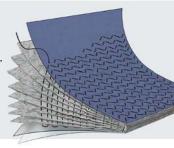

Adhesive-backed absorbent mat stays exactly where you put it with no shifting, bunching up or flipping over, but peels up easily for quick changeouts. The tough, spunbond top layer with heavy-duty zigzag stitching stands up to foot- and light-wheeled traffic. Traps oil, grease and grime and prevents it from tracking around while being easy to cut and install for continuous coverage.

Available in standard blue color or high-visibility yellow with printed caution message.

HELPS YOU COMPLY with 29 CFR 1910.22(a)(2) for maintaining floors in a clean, dry condition

A CLOSER LOOK

Spunbond top layer and zigzag stitching add strength. Liquidproof barrier layer prevents moisture from reaching the floor. Adhesive backing holds tight.

ABOUT THIS GRIPPY MAT

DURABILITY

Stays in place up to 3 months

WHERE TO STICK IT

Industrial Grippy Mat is ideal for lining oily areas around machines, equipment and workstations. It's also great for lining toolboxes, workbenches and countertops.

CLEANING

Broom or vacuum

GET TOOLS TO MAKE GRIPPY MAT APPLICATION EVEN EASIER! SEE PAGE 246.

PIG INDUSTRIAL ABSORBENT GRIPPY MAT

It sticks to most commercial floor surfaces including concrete, vinyl, linoleum, ceramic tile, quarry tile and laminate flooring. Rolls provide continuous coverage and absorbency in oily areas near machines while Pads are great for catching drips or for lining countertops and toolboxes.

Pis SAFETY MESSAGE GRIPPY MATS

Deliver workplace safety messages on can't-miss mats in two sizes.

What do you get when you combine an adhesive-backed mat and a safety message? A Safety Message Grippy Mat! Hi-viz symbols alert employees to safety requirements or workplace cautions, while the high-traction,

non-slip mat traps liquid and debris from shoes without shifting or moving. They won't become slippery like floor decals or shift around like rubberbacked mats — it's a workplace safety win-win!

Pis PAINT BOOTH MAT

Protect spray booth floors & mixing rooms from dust & overspray.

The top surface helps attract and trap dust, dirt, paint and primer overspray before it causes paint defects during a spray job, and the self-sticking back keeps mat securely in place without shifting, sliding or causing a trip hazard. Mat peels up for fast, easy changeouts and lasts up to three months depending on amount of overspray and cleaning. It's durable enough for vehicles and heavy foot traffic, plus the padding reduces noise and makes standing more comfortable. Meets NFPA33 — Static Dissipative & OSHA Standards at conditions of 50% RH or higher. Not for vertical surfaces.

A CLOSER LOOK

Spunbond top layer and zigzag stitching add strength. Liquidproof barrier layer prevents moisture from reaching the floor. Adhesive backing holds tight.

ABOUT THIS GRIPPY MAT

DURABILITY

Stays in place up to 3 months

WHERE TO STICK IT

Designed specifically for spray booth floors and mixing room benches, tables or other work surfaces. Add tape over seams to help preserve lifecycle of mat.

CLEANING

Broom or vacuum

If you're not happy with your New Pig purchase, we'll refund every penny, including taxes and shipping. Even the return freight is on us!

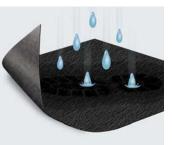

PIE RESTROOM GRIPPY MATS

Antimicrobial mats stay put to fight odors and prevent floor damage.

Grippy Mat works wonders everywhere else, so why not put the same high-traction, absorbent mats to work in your restroom, too? Our Restroom Mats are shaped to fit and permanently infused with antimicrobial technology to prevent the growth of odor-causing bacteria and mold on the mats. Mop all you want, these mats won't move and the adhesive won't transfer to your floor. Get a grip on stains, grout damage and slippery floors with our complete line of Restroom Mats.

A CLOSER LOOK

Durable polypropylene is infused with antimicrobial technology. Liquidproof barrier layer prevents moisture from reaching the floor. Adhesive backing holds tight but peels up easily.

ABOUT THIS GRIPPY MAT

DURABILITY

Stays in place up to 3-6 months in high traffic

WHERE TO STICK IT

Floors near toilets, urinals, sinks and dryers. Sticks to most restroom floor surfaces including concrete, ceramic tile and laminate flooring.

CLEANING

Broom, vacuum, mop, wet vac or floor scrubber; stands up to aggressive floor care schedules

😂= Best-Seller

STORES & MARKETS

Meet MasonWays, a featured partner of New Pig!

MasonWays was established in 1983 when Allen Mason wanted to find a better, safer alternative to

dangerous, sharp-edged metal racks or unsanitary wood pallets for the

storage of food. He engineered stronger, safer, more sanitary racks using recent developments in rotational molding of plastics — and they surpassed his expectations. MasonWays has since grown to be the largest manufacturer of plastic dunnage racks and display bases in North America, as well as a leading manufacturer of products for the grocery and convenience store market.

The products and knowledge to help you comply with the FDA Food Code.

The safety and protection of food offered at grocery and convenience store settings is governed by the FDA. Learn how MasonWays products like Dunnage Racks, Display Bases and Merchandisers can help you meet critical regulations and avoid fines. Find out more below!

KEEP FOOD OFF THE FLOOR

All food on premises must be protected in a clean, dry location free from splash, dust or other contamination AND located at least 6" above the floor. Applies to front and back of house.

Products to help you comply:

Dunnage Racks, Display Bases, Merchandisers

COLOR-CODE FOOD STORAGE

Raw foods, unless they're combined as ingredients, must be separated from everything else and each other. This applies during storage, preparation, holding and display.

In addition to using color for food safety, it's also an effective tool for amplifying your brand presence. The products on pages 260–269 can be ordered in the five stock colors shown below, or we can create a custom color if you send us your Pantone® color number or other sample. Call us at 1-800-HOT-HOGS® for more information.

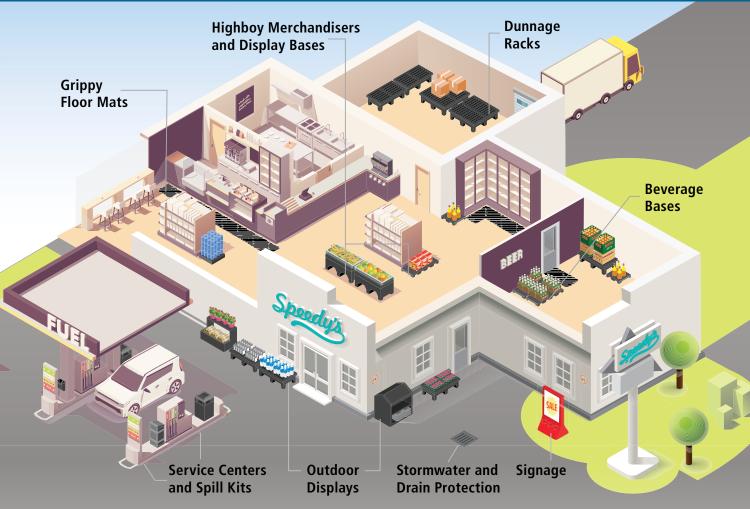

DURABLE SOLUTIONS FOR EVERY AREA OF YOUR STORE

Built tough since 1983, you won't find a larger selection anywhere.

Back-of-house storage racks feature heavy-duty construction with advanced technology and soft edges to help keep workers safe. Flow-through designs promote maximum air flow that inhibits bacterial growth. Polyethylene material resists detergents and solvents for easy cleaning. Approved for industrial refrigerators and coolers; rated to temperatures of -20°F to 212°F. NSF listed, FDA and USDA compliant.

- PolyMight Racks are best-sellers for reliable everyday performance
- Spectrum Racks are extra-heavy-duty for demanding environments
- Slim Jim Racks feature a smaller footprint, also ideal as display base

HELPS YOU COMPLY with FDA Food Code, HACCP Plans and more

MW DISPLAY & FILLER CUBES

Versatile "building blocks" go on floors or countertops.

Add a back row of cubes to your Bases, End Caps, Highboys and more for attention-getting, multi-level displays. Cubes can also be used as standalone solutions on countertops or floors where a smaller footprint is necessary. Stack multiple units to build creative layouts or use as back of shelf fillers to carry less inventory on retail shelves.

MW FLORAL CUBE

Organize floral displays to make them even more eye-catching.

Perfect for floral displays on tabletops or the floor. They nest together for convenient storage that doesn't take up a lot of space.

MW DISPLAY & SHIPPING PALLETS

Try these wood pallet alternatives.

Plastic construction is longer lasting and more durable than standard wooden pallets. Eliminates the problem of injuries from rusty nails and sharp boards, as well as mold and bacteria growth on wet, damp wood. Forkliftable; choose full or half pallet sizes.

MORE COLORS!

Match your brand look or complement your building with colors and graphics. See details on page 258.

MW ADJUSTABLE PALLET & CORNER GUARDS

Hide ugly pallets & prevent injuries.

Protective guards assemble in place with easy telescoping design to fit around standard wooden pallets. Prevents worker or quest injuries from nails and splintered boards; extends life of pallets by protecting against cart impact. Add Corner Guards (PLT104 compatible with PLT100 only) for extended vertical coverage.

Telescoping design expands and contracts for a perfect fit.

MW HIGHBOY TABLETOP MERCHANDISERS

Make any product more visible with Highboys up to 30 inches tall.

Large-footprint Merchandisers display your products at "tabletop" height for easy access and maximum visibility. Weight capacities range from 2,000–3,000 pounds so you can confidently store heavy loads. Slotted design promotes air flow (MCH141 has solid top). Add Step Up, Riser or Tray for multi-level displays and special applications.

MW STAIR STEP MERCHANDISERS

Step up your merchandising impact at store entrances, inside and out.

One-piece molded construction is perfect for automotive supplies, firewood bundles and other products that can benefit from a heavyduty, tiered display. Ideal for front of store placement or outdoors under a roof or awning to protect product. Popular 3-step model is three feet high and deep to maximize impact of your merchandising efforts. 2-step models also available.

MW SUPER SIGN

Your messaging can't be missed on this gigantic, free-standing sign.

Almost 7 feet tall and holds your 64" x 44" poster. Two-sided design allows easy changeouts for promotions and seasonal marketing. Fill with sand or water to stabilize; holes allow air to flow through to help prevent tipping.

81" high for maximum visibility.

MW OUTDOOR MERCHANDISING CABINET

Protect outdoor merchandise with all-weather, lockable cabinets.

Staging products outdoors can expose your inventory to wet weather and potential theft after hours. This Merchandising Cabinet covers both concerns with a weatherproof design that can also be locked at night. Ideal point-of-sale placement for automotive supplies, firewood, ice melt and other seasonal items.

Available in 1-door and 2-door models. Wire shelf included.

MORE COLORS!

Match your brand look or complement your building with colors and graphics. More details on page 258.

If you're not happy with your New Pig purchase, we'll refund every penny, including taxes and shipping. Even the return freight is on us!

MW EMPTY SPILL CENTER CABINETS

Store your spill cleanup supplies right at the pump in these lockable, outdoor cabinets.

Easy-access front doors and highly visible "Spill Center" signage make these cabinets perfect for rapid response to fuel and oil spills. Fully enclosed design resists weather and chemical splashes. Single-door and double-door models available; both feature one interior shelf and a keyed lock to secure contents.

Just add PIG!

Fill with your own supply of PIG Absorbents, bioremediation, cleanup tools and personal protective equipment to minimize the impact of fuel island mishaps. See below or call 1-800-HOT-HOGS® for help stocking your cabinet!

MasonWa	MasonWays® Empty Spill Center Cabinet			(2)

SVC113	Double-Door	20" x 22" x 51"	\$556	\$529

Fill your Spill Center Cabinet with these absorbents.

PIG STAT-MAT PADS

The best mat you can buy to reduce the risk of electrostatic discharge; a critical precaution around flammable liquids and vapors. They pass ANSI and MIL-SPEC standards for static decay and surface resistivity, making them perfect for fueling areas and solvent cleanup.

See page 44

PIG STATIC-DISSIPATIVE SOCK

This is the only absorbent sock for fuels and solvents proven to dissipate static. It passes ANSI and MIL-SPEC standards for static decay and surface resistivity, plus the skin is UV resistant up to 12 months.

See page **53**

PIG DRI LOOSE ABSORBENT

Unlike clay, which simply gets coated with liquid, fast-wicking cellulose-based kaolin granules begin to soak up liquid the moment they touch the spill. 100% recycled content; silica-free composition doesn't pose the health hazards associated with breathing in clay dust.

Put some style in your forecourt with the modern look of the Rhino line.

Attractive styling distinguishes Rhino Refuse & Recycling Centers, with modern contours and fluting on side panels. All models feature separate 55-gallon liners to conceal trash bags.

- Hooded Top units keep out rain and snow, ideal for open areas; discourages overfilling and oversized items. Available in Single (SVC103) or Dual (SVC104) options.
- Open Top (SVC102) unit is ideal underneath awnings or fuel island canopies where weather is not a factor

MW AMENITY HOODED TRASH BIN

Simple, classic design goes anywhere.

Understated appearance blends in with most environments. Separate 45-gallon liner conceals trash bags. Hooded top keeps out rain and snow; discourages overfilling and oversized items. Impervious to cleaners, chemicals and salt.

MasonWays® Amenity Hooded Trash Bin		(2)
Item#	1-5	6+
SVC101 • 20"W x 20"D x 47"H	\$314	\$299

MW SMOKERS POLE

Simple design saves space and controls cigarette waste.

Narrow pole made from powder-coated steel is more attractive than large, plastic smoking receptacles. Self-extinguishing, two-piece design comes apart for easy emptying. Heavy base plate offers stability; spacers on bottom keep unit off of ground. Small footprint won't take up much space at store entrances or designated smoking areas.

MasonWays® Smokers Pole		(2)
Item #	1-5	6+
FDC100 • 14" Dia. Base x 41" H	\$231	\$220

ALL GOOD.

We stand behind 100% of our products 100% of the time. If you buy something that's just not working out, we'll refund every single penny, including taxes and shipping. We'll even schedule and pay for the return freight from your location!

It's our 100 % Money-Back Guarantee — Every product. Every penny. Every time.

Accent your building's exterior and create a nice seating area for customers and guests.

Top-grade recycled plastic slats are durable and low maintenance; UV and moisture resistant material resists cracking and fading. All-plastic design won't rust or corrode like other plastic benches with metal legs; all styles have black legs. Each style is available in 4' or 6' lengths.

- Traditional Bench provides back support in a classic design that goes anywhere
- Malibu Bench features a contoured seat and backrest for comfort and style
- Classic Bench is backless for a sleek, modern look that can be accessed from both sides

SAFETY & MAINTENANCE

- Product Development

Prepare for maintenance mishaps with facility-savers from PIG!

Don't wait for something bad to happen around your facility before you stock the right products to deal with it. The next 56 pages are packed with PIG-approved solutions to help you comply with OSHA regulations and satisfy your company's best practices.

We've partnered with the top names in safety and maintenance for cleaner, safer, better ways to work. We've also developed industryfirsts that you won't find anywhere else, like our PIG Silicone Water Vacuum Barrier (shown above, see page 317). And don't forget — every purchase is risk-free with our 100% Guarantee!

MINIMIZE WASTE

Recycle your aerosol cans and reduce your waste streams!

Don't just dump your aerosol cans into landfills depressurizing cans exempts them from hazardous waste regulations and turns them into recyclable scrap metal.

See PIG Aerosol Can Recyclers on pages 308-310.

ASK THE EXPERTS

From product support to regulatory compliance, our team is here to help you find cleaner, safer, better ways to work.

pis ANTI-FATIGUE MATS

We offer a wide range of anti-fatigue mats so you can find exactly what you're looking for. These mats are designed to reduce back strain and promote frequent posture changes so you can stay on your feet longer without feeling fatigued. Need help deciding? Give us a call at 1-800-HOT-HOGS!

Application Key

Continuous water contact

Continuous chemical contact

For dry areas only

Static-dissipative

Light water splashes Light oil/grease splashes

splashes

NOTE: For chemical compatibility information on mats, please call Technical Services or

DID YOU KNOW?

83% of industrial workers have experienced foot, leg or lower back problems. Anti-fatique mats can help reduce these workplace strains.

Nothing comes close to the long-lasting traction of PIG TuffGrit Mats.

Tired of grit coatings that wear thin, go bald and lose their grip? Our new line of high-traction TuffGrit Anti-Fatigue Mats and Anti-Slip Runners are built to outlast the competition, and we've got the testing to prove it.

We ran head-to-head tests against the leading competitors' mats, and the results are tuff to argue with. Look below to get the nitty gritty on how they performed, then learn more about each mat on pages 281 and 286-287.

GRIT-IN-THE-BOX TEST

We dumped the shipping containers for TuffGrit Drainage Mat and the leading competitor to see what fell out...

The grit that's supposed to be keeping you safe doesn't stay on the mat.

Almost all our grit stays on the mat, which helps you stay on your feet.

RECIPROCAL ABRASION TEST

We tested TuffGrit Diamond Plate Mat and the leading competitor on our Abrasion Testing Machine...

Their grit was gone and raw rubber was exposed after just 7,400 passes.

We stopped the test after 82,000 passes and still no signs of wear!

PIG TUFFGRIT DIAMOND PLATE ANTI-FATIGUE MAT

We just raised the bar for non-slip anti-fatigue mats.

Some mats give you grit, some give you a diamond plate texture — this mat doubles down on safety with both! Our TuffGrit™ coating lasts eleven times longer than the leading competitor's grit coating in dry environments, and seven times longer under oily conditions. Plus, it's engineered to leave no grit behind, making it safer than other mats that lose their grit.

Diamond tread plus TuffGrit traction

Exceeds ANSI standards for high slip resistance, even in wet areas and applications with light overspray or oily drips (not for use in standing water/oil). More than a half inch of PVC foam relieves stress on knees, feet, ankles and back from extended standing. Reinforced industrial grade construction is built to last in heavy-duty applications, and built-in beveled edges create a safe transition on and off mat.

"We've never had a mat last this long. Our past mats would be destroyed after one semester, but if I pressure washed these, they would still look like new."

This mat has been in use for months, and TuffGrit hasn't worn out!

PIG TUFFGRIT COMFORT ANTI-FATIGUE MAT

Long-lasting TuffGrit surface provides long-term safety.

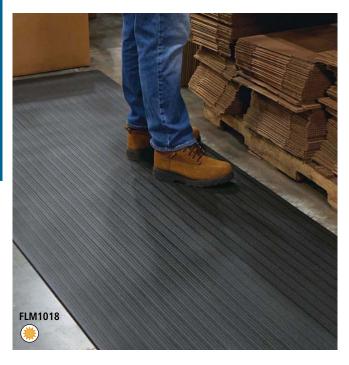

TuffGrit™ coating is incredibly durable and abrasion resistant; no other grit coating on the market lasts longer. Exceeds ANSI standards for high slip resistance, far better than tapes or paints. Provides extreme traction even in areas with light overspray and oily drips (not for use in standing water/oil). Engineered to leave no grit behind which is safer than other mats that gradually lose their grit.

Blend of comfort and traction is ideal for finishing stations, assembly lines and other work areas. 3/8"-thick PVC foam relieves stress on knees, feet, ankles and back from extended standing.

PIG MARBLED CUSHION ANTI-FATIGUE MAT

Elegant marble pattern gives a professional presentation.

Choose from a variety of marbled colors that suit your space. Beveled edges reduce tripping while supplying you with comfort. Mat has a smooth Styrene rubber top layer, and offers greater durability than single layer foam mats. Perfect for service areas and customer-facing offices.

WEATHERTECH ANTI-FATIGUE MAT

Ease body and joint aches by standing on this ergonomic anti-fatigue mat.

3/4"-thick mat helps reduce stress on feet, knees and legs from extended standing which is ideal for workstations and standing desks. Surface is textured to provide extra traction and beveled edge prevents mat from being a trip hazard. Inner foam material is strong enough to prohibit curling yet soft enough to help alleviate discomfort. Mat is non-absorbent, heat resistant, odor free and easy to clean. Choose from two patterns and three colors to match your workspace.

WEATHERTECH INTERLOCKING ANTI-FATIGUE MAT

Customize your anti-fatigue mat layout with interlocking pieces.

Shape it your way around machinery or workshop benches by connecting end, middle and corner pieces (sold individually) together with patent pending SnapLink system. 3/4"-thick mat helps reduce stress on feet, knees and legs from extended standing, and you can make it long enough for several people to stand on it at once. Surface and underside are textured to provide extra traction and grip, and beveled edge prevents it from being a trip hazard. Two patterns and two colors available.

PIG ANTI-FATIGUE WELDING MAT

Spark-resistant mat decreases the chance of fire.

Stand on this comfortable mat while you weld without sacrificing safety. Soft-foam cushioned mat is designed to resist sparks and hot metals up to 650°F. Slip-resistant, textured rubber surface provides plenty of traction, making it great for machine shops, steel mills, assembly lines, maintenance departments and more.

PIG TUFFGRIT ANTI-SLIP RUNNER

Add a high-traction surface to slip zones and transition areas.

TuffGrit[™] coating is incredibly durable and abrasion resistant; no other grit coating on the market lasts longer. Exceeds ANSI standards for high slip resistance, far better than tapes or paints. Provides extreme traction in wet areas of applications with light overspray and oily drips (not for use in standing water/oil). Engineered to leave no grit behind, unlike mats that shed their grit.

Great for transitioning from wet/oily areas to dry areas, adding traction over uneven surfaces, flat rooftop maintenance and other work areas with slip hazards. Thin-profile Runner can be rolled up for easy transport, and recovers its flatness quickly once unrolled.

TUFFGRIT MODULAR ANTI-FATIGUE DRAINAGE MAT

Build custom layouts in work areas with high volumes of water or oil.

Proprietary TuffGrit™ coating easily outlasts the competition and exceeds ANSI standards for high slip resistance, providing extreme traction even in wet or oily environments. Plus, it's engineered to leave no grit behind, making it safer than other mats that lose their grit.

Modular design lets you attach multiple 3' x 3' mats and Beveled Edges (all sold individually) to create custom layouts. Large drainage holes channel liquids to prevent pooling and minimize slip hazards. Heavy-duty nitrile rubber resists a wide range of oils and industrial fluids. Relieves stress on knees, feet, ankles and back from extended standing.

PIG OUTDOOR ENTRYWAY SCRAPER MAT

Perfect for general-purpose traffic in any weather.

Keep the inside of your building clean by laying this scraper mat outside the entryway. The raised rubber bars remove light-to-moderate debris from the bottoms of shoes so that it doesn't get tracked across your floors. Easily clean this durable, weather resistant mat with a power washer; the rubber blend is not only built to withstand the outdoor elements, but also oil, grease and a range of chemicals.

Grooves catch dirt before it enters your facility

FLOOR PROTECTION COVERINGS

From painting to total demo, PIG's got the perfect protection for your floor.

Construction, renovations, and other maintenance jobs can involve demolition, hanging drywall, painting and many other tasks that make a real mess. Use PIG Floor Protection Coverings to help protect your floors!

There are four levels of protection to choose from, plus options for hard floors and carpet. Some are absorbent and some aren't, so we've got you covered (pun intended!) no matter what type of work is being done.

PIG Floor Protection Coverings offer better protection and last longer than other methods. The self-adhesive versions (all except FLM9006) stay exactly where you put them without shifting or bunching. You can't say the same about kraft paper, drop cloths and other "old-school" solutions, so make the switch to PIG.

PIG ULTRA-DUTY SELF-ADHESIVE COVERING

Sticks to hard floors and stays put while you broom or vacuum over it. Durable enough to be left in place up to six months. Highly absorbent material provides excellent traction.

PIG HEAVY-DUTY REUSABLE COVERING

Non-adhesive covering won't damage sensitive floors and can be reused multiple times. Absorbent top soaks up spills and splashes while poly backing stops absorbed liquids from getting through to floor.

NON Adhesive

PIG SELF-ADHESIVE FLOOR COVERING

Non-woven material is durable and surface is liquidproof. Sticks to hard floors and can stay in place up to eight weeks. Install with blue side down.

PIG CARPET & FLOOR SELF-ADHESIVE FILM

Liquidproof, punctureresistant, temporary protection that can be left in place up to four weeks. Carpet Film is clear; Floor Film is green.

New Pig Adhesive-Backed Mat/Film Notice: New Pig Adhesive-Backed Mats/Films are formulated to work with most common hard-floor surfaces. New Pig Adhesive-Backed Mats/Films are not intended for use on wood flooring with stains, finishes, or coatings. If using the Carpet Protection versions of our adhesive-backed mats, please be sure to use only on carpeted surfaces. Rever on uncarpeted, hard surfaces. New Pig Adhesive-Backed Mats/Films have non-permeable barrier layers to prevent liquid pass-rhrough & as such, please to be non-breathable & may not be suitable for use on surfaces that require air curring, including, but limited to, newly poured concrete or recently applied coatings, sealants & finishes. All adhesive mats/films have some potential to leave residue or lift or discolor finish coatings, paint & loose or pre-damaged tiles depending on the condition & age of the floors or other surfaces. For these reasons & others, if you have questions about the suitability of New Pig Adhesive-Backed Mats/Films for your application, test a small section of mat in a discrete or non-critical area before using on larger areas. New Pig Adhesive-Backed Mats/Films are designed for use for up to 3-6 months depending on conditions & traffic patterns. Regardless, New Pig Adhesive-Backed Mats/Films should be replaced immediately if they show signs of wear or damage & should always be replaced no later than 6 months after installation.

CUSTOMER ASSUMES THE RISK THAT A NEW PIG ADHESIVE-BACKED MAT/FILM MAY DAMAGE OR ALTER CUSTOMER'S EXISTING FLOORING OR FLOOR COVERING. NEW PIG PROVIDES NO WARRANTY OF FITNESS FOR A PARTICULAR PURPOSE & NO WARRANTY THAT THE USE OF AN ADHESIVE-BACKED MATIFILM WILL BE ACCEPTABLE FOR USE ON CUSTOMER'S FLOORING OR ANY OTHER SURFACE. NEW PIG SHALL HAVE NO RESPONSIBILITY FOR A CUSTOMER HEREBY RELEASES & DISCHARGES NEW PIG FROM ANY DIRECT, INCIDENTS, IN COLORING OR CONSEQUENTIAL DAMAGES TO OR RELEATED TO CUSTOMER'S FLOORS, FLOORING MATERIAL, OR ANY OTHER SURFACES IN CUSTOMER'S DWELLING OR FACILITY. CUSTOMER IS SOLELY RESPONSIBLE FOR DETERMINING THE FITNESS & APPROPRIENTED FOR A NEW PIG ADMENSIVE BACKED MATERIAL OR ANY OTHER SURFACES IN CUSTOMER'S DWELLING OR FACILITY.

INCOM FLOOR MARKING TAPE

Stick this tape to the floor to communicate important messages.

Printed floor tape is a long-term solution for continuously conveying alerts to employees and visitors, or for pointing them in the correct direction. Durable material is designed to last and is slip resistant while clear over-lamination protects the printed message without sacrificing traction.

Floor Marking Tape is available in 14 different messages. Directional Arrow Floor Marking Tape is offered in six colors.

NON-SKID STEP STRIPS

Gritted strips install easily on steps & ramps.

Durable mineral grit creates a non-skid surface for safe footing; sealed with two-part epoxy resin for durability and to prevent shedding. Rounded corners won't lift or flag like conventional squared corners. Strips remove without residue and offer low initial tack for easy repositioning.

Non-Skid Step Strips	COM
Item #	1+
FLM646 • 6"W x 24"L • 50/package	\$153

GORILLA ANTI-SLIP TREAD TAPE

Step safely on the durable grit of this long-lasting tape.

The sturdy grit provides traction to prevent slips and falls, even outdoors on wet surfaces. Use on any walking, climbing or high-traffic areas that are prone to slippery conditions or just need more grip, such as ladders, stairs and ramps.

Gorilla® Anti-Slip Tread Tape	
Item #	1+
FLM2001 • 2" W x 10' L • 4 rolls/box	\$99

Sikaflex Adhesive actively resists dynamic stresses.

PIG TUFFGRIT STEP COVERS

Long-lasting stair traction easily outperforms tapes & vinyl treads.

Fiberglass Step Covers with TuffGrit™ texture provide extra protection against slips and falls, even in wet or oily conditions. Choose Fine Grit for high-traffic areas, or Extra Coarse grit for industrial environments. Covers resist UV, chemicals, corrosion and heavy traffic for long-lasting protection, indoors or out. They can be installed on steel and composite grating, steel and aluminum plating, concrete or wood (fasteners and adhesive not included). 3" width for stair nosing protection; 9" width for extended tread depth coverage.

Use SikaFlex Adhesive to install over most substrates and SikaFlex Sealant around edges to seal out moisture and deter corrosion.

ABOCRETE CONCRETE PATCH & REPAIR KIT

All-in-one epoxy kit makes concrete surfaces like new.

Provides up to 30 times the tensile strength and 21 times the flexural strength of concrete. It mixes in minutes, sets in 20–40 minutes and dries in under three hours, plus it resists oils, salts and other chemicals that erode concrete.

Large kit is packaged inside a 5-gallon pail for convenient storage, carrying and mixing. Can be applied over one foot thick for major reconstruction and can be used to anchor machines, signs, frames, furniture and bollards.

Small kit is ideal for minor repairing, patching or resurfacing of floors, stairs, sidewalks, driveways, walls and more. Components are packed inside a 2-gallon pail.

ABOWELD 55-1 EPOXY PASTE FOR CONCRETE REPAIR

Repair concrete in challenging environments, including overhead or underwater.

Apply to vertical, overhead and horizontal surfaces without forms; slump resistant up to 3/8" thick on vertical surfaces. Tenacious adhesion and structural strength are suitable for the most punishing environments — it even hardens underwater! Shrink-free and chemical resistant formula is ideal for filling cracks, replacing missing concrete and permanently bonding concrete with most rigid materials. It can be used for both industrial and home repairs like restoring columns, walls, ceilings, stair risers and treads, rails, foundations, pools and more. Mixes in minutes, sets in 20–30 minutes and cures in 2–6 hours.

PIG PIPE WRAP REPAIR KITS

Make broken pipes like new again.

Each kit has materials to restore one pipe or joint. Materials adhere to wet or dry surfaces so there's no need to drain the pipes. Works on most pipes, including PVC, copper, galvanized steel, rubber, lead and iron. Cures in about 30 minutes at 75°F and NSF Certified for safe use on potable water lines.

 Repair Kits for Lines & Joints Not Under Pressure require you to relieve line pressure before beginning repairs; butyl patch or PIG Repair Putty applies underneath outer wrap to strengthen seal

• Repair Kits for Lines & Joints Under Pressure (up to 60 PSI) can be

used without relieving line pressure; pressure-sensitive tape and PIG Repair Putty apply underneath outer wrap to strengthen seal

* MARNING: Cancer - www.P65Warnings.ca.gov

1. Apply putty & primary layer.

2. Soak outer wrap to activate it.

3. Apply outer wrap.

4. Finish off repair and let it cure.

HANG A LEAK DIVERTER UNTIL YOU CAN REPAIR YOUR PIPE. SEE PAGE 349.

"We've used PIG Pipe Wrap to repair leaks during inclement weather on pipe that transports abrasive material under pressure. The pipe wrap held up extremely well, often outlasting the original steel pipe."

— Jeff, PTY124 Customer

PIG PIPERESCUE INSTANT REPAIR CLAMP

Repair water pipes and leaky fittings with this clamp.

Creates a watertight seal on metal, plastic or multilayer pipes. Can be fitted when the leak is still in full flow, in tight spaces to clipped pipes and in the notch of a joist. Once clamp is applied, pipe can function normally, hot or cold, until a permanent repair can be made! For temporary use only; can be reused. Kit includes two clamps and two rolls of PTFE tape.

PTY504 Kit has two differently-sized clamps to cover a range of pipes

needs to be washed daily. This barrier works wonders for this. Instead of chasing water with a vacuum hose, they now just push the water to the barrier. Very happy with this product."

- Mike, WTR052 Customer

PIG Silicone Water Vacuum Barrier

Check it out on page 317

RECYCLING & WASTE MINIMIZATION

Zero in on zero waste — help the environment, help yourself.

According to the EPA in the Resource Conservation and Recovery Act (RCRA), waste minimization is "the reduction of hazardous waste that is generated or subsequently treated, stored or disposed," and includes both source reduction and recycling. Here's what you can do:

- Perform a waste audit find out what types and how much waste you are producing and identify processes that are producing unnecessary wastes
- Improve housekeeping this inexpensive but effective method includes proper labeling, storage, disposal and segregation of wastes
- Reclaim, recycle and reuse wastes many wastes can be recycled within a process, used as fuel or sold as scrap

Check out the graphic below for more ways that PIG products can help!

NEED HELP WITH RCRA REQUIREMENTS?

WHAT'S YOUR WASTE STREAM?

AEROSOL CANS

Puncture your aerosol cans for easy, legal recycling to avoid the hassle and expense of hazardous waste handling.

USED ABSORBENTS

Reclaim up to 90% of liquids from your PIG Absorbents to help minimize waste.

PIG Absorbent Wringer

RNG202 See page 312

FLUORESCENT BULBS

Store bulk quantities of spent fluorescent tube light bulbs in a cost-effective manner.

PIG Lamp Storage Drums DRM1148-1149,

DRM805 See page 313

BATTERIES

Dry-cell battery collection container helps you meet universal waste regulations.

Used Battery Container

DRM136 See page 312

PIG AEROSOL SINGLE-CAN RECYCLER

Puncture your aerosol cans for easy, legal recycling.

Why pay for hazardous waste disposal when you can cash in by selling properly emptied cans as scrap steel? Our recycling system easily punctures aerosol cans, rendering them exempt from haz waste regs when properly emptied.

Recycler works with domed mini, standard and jumbo aerosol cans (minimum 2"Dia x 5"H, maximum 3"Dia x 9.5"H with sleeve removed). Unit mounts directly into 2" bung on a 30- or 55-gallon closed-head steel drum to collect residual liquids (drum should not be filled more than 70% full to provide proper displacement for released contents).

One-piece filter system removes harmful VOC's, protecting the environment. Timestrip indicator eliminates the guesswork of carbon cartridge changeouts. Carbon filter has a life of approximately three months.

HELPS YOU COMPLY with 40 CFR 261.1(c)(6) that defines scrap metal

"DRM1266 works very well. We used to pay a hazmat company to dispose of our aerosols — quite expensive. Since we got the Aerosol Recycler, we recycle the cans and recoup even more money. We've more than paid for the unit with these savings. Very good investment."

— Chuck, DRM1266 Customer

NOTE: Always operate system outdoors or in a well-ventilated area.

REDUCE YOUR HAZ 18X WASTE

1 DRUM

USING A PIG AEROSOL CAN RECYCLER

One 55-gallon drum can hold the residual liquid from 4,200 emptied cans. The cans can then be recycled or sold for scrap metal.

DRUMS OF HAZ WASTE = 1 RECYCLABLE CANS = 4,200

VS

18 DRUMS

Without puncturing cans, you'd fill eighteen 55-gallon drums with waste and they would all have to be disposed of as hazardous if not completely emptied.

DRUMS OF HAZ WASTE = 18 RECYCLABLE CANS = 0

NOTE: Be sure to check federal, state and local regulations.

When you consider drum prices, haz waste disposal costs, transportation costs, labor costs, storage space and environmental impact, can you really afford **NOT** to empty your aerosol cans?

IT'S A NO-BRAINER! PIG AEROSOL CAN RECYCLER

INDUSTRY-FIRST PIG EXCLUSIVE!

PIG AEROSOL FOUR-CAN RECYCLER

Save time with the only four-can recycler on the market.

Puncturing and draining aerosol cans turns hazardous waste into non-hazardous waste that can be recycled as scrap metal. Our Four-Can Recycler eliminates the risks associated with illegal aerosol disposal and the expense of hazardous waste handling, plus it minimizes worker injuries caused by fire, explosion or VOC release from improperly emptied cans. It also has all the features listed on page 308.

Recycling unit mounts directly into 2" bung on a 55-gallon closed-head steel drum; residual liquids drain directly into drum (drum should not be filled more than 70% full to provide proper displacement for released contents).

DRM1334 Contents * 1 Counter for Can Puncturing System * 1 Goggles 1 Padlock & Key * 1 Deluxe Can Puncturing Unit * 1 Plastic Sleeve * 1 Grounding Wire * 1 Colorimetric Indicator Replacement Cartridge 1 Drum Cover/Under Containment	

AEROSOLV XL CAN PUNCTURING SYSTEM

Complete system includes everything

Designed to comply with California's vapor emission regulations.

Properly emptied cans are exempt from hazardous waste regulations and can be recycled as scrap steel. Unit quickly pays for itself as you sell recycled steel rather than pay for can disposal. System works with domed mini, standard and jumbo aerosol cans. Mounts into 2" bung on 30- or 55-gallon closed-head steel drum and residual liquids drain directly into the drum. Always operate system outdoors or in a well-ventilated area.

you need—can counter, padlock and key, goggles and more!

PROPANE CYLINDER RECYCLING SYSTEM

Recycle propane cylinders and avoid costly hazardous waste disposal.

Valve stem is safely removed so canister can be recycled as scrap steel rather than be disposed of as hazardous waste, and system inserts "Recyclable" steel certification tag into cylinder valve. Unit can be handheld or mounted on bench and antistatic wire grounds it.

Activated carbon filter helps remove VOCs from propellant. One-piece replacement carbon cartridge (DRM451) threads directly into unit without special tools. Replace carbon filter after 40 uses which can be tracked with the 40 certification tags that are included. Always operate system outdoors or in a well-ventilated area.

HELPS YOU COMPLY with 40 CFR 261.1(c)(6) that defines scrap metal

NOTE: Not for use with oxygen or ether cans.

WONDERING ABOUT WASTE MINIMIZATION? CALL OUR TECH TEAM AT 1-800-HOT-HOGS!

PIG ABSORBENT WRINGER

Reclaim liquids from PIG Absorbents to help meet waste minimization goals.

You can recoup up to 90% of liquids with polyurethane "gripper" rollers that feature channels to direct liquids away from absorbents and into a collection drum.

12"-wide throat adjusts to accommodate a wide variety of PIG Absorbents, including PIG Super Absorbent Socks, PIG Super Pillows, Mats, Booms and Re-Uz-It Pads. Wringer mounts on standard open- or tight-head 55-gallon drum (not included) and is geared for easy hand cranking.

PIG® Absorbent Wringer	gig
Item #	1+
RNG202 • Manually Operated	\$2113
RNG202 Contents • 1 Wringer • 1 Tray	

NOTE: Wringing or compacting waste may be considered "treatment" by RCRA regulations. You may require a permit to use this product. Please consult with your state EPA waste management office prior to use.

USED BATTERY CONTAINER

Dry-cell battery collection container helps you meet regulations.

Easy-to-reseal polyethylene container safely stores used dry-cell batteries for disposal and eliminates open containers of dead batteries that might not meet universal waste regulations. Clear sidewalls make it easy to monitor accumulated waste and it's clearly labeled for waste battery collection to prevent improper disposal. Extra used battery labels (SGN242) sold separately below.

NOTE: Not a shipping container.

Used Battery Container		
Item #	1-9	10+

FLUORESCENT LAMP STORAGE DRUM

Store spent bulbs in these lightweight fiber drums.

Cost-effective way to store spent fluorescent tubes. Lightweight but sturdy kraft material minimizes breakage. DRM1149 and DRM1148 hold 4' lamps; DRM805 telescopes to hold 6' or 8' lamps.

NOTE: Not a shipping container.

PIG REG TIP

HANDLE UNIVERSAL WASTE THE RIGHT WAY.

Batteries, pesticides, fluorescent lamps, mercury-containing equipment and aerosol cans (in most states) must be stored in closed containers with the proper labels.

FLEX SEAL LIQUID FLOOD PROTECTION

Seeps into gaps and cracks then dries to a watertight coating.

Brush, roll or pour directly onto your surface or on top of other Flex Seal Flood Protection products as a final coat of protection to seal any small pinholes or openings that may have been missed. Dries to the touch in 3-6 hours; fully cures in 24-48 hours. Allow product to completely cure before floodwater arrives. Product begins to cure when exposed to air, so keep lid on tight during and after use.

Peels off easily after floodwaters recede.

Watertight zippers

Tie bag down using anchor points

WTR3100 WTR3101 WTR3102

KRISIS FLOOD BAG

Protect equipment, furniture and more with watertight dry bags.

Heavy-duty PVC material is completely impermeable to water intrusion. Joints are heat-sealed instead of stitched, and zippers remain watertight even when bag is fully submerged. Tested for up to one month underwater at 3' depth; watertight to international standard IPX8. Anchor points enable securing of bag during a flood and bright color makes it easy to spot.

Portable bag protects small items, including electronics; Standard bag is for small to medium equipment and furniture; Super-Sized bag can be used for medium to large equipment and furniture.

PIG WATER-FILLED FLOOD BARRIER

Reusable barriers contain, control and divert floodwaters.

Fill these durable 10 mil polyurethane tubes with water to divert floodwaters. Reusable, compact and lightweight for storage, with dual chambers to prevent barrier from rolling. Water-filled dimensions listed below.

PIG® Water-Filled Flood Barrier	giq
Item #	1+
WTR057 • 38"W x 20'L x 10"H (filled) • Capacity 700 gal.	\$499
WTR056 • 38"W x 10'L x 10"H (filled) • Capacity 350 gal.	\$328
WTR055 • 23.5"W x 20'L x 6.5"H (filled) • Capacity 160 gal.	\$298
WTR054 • 23.5"W x 10'L x 6.5"H (filled) • Capacity 80 gal.	\$193
WTR053 • 23.5"W x 5'L x 6.5"H (filled) • Capacity 40 gal.	\$130

PIG WATER-ACTIVATED FLOOD BAGS AND BARRIERS

Dam floodwater for quick protection.

These sandbag alternatives are lightweight, compact and easy to handle prior to activation; place in flood-prone areas when you know water is coming. They contain super absorbent polymer that swells on contact with water to form a solid, heavy barrier.

Flood Bags can be stacked up to three rows high; build even higher retaining walls by using a pyramid layout.

Longer Flood Barriers are designed to stop water in front of entrances and dock doors. Built-in wedge design helps prevent barriers from rolling out of place. Available in three lengths to fit your needs.

NOTE: Not to be driven over or used with saltwater flooding.

PIG® Water-Activated Flood Bag	pig
Item #	1+
WTR009 • 12"W x 24"L x 3.5"H • 10/bag • Abs. up to 4 gal./bag	\$65
WTR010 • 12"W x 24"L x 3.5"H • 36/bag • Abs. up to 4 gal./bag	\$223
PIG® Water-Activated Flood Barrier	pig
Item #	1+
WTR011 • 6.5"W x 5'L x 3.5"H • 4/bag • Abs. up to 4.25 gal./barrier	\$53
WTR012 • 6.5"W x 5'L x 3.5"H • 16/bag • Abs. up to 4.25 gal./barrier	\$206
WTR013 • 6.5"W x 10'L x 3.5"H • 2/bag • Abs. up to 8.5 gal./barrier	\$53
WTR014 • 6.5"W x 10'L x 3.5"H • 8/bag • Abs. up to 8.5 gal./barrier	\$201
WTR015 • 6.5"W x 17'L x 3.5"H • 1/bag • Abs. up to 14.5 gal./barrier	\$42
WTR016 • 6.5"W x 17'L x 3.5"H • 5/bag • Abs. up to 14.5 gal./barrier	\$206

Non-activated bags are flat and easy to handle.

Activated bags swell up to stop floodwater.

10-foot length can be cut to fit smaller applications.

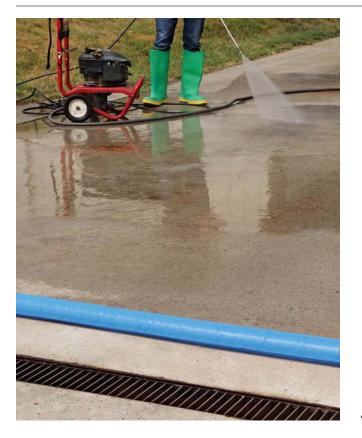

PIG SILICONE WATER BARRIER

Affordably block and divert small volumes of water with this lightweight barrier.

Low-profile water barrier has an adhesive bottom that adheres to smooth surfaces. Install it once, away from traffic zones, and leave it down for long-term protection against nuisance leaks of clean water. Flexible silicone can form tight curves and small diameter circles to surround almost anything — water heaters, air compressors, HVAC, boilers and more. Priced affordably so it can be discarded once it reaches end of useful life; not intended for multiple deployments.

IF YOU NEED THIS BARRIER, YOU PROBABLY NEED TO SOAK UP SOME WATER.
FIND WATER ABSORBENTS ON PAGES 62-64.

PIG® Silicone Water Barrier	pig
(Specify Color: White Yellow)	
Item #	1+
WTR040 • 0.5625"W x 10'L x 1.2"H • 1/box	\$36

PIG REUSABLE WATER-FILLED BARRIER

Contain liquids with this reusable water-filled barrier.

Place the lightweight empty barrier, fill with a hose and tighten the threaded cap. After use, just roll it up and store it away. Barrier is made of a heavy-duty industrial-hose PVC material.

Fill with a garden hose to create an instant barrier.

PIG® Reusable Water-Filled Barrier	Big

WTR041 • 3"W x 10'L • 2"H (when filled)	\$69

★▲ WARNING: Cancer, Birth Defects and Reproductive Harm - www.P65Warnings.ca.gov

PIG SILICONE WATER VACUUM BARRIER

Attach to your wet/dry vac to contain and capture water at the same time.

Cleaning up large volumes of water from routine washdowns and minor flooding just got easier! Place this barrier on the floor, attach to your wet/dry vac, then squeegee water toward it. Works with most standard wet/dry vacs — no special equipment needed. Directing water toward this 6' long barrier is easier than trying to guide it to a floor drain or pump, and it provides a backstop to prevent water from going where you don't want it to.

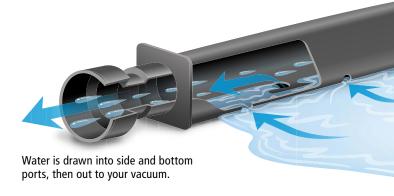

This barrier eliminates the hassle of priming a pump or having a pump motor fail from dry running. It's reusable and cleans easily with soap and water, so it's perfect for hospitals, schools, property management and much more.

Comes with a 2.5" hose adaptor to fit onto your wet/dry vac.

PIG® Silicone Water Vacuum Barrier	giq
Item #	1+
WTR052 • 4"W x 6'L x 2.25"H • 1/box	\$199

XPOWER MIGHTY AIR MOVER

Compact fan dries floors and reduces slip risks.

Wide coverage is ideal for drying carpets and mats in entrances and transition areas. Three speeds and four angled drying positions mean you can direct airflow where you need it to go. 1/5 HP induction motor draws only 2.0 Amps. Hi-viz yellow color stands out to prevent falls.

XPOWER Mighty Air Mover

MAXIROUGH TOOL ORGANIZER

Tool organizer grips handles yet releases them easily.

Wall-mountable unit holds four tools like mops, brooms, shovels and squeegees. Brackets slide along track and can be positioned to adjust space between tools. Aluminum and plastic frame won't rust or corrode. Holder is 20¼" wide with removable end caps that let you connect multiple units.

MaxiRough® Tool Organizer		
Item #	1-4	5+
CLN552 • 20.25"W	\$52	\$48

STAINLESS STEEL CLEANER

Clean, polish and protect stainless steel with no hard rubbing.

Oil-based, non-abrasive, lemon-scented cleaner leaves a protective coating that resists water marks and rusting. Equally effective on aluminum, chrome and brass. National Sanitation Foundation approved (C-1). Not for food-related surfaces; does not sanitize.

QuestSpecialty Stainless Steel Cleaner	
Item #	1+
CLN1200 • 14.5 oz. • 12/box	\$165

TRACTION PLUS FLOOR CLEANER & DEGREASER

Perfect for degreasing even saturated, porous floors.

Pre-treatment cleaner improves traction by degreasing slippery floors; great for use before applying adhesive-backed mats. Works incredibly well on heavily grease-soaked or even fully saturated porous floors; one of the most effective on the market! Ideal for commercial-grade porcelain tile, ceramic tile and quarry tile plus terrazzo, concrete and other low-gloss floors.

Traction Plus® High Traction Floor Cleaner and Degreaser		
Item #	1+	
CLN9000 • 4 - 1 gal. Container	\$125	
CLN9001 • 1 - 1 gal. Container	\$37	

FLOOR SWEEPING COMPOUND

A few handfuls controls loose dirt and dust during sweeping.

Economical floor sweep is ideal for heavy cleaning of oil-free surfaces. Red color is easy to see on industrial flooring, OSB and other common surfaces. Great for demanding sweeping on rough, oil-free surfaces. Available with grit (TLS369) for added cleaning power and traction.

Pallet Qty.	1-11	12+
36	\$34	\$32
24	\$52	\$47

TRAFFIC CONE AND TOPPER

Mark your hazards and danger zones with durable traffic cones.

Durable, long lasting and waterproof for use indoors or out. Fluorescent orange color signals warning and broad 15" base resists blowing over; "grippers" add traction. Flexible cone springs back to shape even if struck.

Tensacone Topper (PLS1204) fits on top of cones and houses 13'-long retractable webbing. Highly visible, temporary barrier is faster and easier to use than string, traffic tape or rigid barriers.

FOAM GUARDS

Add bumper protection where you need to limit bumps and bruises.

Dense foam softens blows to help protect workers, plus it guards equipment or facility from damage. Flexible material conforms to slightly irregular angles and surfaces while protective coating prevents abrasion. Self-adhesive backing attaches to any clean, dry indoor surface (PLS171 slides on and holds with friction).

PLS1324 and PLS1325 are softer and for lightduty uses. They cut easily with scissors.

BOLLARD COVERS

Get durable bollard protection in your choice of sizes.

Durable polyethylene shell slides over existing bollard for easy installation and neoprene tape provides a vacuum-tight fit. Cover holds 90% of its true color in constant sunlight for a period of five years; resists impact, chemicals and UV light. Smooth, rounded finish won't snag clothing or hold grime. Heavy-duty covers feature ¼"-thick walls; PLS195 is available in three colors. Economy covers have ½"-thick walls; available in yellow color only.

HOW TO MEASURE YOUR BOLLARD FOR A COVER:

- Measure exact bollard circumference with flat tape and divide by 3.14 for bollard diameter.
- 2. Find the most suitable bollard diameter range in the product information box.

NOTE: When purchasing multiple covers, measure each bollard to ensure that you are ordering the correct sizes.

EDGEHALT LADDER SAFETY GATE

Install this self-closing safety gate to prevent falls from ladders and elevated platforms.

The gate opens 180 degrees and the self-closing hinges with SlamProof technology provide a controlled, quiet close. Width is adjustable so it can be used in a range of openings. Tested to OSHA, ANSI and Canada COHS standards, and the springs are guaranteed for the life of the gate. PLS2011 is for indoor use; PLS2012 is indoor/outdoor.

Hinges are designed to close by themselves without slamming.

PIG SAFETY BANNERS

Communicate safety messages with eye-catching banners.

6 ft. vinyl banners weigh just 13 oz. which makes them easy to hang or mount, plus they're resistant to UV, water, abrasion and flames. They cost less than metal, plastic or self-sticking vinyl options, so they're perfect for factory floors, break rooms, cafeterias and any other location where messages need to be visible from a distance.

Pis SAFETY SIGNS

Alert employees and visitors to hazards, locations and equipment with signage that really stands out.

PIG Safety Signs feature bright, bold colors and easy-to-read OSHA-compliant designs. The legends are printed on the full width of the sign for maximum impact. We use UL Greenguard Gold Certified ink that meets rigorous chemical emission standards. The durability of these signs allows for placement indoors or outdoors.

Available in three compositions to suit your use and budget:

- Aluminum is pre-punched, long-lasting and offers resistance to UV rays, abrasion, chemicals and weather; 5–7 year lifespan
- Plastic is pre-punched and an economical choice for light-duty use;
 3-5 year lifespan
- Vinyl provides exceptional flexibility while high-gloss film resists weather and abrasion; 3–5 year lifespan

Call attention to spill kits and other safety equipment to help keep workers safe.

LEAK DIVERTERS

THE PROVEN **SOLUTION**

Be prepared with PIG Leak Diverters!

No workplace is immune to the threat of overhead water hazards. Sometimes they're weather-related problems such as a leaky roof. Other times, they're an operational problem such as ruptured pipes or equipment condensation.

The benefits to having PIG Leak Diverters on hand are

endless! They can help stop water intrusions before they happen, keep floors dry and safe, and prevent ruined equipment, inventory, lost production time and even possible injuries. Check out the opposite page to see what makes ours better than the competition!

The widest range of sizes, styles & options:

FOR ROOFS

PIG Roof Leak Diverters hang in problem spots to channel leaks to a drain or container.

See pages 338-344

FOR CEILINGS

PIG Ceiling Leak Diverters discreetly channel leaks until you can fix the source.

See pages 345-347

FOR PIPES

PIG Pipe Leak Diverters are designed to catch and divert leaks and condensation.

See pages 348-349

IN THIS SECTION: HIGH-REACH • UMBRELLA-STYLE • MAGNETIC • MORE!

HOW TO CHOOSE THE PERFECT LEAK DIVERTER

- Survey the spots where you're most likely to have a leak.
- Decide on the color: clear and translucent to check flow; hi-viz yellow stands out; gray blends in.

Consider
whether you
want to divert
the leak into
a drain or use a
portable collection
container.

Choose the diverter size and style that matches the leak area.

Choose the appropriate hanging straps and hose for your application.

Still not sure which diverter fits your needs?
Give us a call at 1-800-HOT-HOGS®!

Use with standard 3/4" hose (sold separately) for channeling water to drain or container

PIS LEAK DIVERTERS

Help protect your people, equipment and inventory from a roof leak.

PIG Leak Diverters hang easily in problem spots to catch roof leaks and channel them to a floor drain or container. They're great for quick response to avoid downtime and keep floors safe while you're waiting for repairs to be made. Nonpermeable tarp is strong and durable; it resists punctures, UV rays and mildew. It accepts a standard 3/4" hose connection to channel liquid. Choose a size and color, and don't forget to add your straps and hose!

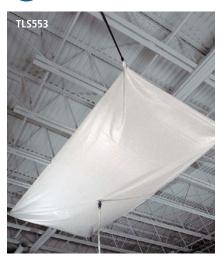

"I used the 5'x10' leak diverter to contain a roof leak (100 gallons a day with a moderate rainfall). I used the four corners, did not need to make any adjustments, and fully contained the leak. Very effective design!"

- John, TLS553 Customer

Order a PIG Leak Diverter system that fits your facility:

CHOOSE YOUR SIZE AND STYLE

Rectangular leak diverters are ideal for catching leaks and drips from long cracks or fissures. Choose a square diverter for general coverage of everyday leaks.

The 16"-wide trough-style diverter fits perfectly between ceiling joists, and the edges feature rods along the length for added stability.

PEB LEAK DIVERTER KITS

Be ready for roof leaks with all-in-one kits.

Prevent damage to inventory or machinery and avoid slip hazards with our portable all-in-one kits — they have everything you need for grab-and-go response! You can store and hang leak diverter kits in places where you need fast response to overhead leaks. The heavy-duty, vinyl-coated leak diverter resists punctures, UV and mildew so you can reuse it over and over, and the tapered sides help funnel liquid toward the center for better drainage. Kits include a flexible drain hose which channels leaks to a floor drain or collection container; 3/4" drain fitting accepts longer hoses if necessary.

"I operate a 50K sq. ft. warehouse that's in desperate need of a new roof. It's a new building to us, so we're discovering many areas that leak. This product actually saves my goods from getting ruined inside. It turns a big leak into a 5-gallon bucket."

— Adam, TLS121 Customer

PIG LARGE MOBILE LEAK DIVERTER KIT

Move the wheeled 30-gallon container to a draining area with minimal spill risk. Drainage valve lets you empty collected water into a drain; also accepts 3/4" garden hose.

TLS121

PIG LEAK DIVERTER BUCKET KITS

6.5-gallon bucket with "caution" message doubles as a collection container; features removable plug which allows hose to be inserted without removing lid.

PIG LEAK DIVERTER COMBINATION KIT

One kit includes two differently-sized diverters to keep you prepared for roof and pipe leaks.

PIG QUICK RESPONSE LEAK DIVERTER KIT

Choose straps for surfaces like pipes that can be wrapped around, or choose magnets for flat, metal surfaces.

PIG MAGNETIC ROOF LEAK DIVERTER

Quickly respond to leaks with a customizable fit.

Sewn-in magnets allow for easy, fast deployment anywhere that metal is present. Magnets provide a customized fit in areas where traditional leak diverter tarps may be difficult to hang. Heavy-duty, vinyl-coated tarp resists punctures, UV and mildew and lasts multiple deployments. Pinched corners create a funnel to channel liquids to a drain or collection container without overflowing or sagging. A hose is required (sold separately on page 339).

\$202

\$212

Magnets in each corner allow diverter to hold up to 50 lbs.

PIG SPRING-OPEN LEAK DIVERTER KIT

Uneven hanging points are no problem for this leak diverter and its rigid outer rim.

The coiled diverter springs open for easy installation. 60"L straps, hooks and clamps can be adjusted in seconds — just nudge the diverter until it's centered and leveled, even if the hanging points are uneven. The rigid outer rim adds structure so diverter keeps its shape and is easier to level. All diverter components are preattached for speedy setup; flexible 25'L PVC drainage hose (included) clicks into place with preinstalled quick-connect adapter.

- 1. Hang storage bag in places where you need fast response to leaks.
- 2. Rigid outer rim holds the diverter open for easy installation.
- 3. Hang diverter by the hooks, slide it along the straps to level then click the drainage hose into place.

PIG UMBRELLA-STYLE LEAK DIVERTER KIT

Pop open the fastest solution you can buy to catch a roof leak.

Hang the hook from a single point near the leak, pull off the cover and it opens like an umbrella. All-in-one kit is perfect for quick response to prevent damage to inventory or machinery and to avoid slip hazards.

Flexible 10'L PVC drain hose included with TLS461 or 25'L hose included with TLS903 channels leaks to a floor drain or collection container. 3/4" drain fitting accepts longer hoses. Nonpermeable tarp is vinyl coated for strength and durability; it resists punctures, UV and mildew to last multiple deployments. Tapered sides help funnel liquid toward center for better drainage. Three colors available: yellow draws attention; clear shows liquids and lets light pass through; translucent shows liquids and blends in with white ceilings.

PIG HIGH REACH LEAK DIVERTER KIT

Here's a solution when you can't hang a diverter from the ceiling.

Quickly route small leaks from high ceilings in hard to reach areas. Diverter captures drips from ceilings up to 15' high without risk of splash-out; use included mat pad to catch splashes from ceilings higher than 15'. Adjustable telescoping pole allows easy installation without the need for a ladder. Included pail has a removable plug to allow the drainage hose to be inserted without removing the lid.

^{*} WARNING: Cancer, Birth Defects and Reproductive Harm - www.P65Warnings.ca.gov

PIG CEILING TILE ABSORBENT PAD

Absorbent pad prevents drips from destroying ceiling tile.

Multi-layer absorbent pad rests on top of your ceiling tile to catch minor drips and leaks. Low-profile pad won't interfere with above-ceiling structures or cause tiles to sag and break. Poly backing prevents absorbed liquids from discoloring the ceiling tile.

A CLOSER LOOK PIG exclusive! Multiple layers of thermally-bonded, melt-blown polypropylene make PIG Mat the toughest mat on the market. Poly backing keeps liquid from passing through to ceiling tiles.

PIG ABOVE-THE-CEILING LEAK DIVERTER

Catch the leak and channel it away before it damages your tile.

Assembles in less than five minutes and remains completely out of view while it diverts ceiling leaks to a drain or collection container. Mounted on a lightweight, sturdy frame that sits on suspended 2' x 2' or 2' x 4' acoustical tile. Heavy-duty vinyl-coated tarp resists punctures, UV and mildew so it can be used over and over again. Captured liquid drains through a 1/4" port into the attached 25'L PVC hose; flow rate of one gallon per minute.

PIG PIPE LEAK DIVERTER

Don't rig another gizmo to catch a leak. Our pipe diverter works!

Hangs from a leaking pipe to catch nuisance leaks and channel them to a floor drain or collection container. Nonpermeable tarp is vinyl coated so it resists punctures, UV and mildew to last multiple deployments. Hose coupling accepts drainage hose (sold separately on page 339). Flow rate of 3.33 gpm when used with a 1/2" ID hose. Choose yellow for high visibility; gray to blend with ceilings; clear to monitor leaks.

- TLS691, TLS248 and TLS200 have built-in grommets and 14"L rubber straps for easy hanging from a pipe
- TLS190 is low-profile for a leak in a tight spot and has built-in grommets; straps sold separately on page 339
- TLS147 wraps around 3/4" to 4" pipes to capture and contain spray; hook-and-loop fasteners make installation quick

MAKE BROKEN PIPES LIKE NEW AGAIN WITH OUR PIPE WRAPS ON PAGE 305!

"Our field guys love the drain bags. They usually find a home in their trucks!

Easy setup and take-down, always easy to order and delivery is good.

I'd recommend to all who repair pipe leaks or backflows."

- Don, TLS691 Customer

STORAGE & MATERIAL HANDLING

EASY WAYS TO WORK. **NO GRUNTS ABOUT IT.**

Alexis H.

- Product

Manager

Products to help you store, dispense, handle and transport liquids.

For all the material handling applications at your facility, we've got cleaner, safer, better ways to help you do your work.

- PIG Latching Drum Lids and Burpless Funnels help you work clean and stay in compliance
- Drums & Containers come in all the sizes, styles and materials for your storage and shipping needs
- PIG Packaging Absorbents help you get your liquids and delicate goods safely from Point A to Point B
 - Drum Accessories like pumps, gauges, movers, lifters, carts and trucks make your drum work easier and safer
 - PIG Flammable Safety Cabinets can't be beat when it comes to quality and performance — 100% guaranteed!

The products in this section can help you with more than just good housekeeping and best practices. Check out the EPA and OSHA regs below to see how they can help you meet requirements and avoid the hassles of non-compliance.

PIG Flammable Storage Safety Cabinet

HELPS YOU COMPLY

40 CFR 264.1086(c)(1)(ii) Requires haz waste containers to be sealed to prevent VOC emissions

40 CFR 262.16(b)(2)(iii) and 40 CFR 262.17(a)(i)(iv) Require haz waste containers to be kept closed

29 CFR 1910.106(d)(3) Requires safety cabinets to meet approved standards for storing flammable materials

Using a funnel to meet regs? Your transfer station probably needs a pallet, too!

Once you've got a **PIG Burpless Drum Funnel** on top of your drum to satisfy closed container regulations, add a PIG Containment Pallet underneath for compliance with EPA secondary containment regulations. This topto-bottom setup keeps hazardous liquids in check — and keeps inspectors happy!

SEE SPILL PALLETS ON PAGES 439-442

IN THIS SECTION: LIDS • FUNNELS • DRUMS • PUMPS • CARTS • MORE!

PIG LATCHING DRUM LIDS

One-hand access makes it easy to meet hazardous waste regulations.

Did you know that if you take the lid off a drum storing haz waste and don't put it back on, you're violating the EPA's closed container regulations? PIG Latching Drum Lids make compliance a breeze. They open and close with one hand, freeing up your other hand to add waste. Nitrile gasket and locking mechanism seal lid to help reduce vapor emissions and keep contents dry and secure.

HELPS YOU COMPLY with regulations listed on page 350

Fast-latch ring makes installation easy on new or reconditioned steel drums.

Removable hinge pin lets you remove the lid without loosening the band.

Adjustable tension means the latching handle will close properly every time!

"Perfect solution to storing those oily rags and spill pads until the drum is full and ready to be hauled off. Makes complying with storage regulations a snap. (Literally!)"

- Rich, DRM1072 Customer

PIG LATCHING DRUM LID - FAST-LATCH RING

Fast-latch ring makes installation easy on a new or reconditioned drum; no clumsy nut-and-bolt ring. Adjustment rod lets ring expand to fit drums with larger diameters. Two lid sizes available for different sizes of drum, plus three color choices to help you segregate waste.

PIG VAPOR-CONTROL LATCHING LID

Small port minimizes exposure to harmful vapors.

Lid offers controlled, temporary containment of hazardous waste with high vapor emissions. 5" diameter easy-access port opens to accept waste while discouraging recovery of disposed items and limiting exposure to odor and vapors. Nitrile gasket and locking mechanism seal lid to help reduce vapor, odor and VOC.

HELPS YOU COMPLY with the regulations listed on page 350

DRM1033 Open the entire lid to dispose of larger items.

"We use these lids for solvent-covered rags. No more fighting rings and bolts just to add to or remove from the drum."

— Paul, DRM1033 Customer

PIG® Vapor-Control Latching Drum Lid		pig
(Specify Color: Black Red)		
Item #	1-2	3+
DRM1033 • For 55-gal. Open-head Steel Drums	\$833	\$790
DRM1034 • For 20- and 30-gal. Open-head Steel Drums	\$839	\$804

* WARNING: Cancer, Birth Defects and Reproductive Harm - www.P65Warnings.ca.gov

PIG LATCHING LID WITH FUSIBLE PLUGS

Turn a 55-gallon steel drum into a container for flammable materials.

Lids are designed specifically for NFPA 30 venting requirements. In a fire, the nylon plugs melt to vent pressure and prevent drum from bursting. Latching handle easily opens and closes with one hand. Ideal for safe storage of flammable or combustible solids. Nitrile gasket and locking mechanism seal lid to help reduce vapor emissions.

FM Approved plugs melt if there's a fire.

PIG OUTDOOR LATCHING LID

Get the only Latching Lid that stands up to the elements.

Outdoor drum lid is zinc-primed for extra protection against rust and corrosion. Fast-latch ring allows easy installation on new or reconditioned 55-gallon steel drums; no clumsy nut-and-bolt ring. 3"-wide polyethylene foam gasket and locking mechanism seal lid to reduce vapor emissions and protect contents.

HELPS YOU COMPLY with the regulations listed on page 350

Rainwater rolls right off without puddling.

THIS IS THE BEST LATCHING DRUM LID TO USE WITH RECONDITIONED DRUMS! THEY'RE SOLD ON PAGE 368.

PIG LATCHING BUCKET LID

Secure contents & meet regs with a Latching Lid for steel & poly buckets!

Latching mechanism and EVA gasket provide a tight seal to secure contents and reduce vapor emissions. Single latching hasp easily opens and closes and is padlockable to increase security. Fast-latch ring makes installation simple on steel or poly open-head 5-gallon pails with a 11.25" inside diameter; no clumsy nut-and-bolt ring to hassle with.

HELPS YOU COMPLY with the regulations listed on page 350

ষ্টি BURPLESS FUNNELS

Clean pouring, no splashback and a one-hand latch for easy compliance.

Patented Burpless design lets you pour without having to vent through 3/4" bung — a possible closed container reg violation if left open. Lockable latching handle opens and closes lid with one hand. Nitrile gasket and locking mechanism create a vapor-tight seal.

HELPS SMALL AND LARGE QUANTITY GENERATORS COMPLY with 40 CFR 262.16(b)(2)(iii) and 40 CFR 262.17(a)(1)(iv) requiring haz waste containers to be kept closed

HELPS YOU COMPLY with 40 CFR 262.15 for containers in satellite accumulation areas

HELPS YOU COMPLY with 40 CFR 264.1086(c)(1)(ii) for **VOC** emissions

HOW THE OVERFILL PREVENTER WORKS

(INCLUDED ON SELECT MODELS)

- 1. When liquid level reaches the bottom of preventer, funnel stops draining and starts to fill up, so you know when to stop pouring.
- 2. Air trapped between inside of drum and outside of tube stops liquid from rising.
- 3. To empty funnel, twist funnel and preventer counterclockwise and slowly lift to drain contents into remaining airspace.

Red

PIG ORIGINAL BURPLESS FUNNEL

Our original bestselling drum funnel is great for your everyday pouring needs.

PIG LARGE BURPLESS FUNNEL

Wide-mouth funnel has more volume for larger draining and pouring jobs — you can empty a 5-gallon pail in 17 seconds!

> Sturdy, coarse mesh screen (DRM1203) holds heavier containers and parts for draining.

PIG SMALL BURPLESS FUNNEL

5"-diameter fill mouth limits vapor, odor and VOC emissions.

PIG TALL BURPLESS FUNNEL

The extra height lets you drain tall containers inside funnel while keeping the lid closed, reducing vapor emissions.

Patent 5,676,185

OVERFILL PREVENTER

Pour with confidence.

Two-piece brass adapter acts as a shutoff valve, closing off a 55-gallon drum when it reaches 53½ gallons. Fits steel Burpless Funnels.

*▲ WARNING: Cancer, Birth Defects and Reproductive Harm - www.P65Warnings.ca.gov

Air trapped between inside of drum and outside of tube stops liquid from rising.

When liquid level reaches the bottom of preventer's outer tube, funnel stops draining and starts to fill up, so you know to stop pouring.

To empty funnel, twist funnel and preventer counterclockwise to drain contents into remaining airspace.

Interior ridges create a level surface for easy draining of buckets and other large containers.

Our fastest draining funnel, DRM166, has a superwide opening and 7-gal. capacity.

PIG BURPLESS POLY FUNNEL

Keeps on chugging without burps or splashbacks.

Burpless design vents during pouring for fast, smooth flow with no splashback. Designed for use with nonhazardous liquids: coolants, nonflammable oils and water-based liquids. 100% polyethylene construction resists UV rays, rust, corrosion and most chemicals, and the built-in debris strainer captures large particles. Threaded brass insert screws right into bung and vent tube prevents liquid from burping back. You have a choice of lid colors to help segregate waste, plus a range of funnel sizes for different drum types and thread types.

DRM1680 and DRM1681 feature a built-in overfill preventer to stop flow and avoid messes when drum is almost full.

NOTE: Does not meet closed container regulations.

PIG IBC TOTE FULL-TOP FUNNEL

Easy-reach funnel completely covers the top of your IBC.

Covers entire top of IBC and molded-in ridges prevent funnel from sliding off. Fits 275- and 330-gallon IBC totes with centered openings from 4" to 6". It's easier to use than standard funnels because it eliminates awkward reaching/leaning or keeping a step nearby. Level ridges run across a sloped surface for easy draining of containers, parts or filters while double-wall polyethylene construction resists UV rays, corrosion and most chemicals.

PIG® Poly IBC Tote Full-Top Funnel		pig
Item #	1-4	5+
IBC600 • Funnel • 40.7"W x 49.5"L x 5.5"H	\$270	\$257
IBC601 ● Filter Pads ● 8"W x 8"L x 0.5"H ● 10/pack	\$26	\$24

Flammables Warning: Not for use with flammables (f.p.<141°F/60.5°C).

Need to filter large debris from the liquid you're pouring? Just add our disposable filter pads (sold separately).

PIG POLY PAIL FUNNEL

Easily transfer fluids into pails using this mess-free funnel.

Funnel helps to transfer fluids into jugs, waste pails and more. Fits pails and tight-head buckets that have a diameter between 10-1/4" and 10-1/2". Holds one quart of liquid and has a removable plug. Durable, heavyweight polypropylene construction can be cleaned with water.

PIG® Poly Pail Funnel	Big
Item #	1+
DRM7000 • For 5 gal. Poly or Steel Buckets • Ext. Dia. 10.25"x 3"H	\$46
Flammables Warning: Not for use with flammables (f.p.<141°F/60.5°C).	·

Now you can easily pour into your IBCs without struggling to reach over the top of the container.

PIG POLY FUNNELS

Reduce splashback while safely pouring liquids.

Non-threaded funnels stay securely in place after installation and are easily removed. Molded-in nozzles easily fit 2" drum bung openings (DRM1406), 4–6" IBC openings (DRM1407) or 8" tank openings (DRM1408). Lightweight LLDPE resists chemicals and corrosion. Clamshell design directs the flow of liquid toward the container opening, reducing splashing and spilled liquid. Smooth surface allows for easy cleanup and black color hides grime. Hang on a wall for easy storage when they're not in use.

Flammables Warning: Not for use with flammables (f.p.<141°F/60.5°C).

Open-head design and removable lid offers full, convenient access.

Tough, UN Rated steel drums are made for liquid or solid hazardous materials, so you can rely on them to deliver safety and compliance. Removable lid offers full, convenient access to inside of drum and optional phenolic/epoxy lining adds corrosion resistance.

12-gauge bolt ring closure, sponge rubber gasket and plated bolt/nut (on all except DRM833-DRM837) provide tight seal to help prevent leaks and spills.

Quick-style lever lock rings (DRM833-DRM837) make it easy to comply with closure regs; no tools required and shippable "as is"— no need to switch closure rings as with other lever lock ring assemblies.

DRM970 and DRM1973 feature 2" NPT and 3/4" NPT bungs.

Quick-style lever lock rings make drum access quick and easy.

IF YOU DON'T REQUIRE A BRAND NEW DRUM, SEE PAGE 368 FOR RECONDITIONED DRUMS.

TIGHT-HEAD UN RATED STEEL DRUMS

Great choice for storing or shipping liquids.

Tough, UN Rated steel drums are made for liquid hazardous materials, so you can rely on them to deliver safety and compliance. Tight-head design is equipped with 2" NPT and 3/4" NPT bungs. Optional phenolic/epoxy lining adds corrosion resistance.

UN RATED COMPOSITE STEEL DRUM

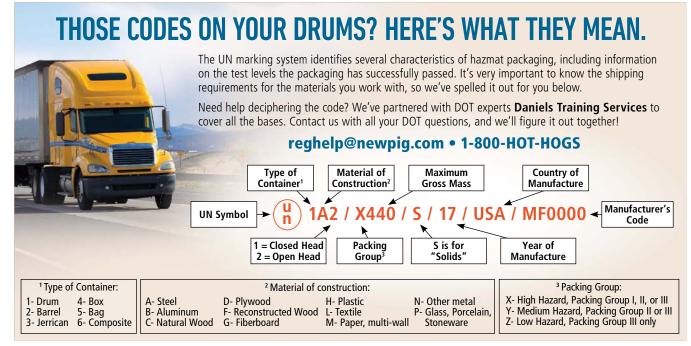

Polyethylene liner offers superior chemical compatibility.

Heavy-duty 60-mil polyethylene liner is compatible with a wide range of chemicals. Steel shell with rolling hoops offers reliable strength. UN Rated and tested to help ensure safe shipping of hazardous materials.

UN Rated Composite Steel Drum (DRM1061) has two 2" buttress bungs with EPDM gaskets.

RECONDITIONED STEEL DRUMS

Need steel drums, but don't need brand new? Rely on these reconditioned 55-gallon drums.

Whether you use drums for shipping or storage, these reconditioned 55-gallon steel drums will help you save money. They're cleaned, inspected, tested, quality assured and given a fresh coat of black paint. They're also quaranteed to meet or exceed the updated UN rating. You can get them with a phenolic/epoxy lining or unlined. Dimensions vary slightly, but volume capacity is consistent in all reconditioned drums.

Reconditioned Steel Drums							
(Specify: Lined	or Unlined; Add \$	11 to price shown for	r Lined)				
Item #	Drum Size (gal.)	Lid Type	Bung Size	Thickness	UN Rating	1-4	5+
RCN100	55	Tight-Head	(1) ¾" & (1) 2"	1.2/1.1/1.2	UN1A1/Y/1.2/100	\$104	\$93
RCN101	55	Open-Head	n/a	1.1/0.8/1.1	UN1A2/Y1.2/100	\$126	\$115
CRCN102	55	Open-Head	(1) 3/4" & (1) 2"	1.2/1.1/1.2	UN1A2/Y1.2/100	\$128	\$117

Reconditioned drums are not brand new so their appearance will vary. Each will have minor visible imperfections that do not affect performance, such as scratches, small dents, and variations in finish. These drums may also be downrated from their UN Rating when brand new (shown as a permanent embossment on the bottom). A durable mark (shown as either a stencil or label on the drum) is the current UN rating for the reconditioned drum.

Put a lid on it! DRM1111 (sold on page 355) is our best Latching Lid for use with reconditioned drums.

BRAND NEW DRUMS AVAILABLE ON PAGES 366-367.

TIGHT-HEAD POLY DRUMS

Rustproof containers meet UN specs.

Rigid, lightweight high-density polyethylene won't rust and is compatible with a wide range of chemicals. UN Rated for regulated packaging, including shipping hazardous materials by land, sea or rail, and made from FDA-Compliant resins for containment of food and cosmetic products. DRM1134 has 2" and 3/4" NPT bungs; DRM1135 and DRM1136 have 2" buttress and 2" NPT bungs.

OPEN-HEAD POLY DRUM

Store and ship solid waste in these UN Rated containers.

UN Rated for storage and transport of solid hazardous materials, and lever lock band can be wire sealed to prevent tampering. Rigid but lightweight polyethylene is compatible with many chemicals. DRM1147, DRM386 and DRM385 are made from FDA-Compliant resins for containment of food and cosmetic products. Straight-sided drums (DRM1059, DRM1060) have ribs for extra strength; allows broader use of drum grabs, parrot beak lifters and other equipment that can't move tapered drums.

TRANSLUCENT POLY DRUM

Check fluid levels at a glance.

Translucent walls and molded-in calibration marks eliminate guesswork to help prevent overfilling or running out of materials. Made from FDA-Compliant resins for containment of food and cosmetic products, plus UN Rated and tested to help ensure safe shipping of hazardous materials. DRM1138 and DRM1139 have 360° top drum chime which makes them easy to move with drum lifter or other drum handling device. DRM1137 has 2" NPS and 3/4" NPS bungs; DRM1138 has 2" buttress and 2" NPT bungs; DRM1139 has 2" buttress and 2" NPS with center reducer (3/4" NPS fitting).

DRM1137 • 15 gal. • UN1H1/Y1.8/100	\$96	\$91

UN RATED FIBER DRUM

Affordable container even has steel chimes and a lever-locking band.

Economical, lightweight fiber drum holds dry products like colorants or powders. Lever-locking band holds steel lid in place, and it can be wire sealed to deter tampering. The reinforced bottom adds strength. The drums are incinerable to minimize disposal cost when they've reached the end of their usable life.

UN Rated Fiber Drum with Lever Locking Band					
Item #	1-9	10+			
DRM384 • 55 gal. • UN1G/Y200/S	\$117	\$112

DRM1386 • 20 gal. • UN1G/Y120/S	\$84	\$81			

UN RATED SQUARE FIBER DRUM

Provide more efficient storage of dry or solid materials.

Single-wall construction is sturdy and long lasting, and rounded corners are less likely to get damaged. Telescoping, two-piece design allows compact storage, plus the flat top and bottom make stacking safer and more uniform. Drum contains no metal parts for rust-free storage and complete incineration at time of disposal. They're a cost-effective alternative to poly drums for storing dry or solid materials.

UN RATED ALL-FIBER DRUM

Incinerable drum can store or dispose of dry materials.

Drum is completely incinerable so there's no need to empty it to burn contents for waste reduction or fuels blending. Flat top and bottom make stacking simple and safe. Telescoping cover slips over top, so you can utilize entire inside capacity. Ideal for pelletized resins, colorants and other high-volume dry materials.

UN Rated All-Fiber Drum		
Item#	1-9	10+
DRM798 • 12 gal. • UN1G/X60/S	\$63	\$59

UN RATED STEEL SALVAGE DRUM

Safely ship a damaged or leaking container of hazardous materials.

UN Rated and tested to help ensure safe shipping of hazardous materials. Open-head design and removable lid offer full, convenient access. Interior is coated with a corrosion inhibitor; choose optional phenolic/epoxy lining for added resistance.

Quick-style drums (DRM842, DRM846) have quick-style lever lock rings and require no tools. That makes it easy to comply with closure regulations.

Bolt and ring drums (DRM400, DRM1000, DRM1001, DRM1002) provide a tight seal with plated bolt/nut, EPDM gasket.

HELPS YOU COMPLY with 49 CFR 173.3(c)(1)

Quick-style lever is easier and less time-consuming to use than traditional bolt-and-ring closures.

Ship hazardous waste in our UN Rated, FDA-Compliant containers.

X-rated for Packing Groups I, II, and III (except PAK998) so they're ideal for regulated packaging applications, including shipping hazardous materials by land, sea or rail. Polypropylene material with UV inhibitors is durable, lightweight and chemical resistant, and containers are nestable when empty to save storage space. They're designed and proven to keep hazardous materials safely contained during shipping. The leakproof, twist-on lid (except PAK998) is notched so you can easily tighten it with a 2x4 or pole. Integrated ledges allow you to move the overpack with a forklift. Made from FDA-Compliant resins for containment of food and cosmetic products.

HELPS YOU COMPLY with 49 CFR 173.3(c)(1) requiring salvage drums to meet UN specs for shipping

SPECIAL FEATURES:

- PAK998 has one-piece sealable lid with flip-up handle allowing for quick open/close
- PAK708 and PAK709 feature two broom holes on opposite sides of the lid which allows 100% positive leverage for easy open/close
- PAK489 and PAK710 have 6" polyolefin wheels and integrated handle for easy transportation to your shipping vehicle
- PAK674 is oversized for shipping distorted or bulging drums

DID YOU KNOW?

Spent spill response materials, including absorbents and PPE, may be placed in compatible UN Rated salvage drums for shipment. If the container is certified as both a salvage drum and an overpack and you're using it as a salvage drum, any references to the overpack must be removed prior to shipment.

Just pinch the lid to unlock — so much easier to open and close than pails with separate latches or locks.

Reseal buckets with an airtight lid.

Fast and easy assembly features snap ring and screw-on/off design. Lid fits most 3- and 5-gallon buckets, so it's ideal for loose absorbent storage, food storage, pet food and lawn and garden use. Manufactured from food-safe material.

Leaktite Screw Top Bucket Lid		
Item #	1-2	3+
DRM2500 • Use with 12" Dia. Plastic Bucket • 1 each	\$19. ⁵⁰	\$18. ⁵⁰

Easy-open/close, screw-top lid with easy-pour spout is tamper-evident and child-resistant.

LIFE LATCH POLY PAIL WITH SPOUT

Built-in features for easier access and pouring.

Screw top lid features tamper-evident, child-resistant closing mechanism and a spout for easy pouring. Made from FDA-Compliant resins for containment of food and cosmetic products. Built-in locking mechanism allows you to close lid securely.

TIGHT-HEAD UN RATED POLY PAILS

Store and ship almost any liquid in our selection of easy-to-carry pails.

One-piece, blow-molded construction has no seams to hold residue or develop leaks. High-density polyethylene is compatible with a wide variety of liquids for safe storage and shipping. Reike screw cap on DRM1892 and DRM892 features a 70mm bung opening for venting (other models have standard 2-1/4" screw cap). DRM1892 and DRM282 have translucent walls that show content levels to help prevent overfilling or running out of material. DRM892 and DRM524 have opaque walls that block light to protect contents. DRM282 is made from FDA-Compliant resins for containment of food and cosmetic products.

PACKRIGHT UN RATED CARTON

UN Rated 4G packaging is designed for transporting hazardous material.

Combination packaging includes metal can(s) or plastic bottle inside a double-walled cardboard shipping carton. UN rated for Packing Groups II and III which is ideal for storing and shipping hazardous materials.

NOTE: Cans and bottles alone are not UN rated. Once inside 4G outer carton, the combination becomes UN rated.

UN RATED CARTON W/TIGHT-HEAD POLY PAIL

Combo packaging for hazardous materials shipping.

Includes 5-gallon HDPE pail inside a heavy-duty cardboard shipping carton. UN Rated for Packing Groups II and III; ideal for storing and shipping hazardous and nonhazardous liquids. Made from FDA-Compliant resins for containment of food and cosmetic products. In-line spout on pail allows complete draining with a ³/₄" faucet (not included; see DRM346 on page 394).

PIG DOUBLE-WALL CHEMICAL STORAGE TANKS

Dual containment tank helps you meet secondary containment regs.

Double-wall tank provides bulk storage and secondary containment so there's no need for a separate sump or basin. Enclosed design keeps out dust, rainwater and other contaminants to maintain purity of stored liquids. Molded-in pump mounting platform on top of tank provides a flat surface for safer use of tank accessories up to 240 lbs. 8" vented lid is threaded for easy access to contents (PAK5200 and PAK5201 have a 4" non-vented lid).

Linear low-density polyethylene with UV inhibitors offers excellent resistance to corrosion, chemicals and UV rays. 1.5 specific gravity rating is ideal for storing chemicals, and a full tank can stand alone without external supports. Made from FDA-Compliant resins for containment of food and cosmetic products. Choose round or square shape; square tanks are space efficient.

HELPS YOU COMPLY with 40 CFR 112.7 SPCC Regulations

PIG CHEMICAL STORAGE TANKS

Use these tanks for a wide range of chemical process applications.

Open-top tanks (PAK5100—PAK5106) with lift-off lid are great for use as a mixing tank, batch tank or solution tank. They're a perfect day tank for food production and other applications.

Closed-top tanks (PAK5107—PAK5117) with 8" vented lid keep out dust, rainwater and other contaminants. Molded-in pump mounting platform holds up to 225 lbs.

Calibration chart in gallons and liters is molded into sidewall for easy level indication at a glance. Polyethylene construction with UV inhibitors provides chemical resistance and structural integrity. Made from FDA-Compliant resins for food and cosmetics.

PIG TANK SPILL CONTAINMENT SUMP WITH GRATE

Provide secondary containment for single-wall tanks.

Sump is designed to work with the single-wall tanks sold above for affordable secondary containment. Create a compliant sump/tank setup to keep leaks, spills and splashes off of floors. Polyethylene construction with UV inhibitors resists corrosion and most chemicals for a long, trouble-free life, even in harsh environments. Seven sizes are available for tanks from 25–150 gallons.

HELPS YOU COMPLY with 40 CFR 112.7 SPCC Regulations

Flammables Warning: Not for use with flammables (f.p. <141° F/60.5° C).

Corrosion-resistant fiberglass grating (included) elevates stored tanks above accumulated liquids.

NON-UN RATED BULK BAGS

Fill this strong, flexible IBC with nonhazardous solids.

Store and transport loose, nonhazardous solids such as parts, sand, soil and more. Perfect for construction, debris cleanup and disposal projects. They resist UV rays and moisture, plus they're more cost-effective than drums, pails and many other containers. Featuring four 10" corner straps that can be forklifted (with proper attachment) and a side pouch for labeling contents. Duffel Top models have a drawstring closure.

POLY IBC TOTE

Replace multiple drums with just one tote.

Blow-molded HDPE tank is chemical resistant and specially shaped to completely discharge contents. Made from FDA Compliant resins for containment of food and cosmetic products (must be cleaned prior to use). Square tube steel frame provides a rust-resistant barrier. Composite pallet is stronger than wood and lighter than steel, offers four-way forklift entry and can be stacked four high. 2" butterfly valve with outlet nozzle for controlled dispensing.

ROTARY HAND DRUM PUMPS

Whatever liquid you need to move, we've got a compatible pump!

Manual pumps are rotary operated for fast, easy dispensing. No power source required — ideal for applications where you don't have access to electricity or compressed air. Lightweight designs can be broken down for compact storage or disassembled for easy cleaning. Use with any 15- to 55-gallon drum with 2" NPT bungs.

WESCO IRON ROTARY DRUM PUMP WITH DRIP PAN

Drip pan helps to eliminate spills due to overpumping or draining at the nozzle.

ZEE LINE RYTON ROTARY PUMP — VITON SEALS

Corrosion-resistant plastic body is great for dispensing corrosive chemicals and non-flammable solvents.

ZEE LINE HDPE ROTARY PUMP VITON SEALS

Capable of pumping in reverse using discharge hose (not included) for transferring fluids into drums. Built-in strainer filters out particulate to help avoid contamination.

ZEE LINE ALUMINUM ROTARY PUMP — NBR SEALS

High-flow pump includes 54" polypropylene discharge hose. Gear-driven design provides fast, smooth operation to pump a full quart of liquid per stroke.

ZEE LINE STAINLESS STEEL ROTARY PUMP — PTFE SEALS

PTFE tape (included) provides an excellent seal between pickup tube sections.

Notice: Call Technical Services at 1-800-HOT-HOGS (468-4647) or visit newpig.com for chemical compatibility.

LEVER ACTION DRUM PUMPS

More hand-powered options to satisfy your liquid dispensing needs.

Lever action pumps deliver fast and easy dispensing. No power source is required which is ideal for applications where you don't have access to electricity or compressed air. Lightweight designs can be broken down for compact storage or disassembled for easy cleaning, and each pump includes an adjustable suction tube to fit a variety of drum volumes. Use with 15- to 55-gallon drums with 2" NPT bungs (DRM106, DRM107 and DRM108 also fit 11/4" bungs).

DRM694 works with 6½-gallon open-head pails.

DRM461, DRM694, DRM106—DRM108 feature three handle pin locations for adjustable flow rates per stroke (closest position to piston rod produces lower rates; farthest position produces higher rates).

PUMPS GOT YOU STUMPED? CALL OUR TECH TEAM AT 1-800-HOT-HOGS.

Aluminum Lever Action Drum Pump with Drip Pan catches stray liquids and channels them back into your drum.

ACTION PUMP DOUBLE DIAPHRAGM PUMP

Rapidly transfer fuels and other flammable liquids. Features a locking latch for security. Inlet is fitted with mesh screen to prevent contaminants from entering pump.

ACTION PUMP STAINLESS STEEL DRUM PUMP

Move high viscosity liquids including detergents, acids and oils. Built to handle liquids up to 140°F.

ACTION PUMP
ALUMINUM DRUM
PUMP WITH DRIP PAN

Attached drip pan catches stray liquids and channels them back into drum. High-angle discharge spout is ideal for filling bottles.

ZEE LINE STEEL DRUM PUMP -NITRILE SEALS

Durable all-steel body for light oil (max 40 wt.), ATF, hydraulic fluid, kerosene and diesel fuel.

Spout turns up to stop drips.

PISTON HAND PUMPS

Affordable solutions for easy dispensing of any liquids you work with.

Piston action pumps deliver fast and easy dispensing. No power source is required which is ideal for applications where you don't have access to electricity or compressed air. T-handle design offers easy operation. Use with 15- to 55-gallon drums with 2" NPT bungs (all models except DRM3435 which is for use with 5-gallon pails).

Choose from four pumps that are safe for flammables:

DRM343 and DRM3435 feature an earthing stud for proper grounding (wires not included) and safer dispensing of flammable liquids like alcohol and alcohol-based sanitizers.

DRM1092 and DRM1109 have built-in bonding and grounding wires that are always visible to encourage use.

STAY SAFE WHILE OPERATING PUMPS! FIND PPE ON PAGES 198-241.

The Ayling & Reichert Stainless Steel Piston Hand Drum Pump is a great solution for moving flammable and combustible liquids.

ACTION PUMP STAINLESS STEEL **DRUM PUMP**

Stainless steel and PTFE construction is compatible with gas, diesel fuel, kerosene, diesel exhaust fluid (DEF), light oils and water-based fluids of 40 wt. max viscosity.

ACTION PUMP STAINLESS STEEL **PISTON PAIL PUMP**

Quickly dispense gas, diesel fuel, kerosene. diesel exhaust fluid (DEF), light oils and water-based fluids of 40 wt. maximum viscosity. Fits 5 gal. pails with 2" NPT or 2" buttress bung.

BECKSON INDUSTRIAL PVC PISTON DRUM PUMP — **VITON SEALS**

Economical choice for acids; compatible with up to 50% sulfuric acid. Moves up to one full gallon in just six strokes. 3'L discharge hose included.

AYLING & REICHERT STAINLESS STEEL **PISTON HAND DRUM PUMP**

Entire pump resists corrosive chemicals. FM Approved with built-in bonding and grounding wires to control static electricity. Internal flame arrestor helps prevent flashback.

AYLING & REICHERT STEEL PISTON HAND DRUM PUMP

FM Approved with built-in bonding and grounding wires to control static electricity. Internal flame arrestor helps prevent flashback.

BECKSON INDUSTRIAL PVC PISTON DRUM PUMP — **BUNA-N SEALS**

Economical choice for oil-based liquids; moves up to one full gallon in just six strokes. Includes 3'L discharge hose.

DRM222

ZEE LINE NYLON PISTON HAND DRUM PUMP

Easily handle small water-based dispensing jobs with 16 oz. per stroke/lift.

ZEE LINE POLY PISTON HAND DRUM PUMP — VITON SEALS

Polypropylene construction is compatible with antifreeze, chemicals and detergents. Spout rotates up to prevent messy drips.

HEAVY-DUTY SIPHON PUMP

Siphons up to seven gallons per minute from 55-gallon drums.

This pump is compatible with light oils, diluted acids/caustics and disinfectants. It moves up to seven gallons of liquid per minute, and the maximum recommended viscosity equals 30–40 wt.

	Action Pump Polyethylene Heavy-Duty Siphon Drum Pump		
	Item #	1-6	7+
- 10	DRM344 • For Oil-Based Liquids & General-Purpose Chemicals 7 gal./Minute • Fits 15- to 55-gal. Drum w/ 2" NPT Bung	\$44	\$41

FDA COMPLIANT PISTON PUMP

Food-grade pumps dispense viscous liquids and harsh chemicals. Four sizes fit pails to IBCs!

FDA compliant pumps are made from polypropylene with polyethylene wetted materials. Ideal for dispensing olive oils, syrups and honey; also compatible with a wide range of chemicals including sanitizers, acids, bases, glycerine, chlorines, crop chemicals and liquid fertilizer. Manual pump is more affordable than electric or air-powered pumps and can be used when power supplies are unavailable. Handles liquids up to 140°F at a maximum viscosity of 8,800 cP.

Action Pump FDA-Compliant Piston Pump	
Item #	1+
DRM1315 • For Food Products, Lubricants, Oils, High Viscosity Fluids, Mild Acids 5 oz./Stroke • Fits 5-gal. Pail w/ 70mm Rieke Screw Cap	\$112

LUTZ PUMP SYSTEM

Take control of outflow with this variable speed motor.

Lutz Electric Drum Pump Motor (DRM767) has a variable speed 0.85 HP electric pump motor that lets you easily control output flow. Openflow, drip-proof motor is ventilated and cooled by air. Pickup Tube (DRM768) is made of polypropylene so it's compatible with a wide range of light-viscosity, oil-based liquids.

DUAL-FORCE VAC PUMP

Air-operated vac sucks liquids into a drum or pumps out for reclamation.

Dual-mode design will either pump or vacuum. Quiet, air-powered pump has no motor to burn out and requires virtually no maintenance. Automatic safety shutoff valve prevents overflows and fast-turn switch allows you to change from fill mode to empty mode in seconds. Installs on a 55-gallon tight-head steel drum in less than one minute (requires drum with UN Rating of at least 1A1/X1.8/300; sold on page 367). Pumps up to 33 gpm of oils, coolants and non-flammable solvents.

Vortec Air-Operated Dual-Force Vac Pump	
Item#	1+
DRM903 • For Oils, Coolants and Non-Flammable Solvents • Air: 50 PSI at 15 SCFM (Min.), 100 PSI at 23 SCFM (Max.)	\$1233

DRUM WEDGE

Pump every last ounce out of your drums.

Easy-to-use wedge props up 30- and 55-gallon drums and moves liquid to one side for easy pumping. Made of durable, nonsparking 100% recycled polyethylene. Reduces waste and ideal for use with expensive process chemicals.

Drum Wedge				
Item #	1-9	10+		
DRM299 • 9.625"W x 12"L x 5.625"H	\$30	\$28		

FTI POWERED PUMP SYSTEMS

Everything you need for easy, continuous dispensing across all liquids.

These systems include all components needed to pump liquids from your drum or IBC, including pump motor, pump tube, dispensing hose and drum/IBC adapter. Choose from electric, air and battery-powered pump motors. Air units also include filter/lubricator. Battery systems also include charger and wall mount bracket. Various models available to fit on 55-gallon steel or plastic drums, or 275- or 330-gallon IBC totes. Detailed specifications available at newpig.com.

TTS SERIES PUMP SYSTEM (FLAMMABLES)

For transfer of corrosives, solvents and flammable liquids. Pickup tubes are made from stainless steel and Teflon. Static hose protection kit helps to properly ground motor and eliminate static-generated sparking.

NOTE: Includes power cord; plug must be installed to match receptacle in use.

TTS SERIES PUMP SYSTEM (NON-FLAMMABLES)

For transfer of shear-sensitive liquids or oils. Pickup tubes are made from stainless steel and Teflon to withstand corrosives and non-flammable solvents. Includes 5'L PVC discharge hose.

PF SERIES PUMP SYSTEM

Rated continuous-duty for light to medium viscosities. Sealless polypropylene pickup tubes (DRM8007, IBC8010, IBC8011) are ideal for acids, caustics and other chemicals. Stainless steel pickup tubes (DRM8008, IBC8012, IBC8013) are great for non-flammable solvents and mild corrosives. Includes 5'L PVC discharge hose.

LIGHT-DUTY PUMP SYSTEM

Lightweight system is perfect for intermittent transfers of various liquids (see ordering information below). 0.33 HP electric motor at 10 gpm has dual speed toggle switch for better flow control. Includes 5'L PVC discharge hose.

♠ Best-Seller

POLY DRUM FAUCET

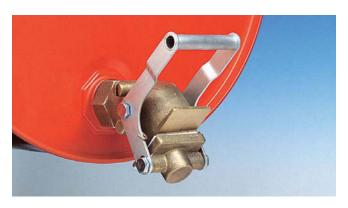

Chemical-resistant and disposable.

Inexpensive faucet can be discarded after dispensing liquids that may harden or gel on the faucet over time. It's an economical alternative to steel faucets to help ensure chemical compatibility. DRM346 ideal for nonviscous oils, coolants and fixatives; DRM347 ideal for adhesives, resins and fixatives.

DRM346

Polyethylene Drum Faucet	
Item #	1+
DRM347 • For Viscous, Non-Corrosive Liquids • 2" NPT Bung • Not Adjustable	\$23
DRM346 • For Non-Viscous, Non-Corrosive Liquids • 0.75" NPT Bung Not Adjustable	\$12

BRASS GATE VALVE

Easily dispenses viscous liquids heavier than SAE 30.

Drains thick resins, lubes and other noncorrosive liquids from 55-gallon drums. It's able to dispense noncorrosive liquids up to SAE 30, and solid cast brass construction is strong and chemical resistant. FM Approved for dispensing flammables.

Brass Gate Drum Valve	
Item #	1+
DRM217 • For Non-Corrosive High Viscosity Fluids • 2" NPT Bung Not Adjustable	\$339

ADJUSTABLE STAINLESS STEEL DRUM FAUCET

Ideal for dispensing flammable liquids.

Stainless steel adds chemical resistance and long service life. Faucet adjusts to desired pouring angle without remounting, and PTFE seals offer secure, leak-free operation with a wide range of liquids. FM Approved faucet features a built-in flame arrestor to help prevent ignition.

Adjustable Stainless Steel Drum Faucet		
Item #	1+	
DRM489 • For Flammable & Corrosive Liquids 0.75" NPT Bung • Adjustable	\$292	

BRASS DRUM FAUCET

Flame arrestor helps prevent ignition.

FM Approved faucet features a built-in flame arrestor to help prevent ignition. Self-closing with a PTFE seal to help prevent spills. Lockable to prevent unauthorized access. Available in standard design (DRM244) or adjustable (DRM244-01).

Brass Safety Drum Faucet	
Item #	1+
DRM244 • For Non-Viscous, Non-Corrosive, Flammable Liquids • 0.75" NPT Bung	\$97
DRM244-01 • For Non-Viscous, Non-Corrosive, Flammable Liquids • 0.75" NPT Bung • Adjustable	\$114

ZINC DRUM FAUCET W/GAUGE

See exactly what's left in your drum.

Chrome-plated steel drum gauge with visible fluid level gives quick reading for horizontal drum. Zinc faucet is FM Approved for use with flammable liquids. For non-viscous oils and chemicals except chlorinated solvents or concentrated acids or bases.

Zinc Drum Faucet with Gauge		
Item #	1+	
DRM205 • For 55-gal. Horizontal Drums w/ 0.75" NPT Bung	\$208	

NON-METALLIC DRUM VENT

Relieves pressure and vacuum for easy dispensing.

Automatically relieves vacuum and drum pressure buildup at 5 psi, vents drum without compromising closed container status, and flame arrestor extinguishes flames and sparks. Choose DRM322 for petroleum-based liquids; DRM323 for chlorinated solvents.

	$\overline{}$
Non-Metallic Drum Vent	STRITE'
Item #	1+
DRM322 • For 55-gal. Vertical Drums w/2" NPT Bung For Petroleum Based Liquids	\$90
DRM323 • For 55-gal. Vertical Drums w/2" NPT Bung • For Chlorinated Solvents	\$133

SAFETY DRUM VENT

Relieves dangerous pressure in vertical or horizontal drums.

DRM415 automatically relieves vacuum and pressure at 5 psi. DRM201 automatically relieves pressure at 5 psi; vent manually to relieve vacuum. Solid cast brass construction.

Safety Drum Vent	
Item #	1+
DRM415 • For 55-gal. Vertical Drums w/2" NPT Bung	\$154
DRM201 • For 55-gal. Horizontal Drums w/2" NPT Bung	\$122

* WARNING: Cancer, Birth Defects and Reproductive Harm - www.P65Warnings.ca.gov

DRUM LOCK

Put your steel drum on lockdown.

Protect steel drum contents from cross contamination, theft or sabotage. Set includes a 2" and 3/4" drum lock for bungs on 15–110-gallon steel drums. Hinged, one-piece design is made of non-sparking zinc alloy. Electrophoretic lock coating is corrosion-proof and made to last a lifetime.

Drum Lock		
Item #	1	2+
DRM1340 • For Steel Drums with 0.75" and 2" Bungs	\$83	\$80

TAMPER-EVIDENT CAPSEAL

Protect materials with one-time use seals.

Attaches over 2" bung on most tight-head poly drums. Tear tab design makes it obvious if seal has been removed. Can only be removed with pliers.

Installs easily with a rubber mallet.

Right-Seal™ Tamper-Evident Capseal		
Item #	1+	
DRM1342 • For Poly Drums w/ 2" Bungs 10/bag	\$7.25	

55-GALLON STEEL DRUM HEATER

Warm thick liquids for easier handling.

Clamps onto a 55-gallon steel drum to gradually warm liquids for easier pumping and dispensing. Thermostat-controlled band can be adjusted up to 550° to accommodate liquids of varying temperatures. Powered by a standard 120V outlet. 31/4"H heating band fits drums up to 221/2" in diameter.

55-Gallon Steel Drum Heater	
Item #	1+
DRM1004	\$358

NOTE: Not for use with flammable or hazardous liquids.

POP-UP DRUM GAUGE

Economical gauge signals when drum is nearly full.

Durable gauge helps prevent overfilling by popping up when drum is near capacity. Corrosion-resistant polyethylene withstands most liquids, and highly visible red and yellow colors offer easy indication. Available in an extra-long 11" model (DRM317) to give an even earlier warning that your drum is nearly full.

Pop-Up Drum Gauge		
Item #	1-3	4+
DRM317 • For 30- and 55-gal. Vertical Drums w/0.75" NPT Bung 11" Float Indicator Depth	\$35	\$34
DRM245 • For 30- and 55-gal. Vertical Drums w/0.75" NPT Bung 5" Float Indicator Depth	\$34	\$33

Flammables Warning: Not for use with flammables (f.p.<141°F/60.5°C).

DRUM LID TOOL

Open, remove, close or seal drum lids using this multi-tool.

Features slotted end for easy closing of drum ring lever lock, hook for breaking open lid seal, built-in wrench end for removal or tightening of ring bolt and nut, and long handle for better leverage and ease of use.

Vestil™ Drum Lid Tool	
Item #	1+
DRM1180	\$47

DRUM GAUGES

Check levels across a wide range of liquids.

Avoid overflows and downtime by quickly checking a drum's liquid level. No guessing or messy dipsticks are involved. The high-contrast, transparent design is easy to read, even in low light. Simple mechanical design helps minimize upkeep, and indicator tube shows high and low barrel levels in gallons, liters and volume percentage. Designed for use with vertical drums.

Drum Gauges

PIG DRAINING DRUM SCREEN

Fits inside a 55-gallon drum for easy draining.

Steel screen allows drum to be closed with a latching lid or covered with a funnel with screen in place. It holds up to 40 lbs. to drain filters, buckets and more. The mesh filters out debris but lets liquid pass through.

PIG® Draining Drum Screen		Biq
Item #	1-4	5+
DRM135 • For 55-gal. Open-head Steel Drums • 0.125" Dia. Mesh Opening	\$167	\$159

PIG DRUM PLUG SOCKET AND WRENCH

Tighten bungs to the proper specs.

Exclusive Drum Plug Torque Socket (DRM818) fits any 3/8" torque wrench; tightens most 2" and 3/4" poly/steel plugs including Tri-Sure and Rieke®. 3/8-drive torque wrench (DRM1819) clicks when desired torque value is reached to help meet DOT regs.

PIG® Drum Plug Torque Socket		Big
Item #	1-3	4+
DRM818 • Zinc-plated Steel	\$82	\$64
Drum Torque Wrench		
Item #		1+
DRM1819 • Measures 15–80 ft./lbs. in Increments of 5 ft./lbs.		\$60

*▲ WARNING: Cancer, Birth Defects and Reproductive Harm - www.P65Warnings.ca.gov

DRUM PLUG WRENCHES

Keep this tool handy to open almost any bung, faucet or ring.

Available in durable zinc-plated steel or nonsparking bronze alloy. Deluxe wrench (DRM1019, DRM1020) features an elongated handle for extra leverage and knuckle protection. Multipurpose wrench (DRM1017, DRM1018) features an angled handle to protect knuckles from scraping on drum during use.

Deluxe Drum Plug Wrench				
Item #	1-3	4+		
DRM1019 • Polished Zinc Cast Steel • 2"W x 12"L	\$87	\$81		
DRM1020 • Non-Sparking Bronze Alloy • 2"W x 12"L	\$137	\$130		
Multi-Purpose Drum Plug Wrench				
Item #	1-3	4+		
DRM1017 • Polished Zinc Cast Steel • 5"W x 13"L	\$107	\$99		
DRM1018 • Non-Sparking Bronze Alloy • 5"W x 13"L	\$206	\$192		

NON-SPARKING TOOL KIT

The most common tools for flammables.

Aluminum bronze tool set is non-sparking and non-magnetic. Helps you comply with 29 CFR 1910.120 (j)(2)(v) requiring hand tools appropriate for flammable atmospheres.

Non-Sparking Tool Kit	t AMPCO	
Item #	1+	
GEN310 • 9.5"W x 16"L x 9.5"H	\$1642	

Notice: Call Technical Services at 1-800-HOT-HOGS (468-4647) or visit our website at newpig.com for kit contents.

NO-SPARK DRUM PLUG WRENCH

Safer for hands.

Durable, non-sparking aluminum is safe around flammables. Fits most round-and hexstyle drum plugs (not compatible with 3/4" Rieke® plugs). Offset handle design reduces user stress and prevents knuckle scraping.

Non-Sparking Drum Plug Wrench			
Item #	1-3	4+	
DRM1058 • 10.5"L • For Most Round- & Hex-style Drum Plugs (Not Compatible w/ 0.75" Rieke Plugs)	\$35	\$32	

DRUM PLUG WRENCH

Cast iron plug wrench is built to last.

An inexpensive way to open and close most domestic steel and plastic drum plugs that features a durable cast iron construction and zinc-plated finish. 12" handle with offset allows two-handed use for stubborn bungs.

Drum Plug Wrench			
Item #	1-2	3-5	6+
DRM315 • 2.5"W x 12"L	\$49	\$47	\$41

Straight-Sided Inserts

Thick 15-mil construction is durable for mixing, pumping and when using follower plates. (See ordering information below)

Anti-Stat Insert and Liners

Specially treated to dissipate static charges; an extra safety measure when you're handling flammable products. Color-coded pink for easy identification. (DRM1900-DRM1903)

Round-Bottom Liners

Thinner design (4-mil to 10-mil) is more baglike with a full rounded bottom that won't trap liquids. (See ordering information at right)

Chemical-Resistant Liner

Multi-layered nylon/poly film resists chemicals. paints, non-flammable solvents and hot liquid fills that break down standard liners.

DRM143

DRUM AND BUCKET LINERS

Reuse your containers and save money.

Drum and bucket liners have an abundance of benefits and features, including:

- Reducing the costs and time associated with cleaning, reconditioning and disposing of used drums and pails
- Eliminating container residues that could make you liable for future contamination
- · Protecting drum contents and extending the life of the drum
- Made from FDA Compliant resins for containment of food and cosmetic products
- Three top styles: snap-over rolls over the rim of open-head drums and covers the lip; peel-over slides over the side of the drum, about 5" past the lip; tie-off can be lifted and tied like standard trash bags

"The liners are durable and up to the task. We've used them for years in a heavy industrial setting and never had one rip or tear."

- John, GEN308 Customer

DUST CAP COVERS

Elasticized cap blocks moisture, dirt and contamination.

Prevent dirt and moisture from entering containers to keep contents pure. Clear, 4-mil polyethylene meets FDA requirements and makes inspecting contents easy. Elastic around the bottom of cap helps to keep it in place. Recommended for indoor use.

DRM9149

Dust Cap Covers					
Item #	Use with	Units	1+		
DRM9151	275-gal. or 330-gal. IBC tote	25/box	\$185		
PKG033	Gaylord boxes	25/box	\$185

PIG PALLET COVERS AND TOP SHEETS

Ship pallets of materials cleanly.

Apply these plastic pallet covers before you stretch wrap to help protect against dirt, dust, moisture and more. They're ideal for the entire pallet journey from storage to loading docks to transit, and can also be used as Gaylord liners. Covers come perforated on a roll for easy use, plus they can be reused and recycled.

HAND TRUCKS

Work smart with these simple solutions that let you safely transport, drain or dispense from drums and pails.

- DLY303, DRM250, DRM464 and DRM997 have a built-in kickstand that secures drum truck when not in motion
- DRM250 and DRM211 are specially designed for use with poly or fiber drums; wide feet and security belt help prevent gouges and punctures
- MTL1776 is for 5-gallon steel or poly pails
- Wheel options: shock-absorbing Moldon rubber wheels for rough or outdoor surfaces; polyurethane wheels are made to handle rough indoor surfaces; chemical-resistant polyolefin wheels are for hard, smooth indoor surfaces; pneumatic tires offer a smooth, cushioned ride over any surface

WESCO POLY DRUM TRUCK

Specially formed nose pads help you transport poly drums and overpacks without damage.

WESCO DRAINING DRUM TRUCK

Add a spigot and this truck doubles as a dispensing cradle. Rear wheels help you maneuver stand when it's in draining position.

WESCO ECONOMY DRUM TRUCK

WESCO ALUMINUM DRUM TRUCK

Corrosion-resistant aluminum is lightweight and safe for use with flammable liquids. DRM1079 includes a handle brake for extra stopping power.

VALLEY CRAFT ALUMINUM TRUCK

Aluminum frame is spark resistant and lightweight for easy handling. DRM1166 has a hand brake for added control and safety.

AKRO-MILS PAIL TRUCK

Conveniently transport full 5-gallon pails made of steel or plastic.

DRM662

Hi-viz green dolly is easy to see!

PIG DISPENSING DRUM DOLLY

Do-it-all dolly transports, dispenses and provides containment.

Versatile unit transports drums up to 55 gallons, tilts for dispensing and provides secondary containment. Closed sump lets you move unit without contained liquids splashing out. Rugged polyethylene with UV inhibitors for indoor and outdoor use. Roomy well accommodates 5-gallon buckets for refilling. Choose rubber wheels (DRM664) for concrete or asphalt outdoors; choose polyolefin wheels (DRM662, DRM986) for smooth floors.

DRM998

Gator Grip

DRUM GRABS

Pick up drums without leaving your forklift cab.

Mounts easily on lift truck forks and secures in place with heavy-duty T-bolts. Durable, welded steel construction withstands demanding industrial environments. No-slip, firm grab design delivers peace of mind while you're moving drums.

 Auto-Grip Adjustable (DRM598) has spring-and-cam actuated jaws; uses gravity to automatically grip drums or cylinders 18" to 28" in diameter

 PolyJaws (DRM547) features smooth-action spring-loaded jaws; reduces the risk of puncturing and tearing poly drums

 Universal (DRM1165) has a hands-free beak that grips top chime lip to secure drum during transport then auto-releases when lowered

 Gator Grip (DRM998) locks drums in place, even over bumpy terrain; provides a tighter hold than gravity-based grip

VESTIL BULK BAG LIFTER

Easily forklift heavy bulk bags.

Lifter has multiple points for bag placement, and hooked ends prevent bag from slipping during lifting and transport. Strong, welded construction with powder-coat finish can handle up to 4,000 lb. loads. Fork pockets easily attach to forks.

SEE PAGE 380 FOR BULK BAGS

Vestil™ Bulk Bag Lifter

DRM1191 • 4,000 lb. Load Capacity	\$367

VESTIL BULK BAG LIFTING SYSTEM

Get maximum versatility from this all-inclusive system.

Combination of bulk bag lifter, arms and frame provides a range of options for lifting and hanging bulk bags. Open center area gives access to top of bag while arms support and distribute weight across storage frame's bars. Fork pockets in base of frame make transporting the system simple; move unloaded only. Frame and additional arms sold separately below; lifter sold separately above.

DRM1192Attach arms to bulk bag lifter for simple setup.

DRM1190

These stands tilt to completely empty liquid from IBC totes.

Stands provide a secure way to tilt IBC containers for thorough draining. Built-in spring lifts the platform as liquid is drained from the container, and raised corner guards help to secure the tote.

Models with forklift pockets make it easier to move the stand (move unloaded only). Models with adjustable legs allow you to adjust the height of the stand for less bending. Stainless steel versions can be used with corrosives and they're easy to clean. Mobile stand has wheels and an ergonomic handle so you can move it around your facility with ease.

PIG POLY DRUM RACK

Save valuable floor space with this storage and dispensing system.

This drum rack lets you stack and dispense from multiple 30-gallon or 55-gallon drums. Vertical storage is ideal when floor space is limited. Polyethylene construction resists corrosion and most chemicals. Rack (PAK182, PAK573) sits on floor for secure dispensing and storage; forkliftable while unloaded for easy transportation.

Stacker (PAK183, PAK574) lets you double your drum capacity without sacrificing valuable floor space. Dispensing shelf (PAK575) attaches to front of any stacker to hold a 6-gallon pail.

Flammables Notice: If using this product with flammable liquids, please consider the regulations that apply to storage and handling of flammable liquids and the safety of this application, specifically flammable vapors, static discharge and heat sources. For further assistance, please call Technical Services.

DRUM CRADLE

Great for one-person use with drums up to 600 lbs.

To make room for dispensing, handle removes and stores under unit when it's horizontal. Sturdy, all-steel frame holds up to 600 lbs. Rolls on non-sparking 2½" polyolefin wheels that resist oils and chemicals.

Wesco® Steel Drum Cradle			
Item #	1+		
DRM207 • For 55-gal. Steel Tight-head Drums • 600 lb. Load Capacity	\$199		

High load capacity allows for double stacking to maximize space.

PIG IBC TOTE DISPENSING STAND

Elevate your totes to a safer working height for easier dispensing.

Add 26" of ground clearance to your IBC totes for easy dispensing of non-hazardous liquids into 5-gallon pails and other small containers. Provides easy access to connections and valves and eliminates extraneous labor and back strain from bending over to fill containers. Powder-coated steel resists rust and corrosion.

PIG® IBC Tote Dispensing Stand	gig
Item #	1+
IBC200 ● 12,000 lb. load capacity ● 45.5"W x 52"L x 26.5"H	\$911

ALUMINUM PALLETS & STAND

Store drums on aluminum pallets and use aluminum stand to raise pallets for less strain.

Aluminum pallets outlast wood because they won't rust or corrode, plus they're fireproof, UV resistant and recyclable. Ideal for moving and storing products in clean, controlled environments. They also offer forklift access.

Pallet Stand raises stored items to a comfortable working height of 29-1/2" to reduce strain and fatigue. Corner gussets add structure while cross-supports and wide feet increase strength and stability.

RETRACTABLE GROUNDING REEL

Tangle-free flexibility for high-use areas.

Spring-loaded retracting reel maintains a handy length of wire while preventing tangles to avoid accidents. Reel locks when cable is at desired length and retracts with a light tug.

GROUNDING CLAMP

NFPA- and FMcompliant grounding.

Bonding and grounding assemblies prevent spark danger while transferring or storing flammable liquids.

HELPS YOU COMPLY with 29 CFR 1910.106(e)(6)(ii) for grounding and bonding when transferring flammables

FLAMMABLE SAFETY CABINETS

PIG Safety Cabinets offer security backed by a lifetime warranty.

If you use flammable liquids, the best way to keep people safe is to store those liquids in a Flammable Cabinet. A PIG Safety Cabinet keeps dangerous flammable liquids away from ignition sources that can create fires or explosions, plus they make auditors happy.

- FM Approved for the storage of flammables plus meets NFPA and OSHA specs
- Fully MIG-welded 18-gauge steel body
- Three-point zinc latch ensures fail-safe, nonsparking door closure
- Secure the door with built-in lock and included keys or use your own separate lock
- Air-insulated double wall construction, flame arrestor vents and grounding connection minimize fire risks
- Adjustable shelves on welded hanging tabs hold up to 270 lbs. UDL

- Leakproof sump contains drips and spills
- · Powder-coat finish resists corrosion
- Leveling feet can be adjusted for stability

NOTE: OSHA codes state that no more than 60 gallons may be Category 1, 2 or 3 flammable liquids, and no more than 120 gallons may be Category 4 flammable liquids. Cabinets are for indoor use only.

If you're not happy with your New Pig purchase, we'll refund every penny, including taxes and shipping. Even the return freight is on us!

Self-closing models have a fusible link that melts in a fire; allows you to prop doors open.

Shelves are adjustable and hold up to 270 lbs. UDL.

Three-point zinc latch ensures spark-free closing every time.

Door can be locked with included keys or use your own padlock (not included).

PIG HIGH-RISE SAFETY CABINET

Cabinet feet keep base off the floor in wet areas.

High-rise design adds 6"-high feet to keep the base of the cabinet off the floor, making cleaning and washdowns easier. These cabinets have the same footprint and capacity of standard PIG Safety Cabinets, plus they're forkliftable for easy relocation (when unloaded). They also have all the features of our standard cabinets on page 414.

WEATHERPROOF CABINET

Store your flammables outdoors.

18-gauge, double-wall steel cabinet is designed to safely store multiple containers of flammable liquids. It's finished with weather- and UV-resistant urethane to withstand exposure to the elements. Sloped roof with overhang helps prevent accumulation of rain, snow and debris. Raised forklift channels allow easy transportation (unloaded only) and keep the cabinet floor off the ground while 2" deep leakproof sill prevents liquids from spilling.

ALUMINUM CYLINDER CABINET

Lockable storage keeps cylinders off the ground and won't rust.

12-gauge aluminum construction prevents rusting and corrosion while frame flooring keeps cylinders off the ground. Predrilled holes in legs let you anchor cabinet to floor and lockable doors offer even greater security. Highly visible warning label warns of flammable contents.

HELPS YOU COMPLY with 29 CFR 1910.110 and NFPA 58-5-2.1.1

STEEL SELF-CLOSING OILY WASTE CAN

Prevent fires started by oily rags.

Protect against fires caused by sparks and spontaneous combustion of solvent-soaked cloths, wipers and other flammable waste. Foot lever opens lid to 60 degrees for handsfree access. Durable, galvanized steel construction with powder-coated finish helps prevent corrosion. Elevated base features air ports for increased circulation and dispersal of heat buildup. FM Approved and UL Listed. "Empty Every Night" warning label printed in English, Spanish and French.

STANDS UP TO HEAVY LOADS

Poly Spill Containment Pallets

feature a 6,000 lb. UDL capacity, so they won't sag, buckle or bow. Ever.

See the world's best-built, best-backed pallets on page 439.

CAN137

POLY SELF-CLOSING OILY WASTE CAN

Delivers the fire-safe qualities of steel with no rust or dents.

FM Approved can melts inward during a fire to seal out oxygen and keep contents from reaching flashpoint. Self-closing lid helps prevent fires caused by sparks or spontaneous combustion. 100% polyethylene resists rust, dents and chemicals. Convenient foot lever provides handsfree access. Hi-viz label reminds you to "Empty Every Night."

DIP/WASH TANK

Durable tank can stay wide open for parts washing and soaking.

Fusible link melts at 165°F; lid snaps shut in the event of a fire. 100% leak-tested and fully FM Compliant construction. Dip tanks (CAN132) are ideal for use with larger parts. Wash tanks with basket (CAN135—CAN137) include a stainless steel small parts basket for easy submersion of parts; after cleaning, the basket can be positioned at the top of tank for draining.

Lids and containers sold separately.

OILSAFE CONTAINER

Store and dispense your lubricants, and choose from ten lid colors to help prevent contamination.

Compact, ergonomical, wide-mouth containers are easy to fill, and they keep stored lubricants pure. Five lid styles are available, including stretch spouts and utility lids (sold separately). Translucent, industrial-grade HDPE has antistatic treatment and resists heat, UV and contamination. Liquid levels are easy to read and measure in quarts or liters. Optional pump (GEN550) dispenses lubricants in hard-to-reach spots.

Lids available in 10 colors:

Black	Blue	Dark Green	Gray
Green	Orange	Purple	Red
Tan	Yellow		

Premium pump (GEN172) features fill port and non-return valve; requires utility lid (GEN594). Quick connect hose accepts a quick connect fitting (not included) to avoid drips; choose 5' hose (GEN170) or 10' hose (GEN171).

Storage lid (GEN593) with molded handle fits all containers; prevents contamination.

Utility lid (GEN594) with screw cap allows for easy pouring; also accepts pump (GEN550, see picture below).

Pump (GEN550) dispenses liquids in hard-toreach places; requires utility lid (GEN594).

Stretch spout lid (GEN595) has a twist-open valve to regulate flow of low-viscosity liquids.

13" stretch spout extension (GEN547) reaches tough places; replaces tip of stretch spout lid (GEN595).

Stumpy spout lid (GEN596) has a 1" spout opening; hose extension (GEN835) also available.

DOUBLE WALL WASTE OIL TANK

Store up to 500 gallons of waste oil.

Bulk capacity eliminates multiple small containers and centralizes waste oil storage. Double-wall, 10-gauge steel construction helps tank withstand impact and provides leak-tested containment. Generous 10"-diameter fill hole features a lockable hatch and debris screen. Durable powder coating resists chipping, rust and corrosion. Individual ports and tank exterior are labeled for easy identification. 2" vent helps prevent pressure buildup. Arrives assembled and ready to use.

PAK248-PAK250 models feature heavy-duty locking swivel casters for easy repositioning, dipstick to measure oil volume in tank and level gauge to monitor content at a glance.

"The quality is above and beyond our expectations and, no pun intended, it's built like a tank. It was shipped on a very sturdy pallet and arrived without a scratch on it and it was very easy to set it up."

— Paul, PAK250 Customer

PIG PACKAGING ABSORBENT SHEET

Double-duty absorbent sheet absorbs free liquids while adding cushioning against shifting.

Make packaging and shipping safer and cleaner with these sheets. Each one is perforated down the middle for easy-tear customization, or you can use a full sheet for quick grab-and-go packaging. Durable multilayer construction holds together, even when saturated, and sheets that are dry upon package arrival are reusable for sustainability. Visit newpig.com to see Oil-Only and Aggressive Chemical versions.

PIG Absorbent Mats are flame resistant in their unused state, but take on the properties of flammable liquids they absorb. Always take proper precautions against potential ignition in handling and disposal of these mats if they have absorbed flammable liquids. For further assistance, please call Technical Services.

Customize your packaging by creating sections as small as 3.75" x 10".

PIG SIZERIGHT PACKAGING ABSORBENT

Create an absorbent that's customized to your container with multiple perforation options.

This sheet absorbs liquid and protects your goods during transit with soft, non-abrasive polypropylene that won't produce dust. Multiple perforation lines mean you can create a sheet that's perfectly sized to your application. Multi-layer construction holds together, even when saturated with oils, solvents or water-based liquids, and sheets that are still dry upon package arrival are reusable for sustainability. Aggressive Chemical and Oil-Only versions are available at newpig.com.

PIG ABSORBENT PACKAGING POUCH

Place your goods in this absorbent pouch to protect against leaks during transit.

Absorbent sheet is sewn into a pouch to soak up oils, solvents and water-based liquids. It cushions against shifting and is non-abrasive to protect your goods from scratches. Multi-layer construction holds together, even when saturated, and pouches that are dry upon shipment arrival are reusable for sustainability. Aggressive Chemical and Oil-Only versions available at newpig.com.

PIG® Absorbent Packaging Pouch							
Weight	Item #	Size (W x L)	Unit	Abs. Up To	Pallet Qty.	1-6	7+

PROTECT YOUR PARTS

We have an assortment of options to suit all kinds and sizes of ferrous metal parts.

The products on this page and the next (except PKG610) are treated with a volatile corrosion inhibitor, or VCI. They transfer vaporized, corrosion-inhibiting chemicals to the surface of ferrous metal parts to protect them from rust and corrosion during short- and long-term storage and transport. Chemicals are nontoxic and leave parts ready for immediate use.

VCI PAPER

Wrap ferrous metal parts in VCI paper to protect them from rust.

NEW! Paper acts as a barrier between ferrous metal surfaces and contaminants in the environment. Prevents rust and corrosion on parts stored indoors for a minimum of 24 months.

- Nox-Rust Vapor Wrapper is the industry standard; heavy-duty paper is saturated with VCI on both sides for layering packaged parts
- Protek Wrap Paper Roll and Paper Sheets are general purpose paper saturated with VCI on one side, and that same side is printed to help you differentiate; roll fits on standard wall and tabletop dispensers while sheets allow fast, easy packaging of small parts
- Protek Wax Coated Paper Roll has one side that's wax-coated and saturated with VCI formula; perfect for hand-wrapping oddly-shaped parts because it molds around the shape and stays in place

VCI Par	per				
Item #	Product Name	Saturation	Size (W x L)	Sold As	1+

PKG603	Protek Wrap [®] Wax Coated Paper Roll	Single Sided	24" x 600'	1 roll/box	\$108

VCI BAGS, SHEETING AND FILM

Rust-preventing packaging options ranging from small to large.

NEW! VCI is blended throughout rather than superficially added, and transparent material allows contents to remain visible. Blue color is easily identifiable to prevent misuse or waste of a higher-quality supply.

- Premium Metal-Guard Gusseted Bags can be used to line crates, gaylords and other boxes; also ideal for covering pallets and large parts like engines and camshafts
- Premium Metal-Guard Flat Bags can be heat-sealed for storage and shipment of small parts and pieces
- Premium Metal-Guard Poly Sheeting is heat sealable for protecting multi-metal, brass, copper, bronze, iron, steel, nickel and more
- Premium Metal-Guard Stretch Film stays in place with excellent cling; ideal for large or oddly-shaped parts

RUST REVENGE RUST REMOVING LIQUID

Remove rust effortlessly and safely with this non-toxic liquid.

NEW! Slowly soak away rust with no scrubbing or special treatment needed. Waterbased, non-toxic formula is safe for humans and the environment, and it's ready to use with no mixing required. Reusable for multiple parts at a time, depending on increasing rust levels throughout liquid in container. Works at parts bath temperatures above 35°F.

SPILL CONTAINMENT

NOBODY STACKS UP TO PIG.

Designed and tested PIG tough.

Containment products are your last line of defense against nasty liquids — so failure is not an option. That's why we tend to go a little overboard with our product testing.

Extreme measures

We built the hulking machine shown here to push the limits of our decks and pallets. It can easily simulate your real-world jobs, but we crank up the pressure and keep it there for months to ensure performance

when it counts. So whatever you do to your PIG Pallets, we've punished them even worse.

Don't waste your money on products that can't handle the pressure. PIG Decks and Pallets are designed, tested and guaranteed not to fail.

You can't buy a stronger pallet or deck.

PIG GRATES TAKE THE PRESSURE

Our compression tester simulates long-term, full-capacity drum storage.

PIG passes with flying colors!

OTHER BRANDS BEND AND BOW

Anything less than level is an accident waiting to happen. Why risk it?

Play it safe with PIG!

HELPS YOU COMPLY

40 CFR 264.175

Secondary Containment Regs require full containment for haz waste to prevent releases into the environment. Full containment is 100% of the largest container or 10% of the total volume, whichever is greater.

40 CFR 122.26

Stormwater Regs require facilities with an SWPPP to describe the plan and equipment to prevent illegal discharge of pollutants into waterways

40 CFR 112.7

SPCC Regs require written plans and documentation of the products that are in place to prevent discharge of oil into waters

IN THIS SECTION: PALLETS - DECKS - ROLL TOPS - TRAYS - MORE!

PALLETS ARE BEST WHEN:

- You need full containment to meet EPA regs; pallets have larger sumps to accommodate the number of drums they're to be used with
- You need to move your containment with a forklift; most models can only be moved empty, but HD Pallets can be moved fully loaded
- You don't have enough floor space to build a modular storage system; pallets have more sump capacity for a smaller footprint

DECKS ARE IDEAL WHEN:

- You need to store drums or IBCs of non-hazardous liquids in order to catch leaks and drips, but compliance is not required
- You need to store smaller containers of hazardous liquids to meet regs; as long as the math works out, decks can help!
- You need easier access to the top of drums or IBCs; decks are lower profile than pallets, keeping stored items closer at hand

LET'S TAKE THIS OUTSIDE.

PIG Roll Top Hardcovers are the perfect solution for storing your drums and totes outdoors. Leaks and spills stay inside, but the rain and snow stays out!

WHAT RED FLAGS DO AUDITORS LOOK FOR?

We can help you think like an inspector to be safe and compliant.

Audits might sound scary, but they don't have to be when you know what to expect. New Pig is the world's leading resource for clean, safe, productive workplaces and we've mastered the ins-and-outs of regulation compliance and industry best practices.

Check out three of the most common issues below that auditors look for on their rounds, then check out our solutions to help you comply. Need help? Call our Technical Services Team at 1-800-HOT-HOGS®!

OPEN CONTAINERS

PROBLEM:

Open containers of hazardous waste are dangerous. Emissions can become airborne and the chance of a spill is increased.

SOLUTIONS:

PIG Latching	Drum Lids	352–35
PIG Latching	Bucket Lid	35
PIG Burpless	Funnels	358–36

INSUFFICIENT CONTAINMENT

PROBLEM:

Drums, IBC totes and other containers are sitting on the floor. If they fail, there's nothing to catch the runaway liquid.

SOLUTIONS:

PIG Drum Containment Pallet	ts 439–443
PIG Drip Decks	445
PIG IBC Containment Pallets	455–459

EMPTY SPILL KITS

PROBLEM:

Absorbents are removed from spill kits but aren't replaced. Spills are left to spread and turn into an even bigger problem.

SOLUTIONS:

PIG Spill Kit Refills	Beginning on page 81
PIG Absorbents	Beginning on page 6
Tamperproof Seals	126

PIG POLY SPILL PALLET

The strongest standard pallet you can buy for everyday drum storage.

6,000 lb. UDL capacity holds four fully loaded steel or poly drums, and low 10" height means easy loading and unloading. Molded-in sump catches leaks, drips and spills to help you comply with regulations and keep your storage areas clean and safe. Low-density polyethylene (LDPE) construction resists UV rays, rust, corrosion and most chemicals. Two-way forklift entry allows easy movement from either direction (unloaded only), and compact footprint reduces floor space needed for drum storage. Textured grating adds traction and lifts out for easy sump access, plus there's an optional ³/₄" drain plug so you can empty the sump without removing the drums or grate. Poly Loading Ramp (PAK734) is chemical-resistant and easy to position.

HELPS YOU COMPLY with 40 CFR 264.175 for storage of hazardous waste

HELPS YOU COMPLY with 40 CFR 112.7 SPCC Regulations **HELPS YOU COMPLY** with 40 CFR 122.26 when used as a BMP in a Stormwater Pollution Prevention Plan

Optional ³/₄" drain plug lets you empty sump without removing drums or grating.

Load drums onto PAK210 using a poly loading ramp (PAK734).

For further assistance, please call Technical Services.

PIG HEAVY-DUTY SPILL PALLET

The strongest pallet on the market won't bow or buckle. Guaranteed.

Innovative design transfers weight to load-bearing channels to maximize capacity while the molded-in sump catches leaks, drips and spills to help you comply with regulations and keep your storage areas clean. Low height means loading and unloading require less effort and drum tops are within easier reach. Low-density polyethylene (LDPE) construction resists UV rays, rust, corrosion and most chemicals. Textured grating adds traction and lifts out for easy sump access; optional 3/4" drain plug lets you empty sump without removing drums or grating.

"I noticed my guys continually sliding on our poly loading ramp.

I looked to PIG and found the solution with this nonslip poly
grate. It was a bit more costly, but if it avoids one accident,
it's a worthwhile investment. The guys have been
thanking me since we put it in place.""

— Mike, PAK603 Customer

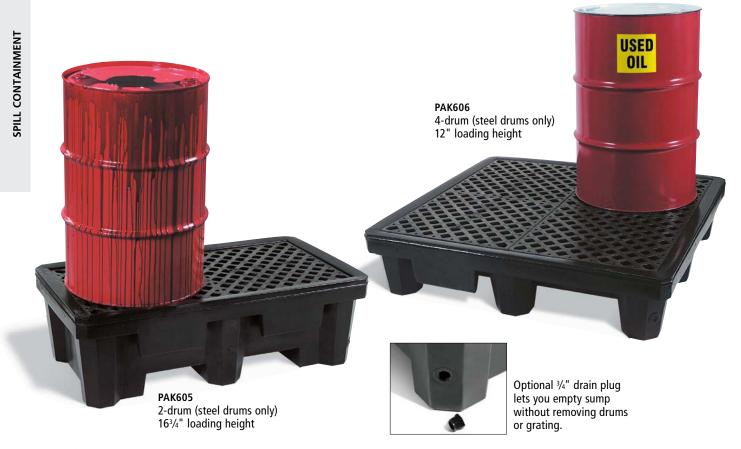

FOR OUTDOOR DRUM STORAGE, SEE OUR ROLL TOPS ON PAGES 450-451.

Optional ramp makes loading and unloading drums easier.

😂= Best-Seller

PIG ECONOMY SPILL PALLET

Our most economical pallets are made of up to 97% recycled content!

100% polyethylene construction resists UV rays, rust, corrosion and most chemicals and is up to 97% recycled. Textured grating adds traction and lifts out for easy sump access; optional 3/4" drain plug lets you empty sump without removing drums or grating. Four-way (PAK606) or two-way (PAK605) forklift entries allow access for easy movement (unloaded only). We test all PIG Containment Pallet designs at max load for months to ensure they can handle full capacity at your facility.

Flammables Notice: If using this product with flammable liquids, please consider the regulations that apply to storage and handling of flammable liquids and the safety of this application, specifically flammable vapors, static discharge and heat sources. For further assistance, please call Technical Services.

Transfer drums on this dripcatching deck. No forklift required!

Fork pockets are spaced to fit most pallet jacks; deck can be moved fully loaded as long as drums are properly secured. 2,000 lb. UDL capacity is strong enough to support two fully loaded steel or poly drums without buckling or bowing. Low-profile 6½"H design is easy to load or unload, plus keeps pumps and funnels within reach. 22-gallon molded-in sump catches leaks, drips and spills during drum transfers. Textured grating adds traction and lifts out for easy sump access. LDPE construction resists UV rays, rust, corrosion and most chemicals.

Item #	1-2	3+
PAK1020 * Holds (2) 55-gal. Steel or Poly Drums * 22 gal. sump capacity 2,000 lb. load capacity * 26"W x 52"L x 6.5"H	\$349	\$337

Flammables Notice: If using this product with flammable liquids, please consider the regulations that apply to storage and handling of flammable liquids and the safety of this application, specifically flammable vapors, static discharge and heat sources. For further assistance, please call Technical Services.

NOTE: Loaded drums must be properly secured before moving.

PIG POLY DRIP DECK

Low-profile decks are easy to load and unload. Guaranteed for life.

Molded-in sump catches leaks, drips and spills to keep storage areas clean, plus the low-profile design provides easy access to pumps and funnels. Low-density polyethylene (LDPE) construction resists UV rays, rust, corrosion and most chemicals while the textured grating adds traction and lifts out for easy sump access. 6- and 8-drum decks feature a wide, one-piece design which eliminates the expense and labor of connecting multiple decks.

🎫 POLY MODULAR SPILL DECK

Build up to your required sump capacity with our connectable decks.

Patented flow-through sump design lets liquid pass from one sump to another which helps you meet containment regs. Modular design features bulkhead fittings and predrilled ports to connect to other decks, and the special tools and hardware needed to connect sections are included. Low-density polyethylene (LDPE) construction resists UV rays, rust, corrosion and most chemicals. Textured grating adds traction and lifts out for easy sump access, and translucent white sidewalls allow for easy visual inspection. Available in standard and heavy-duty.

HELPS YOU COMPLY with 40 CFR 264.175 for containment of haz waste (depending on size of containers stored and number of deck sections)

HELPS YOU COMPLY with 40 CFR 112.7 SPCC Regulations where absorbents, barriers and containment devices can be used to control or prevent oil discharges

HELPS YOU COMPLY with 40 CFR 122.26 when used as a BMP in a Stormwater Pollution Prevention Plan

 $\ensuremath{\mathsf{NOTE}}\xspace$ Heavy-Duty and Standard Deck components cannot be joined together due to their different heights.

Our patented bulkhead fittings let liquids from leaking drums flow from one connected deck to another.

Removing the predrilled ports lets you connect deck sections, creating a larger storage or work area and increasing sump capacity.

Pis ROLL TOP HARDCOVERS

Why do I need a Roll Top?

Drums stored outdoors are an easy target for EPA inspectors. Without containment, your leaks and spills are direct contaminants to the environment. Even regular pallets don't cut it — they just fill up with rainwater and spill out. But New Pig has you (and your drums) covered. PIG Roll Top Hardcovers stand up to the toughest conditions, keeping liquids in and the elements out.

- Weathertight roll top slides up for easy access while the rest of the hardcover stays closed
- Covered pallet has built-in sump to catch leaks, drips and spills to help you meet drum containment regs (see regs on page 436)
- Heavy-duty construction allows entire unit to be moved with drums in place

SEE PAGES 450-451 FOR DRUMS. SEE PAGE 459 FOR IBCS.

"This was a great solution for us ... We needed covered storage and spill containment all in one."

— Art, PAK601 Customer

STORE YOUR HAZ WASTE OUTDOORS AND IN COMPLIANCE

NEED HELP CHOOSING THE RIGHT ROLL TOP? CALL OUR TECH TEAM AT 1-800-HOT-HOGS.

DID YOU KNOW?

28%

OF AT-RISK DRAINS ARE WITHIN 20 FEET OF STORED LIQUIDS.

Sometimes you can't help it when liquids are stored near drains, but being prepared to properly respond to spills can help reduce the hazards of at-risk drains in your facility. Roll Tops are a great solution to preventing liquid releases outdoors.

Data provided by our patented Spill Risk Algorithm.

PIE ROLL TOP SPILL PALLETS

Protect your drums from the elements using our roomy roll tops.

Low-profile pallet with sump catches leaks while keeping drum tops and accessories within reach. Weather-resistant design prevents pollutants from entering stormwater, and heavy-duty construction allows unit to be lifted by a forklift with drums in place (drums MUST be properly secured). Low-density polyethylene with UV inhibitors resists UV rays, rust, corrosion and most chemicals for long, trouble-free life. Optional ³/₄" drain plug lets you empty the sump without removing drums or grating. Doors and roll top can be secured with a padlock — see LCK901 and LCK902 on page 335.

MARNING: Cancer, Birth Defects and Reproductive Harm - www.P65Warnings.ca.gov

Elevate your totes to a safer working height for hassle-free dispensing.

Add 26" of ground clearance to IBC totes for easy dispensing of nonhazardous liquids into 5-gallon pails and other small containers. Provides easy access to connections and valves for more convenient filling, monitoring and mounting of pumps, equipment or piping.

Keeps totes raised off of work floor to help prevent damage, and eliminates extraneous labor and back strain from bending over to fill containers. All-welded construction is sized to fit most standard IBCs and the powder-coated steel resists rust and corrosion. High load capacity allows for double stacking to maximize space.

^{*} WARNING: Cancer, Birth Defects and Reproductive Harm - www.P65Warnings.ca.gov

PIG IBC SPILL PALLET

Your heavy tote is no problem for our 8,000 lb. capacity pallet.

Strong enough for long-term storage of IBCs, this innovative design transfers weight to load-bearing channels to maximize capacity. Low-density polyethylene (LDPE) construction resists UV rays, rust, corrosion and most chemicals. Textured grating lifts out for easy access to sump, and optional ³/₄" drain plug lets you empty sump without removing totes or grating. It's low profile for easy access to and dispensing from IBC tanks; 26" height for single unit, 22" height for twin.

Pallet with attached bucket shelf (PAK736, PAK940) drains collected liquids into main sump for neater, easier dispensing (extra bucket shelf sold separately as PAK1011).

HELPS YOU COMPLY with regs listed on page 456

PIG-ENGINEERED SOLUTIONS

Problem: Customers needed a compact, easy-to-use pallet for their IBCs with enough sump volume to meet regs.

Finding the solution: Our Poly IBC Spill Containment Pallet has an innovative support system that doesn't cut into sump capacity but keeps the unit low and easy to use. We topped it with the heaviest grates in the industry for unbeatable strength and added 17% more surface area to make it easier to position your totes. As a final touch, we gave it the only closed sump on the market to keep out debris and make liquid recovery easier.

Problem solved: PIG Poly IBC Spill Containment Pallet

Twin Poly IBC Tote Spill Pallet (PAK749, PAK940) side-by-side design lets you store two IBC tanks on one unit (8,000 lb. UDL per side); avoids the higher cost of buying two single units.

PIG STEEL IBC SPILL CONTAINMENT PALLET

Steel pallet provides secondary containment for flammables.

IBC100 holds two stacked 330-gallon IBCs; IBC101 holds four stacked 330-gallon IBCs. They're perfect for storing oils, lubricants, solvents and flammables (grounding lug included). Heavy-duty steel with powder-coated finish protects against rust and corrosion. Built-in ½" NPT drain plug allows you to empty the pallet without needing to pump out liquid from the top. Two-way forklift access (move unloaded only).

PIG STEEL IBC TOTE DRIP DECK

Steel deck is ideal for storing flammable liquids.

Durable 12-gauge steel is powder coated for extended life. IBC can be bonded and grounded for safer storage of flammables. Grating is removable for easy cleanup, and included 1/2" NPT drain plug lets you empty sump without removing tote. Move from any direction (unloaded only) with four-way forklift access.

GROUNDING WIRES AVAILABLE ON PAGE 413.

PIG MODULAR IBC SPILL PALLET

Create a low-profile, expandable storage system.

Each heavy-duty pallet section supports 9,000 lb. UDL and accommodates almost any size IBC unit. Pallet sections and tanks are 100% polyethylene to resist corrosion and most chemicals, including acids, solvents and oils. Each pallet section features four-way forklift pockets for easy moving (when not connected) and nonslip grates that lift out for easy sump access. Low profile for easy loading and access. Increase sump capacity by adding on an individual pallet section (see PAK672 on page 441). Includes specially designed tool kit for connecting components.

HELPS YOU COMPLY with regulations listed on opposite page

Flow-through connections let system components share sump capacity to help you meet regulations.

Each system includes the pallets, expansion tanks and bulkhead fittings to create your IBC storage area.

CHOOSING THE RIGHT IBC PALLET SYSTEM IS EASY!

Two-IBC pallet (PAK119)

Includes: 2 pallets, 2 expansion tanks • Capacity: 280 gallons (Helps meet secondary containment requirements for two IBC units.)

Three-IBC pallet (PAK120)

Includes: 3 pallets, 2 expansion tanks • Capacity: 355 gallons (Helps meet secondary containment requirements for three IBC units.)

Four-IBC pallet (PAK121)

Includes: 4 pallets, 1 expansion tank • Capacity: 365 gallons (Helps meet secondary containment requirements for four IBC units.)

Five-IBC pallet (PAK122)

Includes: 5 pallets • Capacity: 375 gallons (Helps meet secondary containment requirements for five IBC units.)

PIG POLY IBC ROLL TOP HARDCOVER PALLET

Store totes outdoors and meet EPA standards.

Provide protected storage and liquid containment for IBCs up to 52"L x 52"W x 53"H. Weather-resistant design prevents contaminants from entering stormwater and low-density polyethylene (LDPE) construction with UV inhibitors resists UV rays, rust, corrosion and most chemicals. Durable rolling cover and swing-out doors on both sides provide easy access, and two-way forklift entry allows easy movement (unloaded only). Available with or without drain plug. "Twin" design with shared sump saves money over purchasing two single units.

PIG COLLAPSE-A-TAINER BERM

Our most affordable model sets up quickly for portable containment.

Re-engineered to provide exceptional value while maintaining the quality and performance you expect from PIG Collapse-A-Tainers. Durable, coated geomembrane resists chemicals, abrasion and tearing, plus it folds to a compact size for easy handling and storage. Sides easily fold down to allow pallet jacks and forklifts to be driven into and out of berm. Ideal for use under storage tanks, pillow tanks, pallets loaded with drums and more, and it can be stowed in a vehicle for containment in remote locations. One-piece design requires no additional parts or tools and can be held in place by positioning sand bags on skirting or by staking to the ground through grommets.

^{*} WARNING: Cancer, Birth Defects and Reproductive Harm - www.P65Warnings.ca.gov

"Easy compliance! Just unroll where you need containment and you're done! Easy to use as well, forklift just rolls right over sides without operator having to get out to collapse."

— Tom, PAK793 Customer

PIG SELF-RISING CONTAINMENT BERM

Endwalls rise with a leak or can be locked in place.

Endwalls can remain folded down during use, but they automatically rise with the liquid level when a leak occurs. Heavy-duty hinges can be locked into place when snow, hoses or other heavy objects could prevent the flotation system from functioning. Folds to a compact size to let you store the system in a vehicle and transport it to a remote location, and included strap secures unit in place. Constructed of durable 30 oz. co-polymer geomembrane to resist chemicals, abrasion and tearing, plus grommets at each support hinge allow unit to be staked to the ground when needed. Ideal for use under storage tanks, pillow tanks, pallets loaded with drums and more. Custom sizes and colors available by calling 1-800-HOT-HOGS (468-4647).

HOW TO ORDER: CUSTOMIZED COLLAPSE-A-TAINER

Get the perfect containment berm for your facility in three easy steps.

Don't see a Collapse-A-Tainer Berm on pages 460–465 that fits your application? Just follow these three easy steps to get your custom order underway. You can customize the shape, dimensions and reinforcement to create the perfect system for your needs — large, small and anywhere in-between!

Let's make sure your new berm is *juuuuust* right.

First, determine the number of gallons you need to contain, factoring in the volume displaced by vehicles, containers or other items. Then, estimate the desired width (W) and choose a wall height (H) in feet. (Standard Collapse-A-Tainer is available .66'H, 1'H, 1.5'H and 2'H; Self-Rising Collapse-A-Tainer comes 1'H only.) Complete the formula to calculate the length (L):

Gal + 7.48 + W' + H' = L'

Use our handy checklist to help determine your system's specifications.

3 CALL US FOR A FREE QUOTE!

Call 1-800-HOT-HOGS (468-4647) for more information and a free quote for your design.

- What is your application?
- How many gallons will you need to contain?
- Are there size restrictions?
- What type of material is required to contain your liquid?
- Do you need drive-through? 2 or 4 sides?
- Will you use it on smooth or rough surfaces?

PIG COLLAPSE-A-TAINER IBC CONTAINMENT BERM

IBC spill containment has never been easier.

Sidewalls collapse completely flat for fast and easy forklift access to your IBC. Easy to set up and tear down; lightweight and portable for on-the-go containment of IBCs at job sites. Exterior skirting and aluminum supports help sidewalls stay upright. Folds up flat for easy storage and transport, and can be held in place with sandbags or with stakes through attached grommets. Constructed of a durable, coated geomembrane that resists chemicals, abrasion and tearing. Helps meet secondary containment regs with a small footprint. Use with PIG IBC Dispensing Stand (shown on page 383) for easy dispensing from IBC.

HELPS YOU COMPLY with 40 CFR 264.175, 40 CFR 122.26 and 40 CFR 112.7

PIG TRACK BELTING

Protect your Collapse-A-Tainer Berms from tire wear.

Track Belting on the floor of a Collapse-A-Tainer Berm adds protection from heavy truck and equipment tires and the debris they carry. Good traction makes track belting ideal for use in wet conditions and prevents berm from bunching up or tearing when wheels turn. It's made of PVKcoated polyester to resist abrasions and punctures, plus the material is UV-resistant so it won't stretch or crack. Available in five sizes.

Place tray on top of pallet for easy mobility with a forklift. 40" x 48" pallets can also be placed inside the tray.

NOTE: Wooden pallet not included.

PAK921

POLYETHYLENE TRAY

Store small parts or capture leaks and drips from containers.

Rotationally-molded trays are ideal for applications that would compromise injected or thermoformed trays.

Modular design allows efficent use of space on benches or shelves while the light color makes it easy to see screws, springs and other small parts. All-polyethylene composition won't rust or corrode and resists most chemicals. PAK849 has ribs on bottom for added strength; all others are flat.

PAK828

ROUND POLYETHYLENE TRAY

Conserve space with round trays.

Round trays don't take up as much space as square or rectangular ones. Polyethylene construction resists most chemicals, plus it won't rust or corrode. Rotationally molded for increased durability compared to thermoformed or injected trays. Small parts are easy to see on the flat, lightcolored bottom.

PIG TANK CONTAINMENT SUMP

Great for oil tanks, indoors or out.

Safely store up to 1,000-gallon oval tanks with no measuring or guesswork. Extra-large sump helps prevent groundwater contamination outdoors and slippery floors indoors. LDPE with UV inhibitors resists UV rays, rust, corrosion and most chemicals. Choose either ³/₄" or 2" drain plug for convenient emptying; also available without drain. Use with tarp (sold separately) to prevent accumulation of rainwater outdoors.

HELPS YOU COMPLY with 40 CFR 112.7 SPCC Regulations
HELPS YOU COMPLY with 40 CFR 264.175 haz waste storage

REMOVE WATER FROM OIL TANKS WITH A WATER HOG. SEE PAGE 65.

OUR SMALL TOWN ROOTS ANCHOR THE WORLD'S #1 BRAND.

A TIMELINE OF

LEAK & SPILL LEADERSHIP

1985 CENTRAL PENNSYLVANIA

Our founders invent the world's first contained absorbent — the PIG Original Sock — from the "Pig Pen" in Tipton, PA. New Pig is born and leak and spill management is revolutionized.

COAST TO COAST GROWTH

It didn't take long for word to travel about our cleaner, safer, better ways to work. As our product offering grew, the PIG brand skyrocketed to clay-replacing fame in factories across the US.

CONTINENTAL SHIFTS

By establishing offices in Asia, Europe and the UK, more people in more oil-soaked workplaces could get their hands on PIG. As it turns out, an oil spill is an oil spill, and everyone hates slip-and-fall claims.

TODAY WORLD'S BEST STUFF

International success led to more New Pig locations, plus partnerships with thousands of distributors and resellers around the globe. As the world's #1 brand of absorbents, PIG Products have reached more than 300,000 facilities in over 100 countries — on all 7 continents!

Award-winning designs with your messes in mind.

We've won more **Plant Engineering Product of the Year** awards than anyone. Check out our history of innovative problem-solvers!

INNOVATION THEN:

Corncobs and pantyhose

If our founders had settled for the status quo, workers might still be throwing clay on their leaks and spills. But after spending countless hours shoveling mountains of oil-soaked kitty litter from factory floors, they were determined to find a better way.

Most of their experimenting took place in a sloppy corner of an old warehouse dubbed the "Pig Pen." It wasn't pretty, but that's where the corncobs, rice hulls and pantyhose hit the floor — and eventually gave birth to the world's very first contained absorbent. The PIG Original Sock would be the first of many New Pig innovations to come.

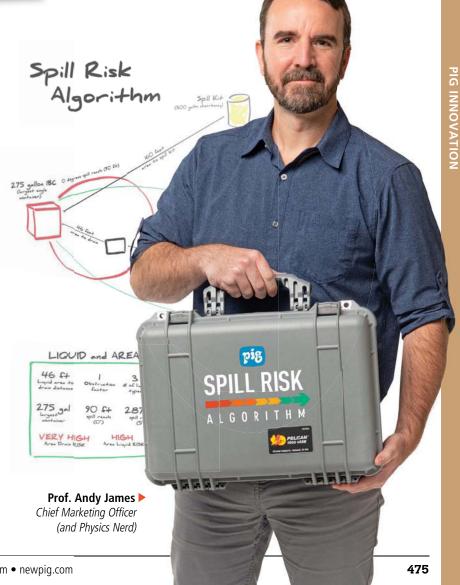

INNOVATION NOW: Adhesives and algorithms

A lot has changed on the leak-and-spill landscape today, but our passion for finding better ways to work has been a constant through the years. We've developed dozens of industry firsts and engineered hundreds of product improvements to help you work cleaner, safer and be more productive. (Check out some of our award-winners on the opposite page!)

One of our most recent inventions, PIG Grippy Mat, never would have happened if we hadn't stepped outside our comfort zone. We knew that a stickybacked absorbent mat would solve a ton of problems, but we knew nothing about adhesives. So we did what all good inventors do — we failed, and failed and failed some more (53 times, in fact) until our adhesive backing was just right.

That's not to say that PIG innovation is all about sloppy testing areas and sticky experiments. Our Spill Risk Algorithm (locked inside the top-secret box at right) is evidence that even the leak and spill experts at New Pig are always learning how to learn. This PIG-original, patented algorithm applies physics — over 600 calculations are performed — and industry-specific research to help you really understand your spill risks.

Learn more about the PIG Spill Risk Algorithm: newpig.com/algorithm

the Giorgio Foundation

Giorgio Borzellino seemed like a perfectly healthy baby at first, but his parents started to sense that something was off when he began missing significant childhood milestones. Doctors first suspected autism, but when Giorgio was five years old, a neurologist correctly diagnosed neurofibromatosis type 1 (NF1).

NF1 occurs in about 1 in every 3,000 births. While some with NF1 can lead full lives, many suffer disfiguring and disabling complications including tumors, learning difficulties, and bone deformities.

Sadly, no surgery or treatment can stop it. With the hope of achieving scientific breakthroughs that will improve lives, Giorgio's family established The Giorgio Foundation, which directly funds researchers focused on NF1.

MAKING AN IMPACT:

Over \$3M of medical research funding since 2016

Research focused on gene repair and skin tumor treatment

15 groundbreaking research studies at major universities

Discovered cell origin of NF and developed detection antibody

How to Give:

THE pig DIFFERENCE **GRANT PROGRAM**

The PIG Difference Grant Program was established by New Pig to help customers and friends restore, conserve and protect America's most important habitats: streams, rivers, ponds, swamps and wetlands.

New Pig looks for innovative groups in local communities working to make their corner of the world more sustainable. We provide funding in the form of cash and in-kind donations of PIG products.

Apply for a grant, learn more and take action: pigdifference.org

LEAKS & SPILLS ARE RISKY BUSINESS...

DON'T GO IT ALONE

Our Tech Experts are here to help!

Each member of our Technical Services Team receives hundreds of hours of training. From in-depth product and regulatory training to emerging trends across industries, we're educated on the issues that affect you most. You can always count on PIG for products that work, people who know their stuff and an experience that'll put a smile on your face. Check out the next ten pages for info and resources to help you work cleaner, safer and better.

A messy workstation is no way to work.

THE PROBLEM

Machines that leak, drip and spray oil are guilty of more than just making a mess. They're also to blame for mucking up your productivity and creating slip hazards. A greasy, grimy workstation is a daily distraction that slows you down and only gets worse if you ignore the problem.

HOW WE CAN HELP

PIG Absorbents stop oil in its tracks. We make mats, socks and pillows in dozens of styles to soak up leaks, drips and overspray of any liquid. By keeping liquids in check before they create a slip hazard, you can spend more time working and less time working around the problem.

10-PART ABSORBENTS TRAINING SERIES

Part 1: Choosing the right absorbent

There are so many absorbent choices that it can be a little tricky to pick a single product that's best for your application. Our 10-part series covers the basics (and then some) to help you find the best solutions for your facility.

newpig.com/absorbents101

29 CFR 1910.22(a)(2)

Requires that workplace floors shall be maintained in a clean and, to the extent feasible, dry condition.

Spills are inevitable — a fast response is your best defense.

THE PROBLEM

An open container of solvents is kicked over. A drum of waste oil is hit by a forktruck. A fueling mishap pours diesel into a retention pond. If you're not prepared to respond, the damages can quickly multiply. From EPA fines to worker injuries, not having a plan can prove to be extremely costly.

HOW WE CAN HELP

New Pig has spill response down to a science. Every PIG Spill Kit is filled with plant-proven supplies to contain liquids, and they're packed in the order you need them for fast cleanup. Trust our Absorbent Booms for oil spills on water, and ask us about other PIG solutions to help satisfy your facility's spill plan.

5-PART SPILL RESPONSE SERIES

Part 1: Assessing risk and retraining instincts

PIG-exclusive series covers risk assessment. proper protection of responders, spill planning and training requirements, spill response techniques, decontamination of workers and equipment and reporting requirements.

READ MORE:

newpig.com/spillresponse101

40 CFR 112.7

Facilities subject to SPCC Regulations must have written plans in place to prevent spills; they must also document the products, countermeasures and procedures in place to prevent discharge of oil into waters.

An ounce of prevention is worth a ton of safety.

THE PROBLEM

Slips, trips and falls are the second-leading cause of worker accidents and lost work-time injuries. On top of the pain and suffering, a single workers' comp claim can cost your company tens of thousands of dollars. According to the National Safety Council, 50% of these incidents are caused by unsafe floors. Knowing how to find these hazards is the first step in making your workplace safer.

HOW WE CAN HELP

Once you know where to focus your floor safety efforts (see the article below), count on PIG products to do the job right. Use Ultra-Duty Grippy Mat for instant traction at entrances; Industrial Grippy Mat to keep workstations safe; and Safety Border Grippy Mat for areas with hazards to work around. Our proven solutions are built to make a difference!

How to Prevent Slips, Trips and Falls at Your Facility

Learn how to prevent floor-related incidents and how to achieve world-class floor safety at your facility. Article includes downloadable posters, a safe floor program checklist and more.

newpig.com/slipstripsfalls101

HELPS YOU COMPLY

29 CFR 1910.22(a)(2)

Requires that workplace floors shall be maintained in a clean and, to the extent feasible, dry condition.

Give your hazardous liquids a safe space to spill into.

THE PROBLEM

A simple container failure can start a chain reaction of damages and fines, from lost inventory (\$) to slip-and-fall injuries (\$\$) to environmental contamination (\$\$\$). That's why the EPA requires secondary containment — something for your spills to spill into. Even if your facility has measures in place, things like rainwater, chemical reactions and insufficient volume capacity can render your containment system useless.

HOW WE CAN HELP

We're not the type of company that just sells you a product and sends you on your way. We'll help you find the best solution for your application — whether it's a Collapse-A-Tainer Berm for drive-in access, a Spill Pallet for small transfer stations or IBC Containment for your totes. If haz waste handling has been a problem, we can help.

THE PROBLEM

Chemical spill catastrophes make headline news, but there are thousands of smaller spills from drums, IBC totes, tanks, hoses and all sorts of machinery that result in violations and "smaller," five-figure fines. These get piled on facilities every year as EPA auditors look for dysfunctional processes and mismanaged hazardous waste systems during visits.

HOW WE CAN HELP

We can help you understand your RCRA responsibilities (see below), and there's a full lineup of PIG products to help you comply. Our Burpless Drum Funnels and Latching Drum Lids are must-haves for Closed Container requirements. And you'll find dozens of recycling solutions like our Aerosol Can Recycler to help keep your haz waste handling costs in check. Need help navigating all the red tape? Give us a squeal we're happy to help!

15-PART RCRA SERIES

Part 1: How to Make Solid **Waste Determinations**

In this series on the Resource Conservation and Recovery Act (RCRA), we'll guide you through proper hazardous waste handling to keep you safe and compliant.

HELPS YOU COMPLY

40 CFR 262

RCRA Regulations state that hazardous waste must be appropriately identified and handled safely to protect human health and the environment, while minimizing interference with daily business operations.

Preventing water pollution is everyone's responsibility.

THE PROBLEM

Your storm drains are a system of passageways that empty into nearby rivers, lakes and streams, and it's your job to protect those waters. Stormwater runoff and its contaminants can pose a serious threat to the environment, and the EPA will levy heavy fines if you're in violation of their regulations. Many facilities don't understand their risks, or how easy and affordable it can be to get into compliance.

HOW WE CAN HELP

We understand the Clean Water Act, we speak SWPPP and NPDES, and we have an entire line of products designed to protect your drains and prevent runoff pollution. Ask us about our DrainBlockers to keep everything out, or our Storm Drain Filters for round-the-clock, below-the-grate filtration. You can also stock up on Oil-Only Spill Kits for fast response to outdoor spills.

STORMWATER MANAGEMENT **SERIES**

Stormwater Regulations: What You Need to Know

Learn best practices that protect water quality and help ensure compliance with environmental regulations to help simplify the process.

40 CFR 122.26

A Stormwater Pollution Prevention Plan (SWPPP) is required when applying for an NPDES Permit.

40 CFR 112.7

A Spill Prevention, Control & Countermeasure (SPCC) Plan is required to prevent discharge of oil into waters.

Sooner or later, every roof is gonna spring a leak.

THE PROBLEM

It doesn't take a "storm of the century" to interrupt your business. If you're not prepared to protect your people, inventory and assets, even a moderate weather event can have big consequences. Roof leaks and flooding can quickly lead to downtime, lost customers, falling stock prices, worker injuries and other costly outcomes.

HOW WE CAN HELP

The key is to be ready before the storm hits, and New Pig offers some great products to help you prepare for Mother Nature's worst. A PIG Roof Leak Diverter catches leaks and channels them to a drain or container, away from your people and inventory. Stock up on PIG Water Absorbent Mats to soak up any wet weather that intrudes they're the best in our lineup for water. Use the PIG Silicone Water Vacuum Barrier to contain and capture water at the same time.

ARTICLE

How to Prepare for Major Storms and Weather Events

Without proper planning, many companies are left vulnerable to costly downtime, which is why contingency and business continuity planning are so important.

BUSINESS CONTINUITY PLANNING (BCP)

Identifies and recognizes threats and risks facing a company, ensuring that personnel and assets are protected and able to function in the event of a disaster.

The products and knowledge to help you comply with the FDA Food Code.

The safety and protection of food offered at grocery and convenience store settings is governed by the FDA Food Code. Learn how products like our Dunnage Racks, Display Bases and Leak Diverters can help you meet critical regulations and avoid fines.

All food on premises must be protected in a clean, dry location free from splash, dust or other contamination AND located at least 6" above the floor. Applies to front and back of house.

Products to help you comply:

Dunnage Racks, Display Bases, Merchandisers See pages 260-265

COLOR-CODE FOOD STORAGE

Raw foods, unless they're combined as ingredients, must be separated from everything else and each other. This applies during storage, preparation, holding and display.

Products to help you comply:

Color-coded Dunnage Racks, Displays & Merchandisers See pages 260-265

STOP OVERHEAD LEAK CONTAMINATION

Food storage is prohibited under leaking water lines, condensation and other sources of contamination including direct and indirect roof leaks that stain ceiling tile.

Products to help you comply:

PIG Roof Leak Diverters, PIG Ceiling Tile Leak Diverters See pages 338-347

PIG Obsidian products are the safer way to handle lithium batteries.

All lithium-ion batteries have the potential to enter thermal runaway — a dangerous chemical reaction that can produce smoke, fire, explosions and toxic off-gassing (see below for a closer look). We've developed a line of products to help you reduce risks, meet DOT regulations, and minimize the occurrence of secondary fires.

Trusted solutions to help with:

SHIPPING

DOT compliant solutions for transporting damaged or recalled batteries

STORAGE

Military-grade cases with fire resistant lining and more for on-site storage

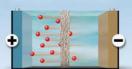

RESPONSE

Bags and blankets help reduce risk of damage and secondary fires

Learn more on pages N2-N5!

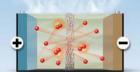

A CLOSER LOOK AT THERMAL RUNAWAY

NORMAL LI-ION CELL

Lithium-ion cells consist of an anode (–), cathode (+), separator and electrolyte. Under normal conditions, the separator controls the flow of ions while separating the anode from the cathode.

DAMAGED LI-ION CELL

When a cell is compromised — either by short circuit, physical damage, overuse or overcharging — this causes the anode and cathode to interact, generating heat and vapors through an exothermic reaction.

THERMAL RUNAWAY

As the internal temperature rises and pressure builds, the separator and active materials break down. The cell enters a state of thermal runaway, leading to self-ignition, explosions and the release of harmful gases.

The severity and speed of lithiumion battery fires depends on the stored potential energy of the charged cell. Higher levels can cause a chain reaction that spreads to a connected series or nearby batteries.

RISK-FREE SHOPPING!

Every penny back. No strings attached.

We stand behind 100% of our products, 100% of the time. So if you buy something and it's just not working out, we'll refund every single penny, including taxes and freight.

We'll even schedule and pay for the return shipping!

NEVER RUN OUT!

Get the stuff you use most, right when you need it, shipped automatically.

Easy setup. Easy changes. Cancel any time.

Save time

No need to spend time placing orders when stock gets low. It's one less thing to remember!

Never run out

Tell us how much you need and how often to ship it. Adjust anytime to keep your inventory just right.

Get FREE stuff

Hats, T-shirts, mugs and more — you get a fun PIG freebie in every shipment!

Registered users can manage your orders online!

Mailing List Rental Preference: We occasionally make our customer list available to a few reputable, carefully screened companies whose products we feel may be of interest to you. If you do not wish to receive such mailings, you may do any of the following and we will promptly remove your name from our rental list.

Mail: New Pig Customer Lists, One Pork Avenue, P.O. Box 304, Tipton, PA 16684; call: 1-800-643-OINK (6465); or email: hothogs@newpig.com.

Limited Warranty: Except as described in our Money-Back Guarantee, there are no express warranties or implied warranties including, but not limited to, merchantability and fitness for a particular purpose. New Pig shall not be subject to and disclaims: 1) All obligations or liabilities arising out of breach of contract or of warranty, 2) All obligations whatsoever arising from tort claims (including negligence and strict liability) or arising under other theories of law with respect to products sold or services rendered by New Pig or any undertakings, acts or omissions relating thereto, and 3) All consequential, incidental and contingent damages whatsoever.

Prices and Availability: All published prices are in U.S. dollars and must be paid in U.S. dollars. In the event of a printing error, New Pig reserves the right to charge the correct price. New Pig works hard to maintain prices and product availability, but they are subject to change due to market conditions. If a published product becomes discontinued, New Pig reserves the right to no longer offer that item for purchase.

Terms: These terms and conditions shall constitute the entire agreement between New Pig and the purchaser, and shall be governed by and construed according to the laws of the state of Pennsylvania and the United States of America.

OSHA Hazardous Substance Product Information: Safety Data Sheets are enclosed with all orders where required. If you would like a Safety Data Sheet prior to order, please call customer service at 1-800-468-4647.

Attention Distributors: If you hold integrated supply contracts with your customers and would like to provide PIG Products to them, give us a holler. You may qualify for special pricing. Please call our Integrated Supply Team at 1-800-328-2464.

Trademarks: All rights reserved. PIG, the PIG logo, Pigalog, 1-800-HOT-HOGS and WORLD'S BEST STUFF FOR LEAKS, DRIPS AND SPILLS. are trademarks of New Pig in the U.S. and other countries. See more at tm.newpig.com. Other company, product or service names used may be trademarks of others.

Offers: Expire in 30 days.

General Warning Statement Regarding PPE Included in Systems for response to Lithium-Ion Battery Fires:

WARNING: The Personal Protective Equipment (PPE) provided with this product were selected for their performance properties related to the most common battery types that would be appropriate for use with the product solutions New Pig provides. Due to the wide variety of available batteries, including watt hours, state of charge, chemistry, and also site-conditions and proximity to other combustible materials, New Pig Corp cannot guarantee that the selected PPE is the best choice or appropriate for every situation. Customers should always confirm that the provided PPE is suitable and sufficient for your specific intended purposes to ensure the safety of personnel. Additional PPE may be required depending on your circumstances.

General Warning Statement Regarding Lithium-Ion Batteries:

Lithium-ion batteries can sometimes enter a state called "thermal runaway," which can sometimes lead to fire, explosion, and the release of toxic smoke and fumes. Lithium-ion battery fires are chemical reactions that can continue to burn even if deprived of oxygen.

Call the Fire Department immediately in the event of any fire, whether or not you choose to use products from New Pig. Fires create great risk of injury or death and property damage. In the event of any fire, warn others to evacuate the premises, call the Fire Department and assure that you have a clear path of escape. Do not take any unnecessary risks to combat a fire that has already started.

While no fire suppression device can fully extinguish a lithium-ion battery fire until the chemical reaction has completed, the products offered by New Pig may help temporarily reduce the risk of damage by managing thermal runaway, partially insulating the fires, and potentially reducing the paths for flame or heat to escape and spread.

This product is not guaranteed to prevent thermal runaway from starting or spreading beyond its immediate area. Burned or partially burned lithium-ion batteries have the potential to reignite and should be handled with extreme care by trained first responders or firefighters. Disclaimer

ADHESIVE-BACKED MAT/FILM NOTICE: New Pig Adhesive-Backed Mats/Films are formulated to work with most common hard-floor surfaces. New Pig Adhesive-Backed Mats/Films are not intended for use on wood flooring with stains, finishes, or coatings. If using the Carpet Protection versions of our adhesive-backed mats, please be sure to use only on carpeted surfaces & never on uncarpeted, hard

surfaces. New Pig Adhesive-Backed Mats/Films have non-permeable barrier layers to prevent liquid pass-through and, as such, are considered to be non-breathable & may not be suitable for use on surfaces that require air curing, including, but not limited to, newly poured concrete or recently applied coatings, sealants, & finishes. All adhesive mats/films have some potential to leave residue or lift or discolor finish coatings, paint, & loose or pre-damaged tiles depending on the condition & age of the floors or other surfaces. For these reasons & others, if you have questions about the suitability of New Pig Adhesive-Backed Mats/Films for your application, test a small section of mat in a discreet or non-critical area before using on larger areas. New Pig Adhesive-Backed Mats/Films are designed for use for up to 3-6 months depending on conditions and traffic patterns. Regardless, New Pig Adhesive-Backed Mats/Films should be replaced immediately if they show signs of wear or damage and should always be replaced no later than 6 months after installation.

CUSTOMER ASSUMES THE RISK THAT A NEW PIG ADHESIVE-BACKED MAT/FILM MAY DAMAGE OR ALTER CUSTOMER'S EXISTING FLOORING OR FLOOR COVERING. NEW PIG PROVIDES NO WARRANTY OF FITNESS FOR A PARTICULAR PURPOSE & NO WARRANTY THAT THE USE OF AN ADHESIVE-BACKED MAT/FILM WILL BE ACCEPTABLE FOR USE ON CUSTOMER'S FLOORING OR ANY OTHER SURFACE. NEW PIG SHALL HAVE NO RESPONSIBILITY FOR, AND CUSTOMER HEREBY RELEASES AND DISCHARGES NEW PIG FROM, ANY DIRECT, INDIRECT, INDIRECT, INDIRECT, INDIRECT, PLOORING MATERIAL, OR ANY OTHER SURFACES IN CUSTOMER'S FLOORS, FLOORING MATERIAL, OR ANY OTHER SURFACES IN CUSTOMER'S DWELLING OR FACILITY. CUSTOMER IS SOLELY RESPONSIBLE FOR DETERMINING THE FITNESS & APPROPRIATENESS OF THE USE OF A NEW PIG ADHESIVE-BACKED MAT/FILM IN CUSTOMER'S DWELLING OR FACILITY.

Universal Absorbent Socks See Socks

CLEANER, SAFER, BETTER WAYS TO WORK!

30 PAGES OF NEW STUFF!

The latest solutions from PIG and our trusted partners, featuring PIG Obsidian **Lithium Battery Products** for safer shipping, storage and response.

ABSORBENTS

PIG Mats & Socks are the best you can buy for soaking up leaks, drips and spills. Invented here in 1985 and still the World's #1 Brand.

See pages 4–77

SPILL KITS

PIG Spill Kits are designed for superfast response, and nobody offers more sizes, styles and options to fit your facility.

See pages 78–129

SPILL CONTROL

PIG DrainBlocker Covers go down fast and seal tight to stop spills and protect drains.

See pages 154-175

STORMWATER

PIG Drain Filters & Bioremediation Products keep oil out of drains to protect waters and stay compliant.

See pages 176-197

ADHESIVE-BACKED MATS

PIG Grippy Mats won't shift or bunch up — eliminate slips, trips and falls at entrances and walkways!

See pages 242-257

STORES & MARKETS

Racks, Receptacles and more for every area of your store —

inside and out — from our featured partner MasonWays.

See pages 258-277

LEAK DIVERTERS

PIG Leak Diverters go up fast to safely channel overhead leaks — it's a simple solution, made superior.

See pages 336-349

STORAGE & MATERIAL HANDLING

PIG Latching Drum Lids & Burpless Funnels are built for speed and ease so you can work clean and comply with regs.

See pages 350-435

CONTAINMENT

PIG Spill Pallets & Decks

give your hazardous liquids a safe space to spill into. Guaranteed not to fail!

See pages 436-473

MORE AT

Like the stuff in this catalog? See more products, details, specs and photos online, plus expert advice, product reviews, live chat and more!

WE PIG PROMISE TO KEEP **CUSTOMERS HAPPY!**

Helpful Service — Get through to real people, really fast!

At New Pig, you'll never have to wade through phone menus or repeat vourself five times to a voice recognition robot. From our offices in Tipton, PA, an actual human being says *Hello* and asks how we can help! 96% of calls are answered within 3 rings and 99% of chats connect within 9 seconds.

Reliable Shipping —We bust our tails to deliver your stuff.

Thanks to our speedy warehouse crew and massive in-stock inventory, your order is shipped as fast as humanly possible. And when you order using Autoship, you'll never run out of your favorite PIG products! (newpig.com/autoship)

Risk-Free Shopping—Every penny back. No strings attached.

We stand behind 100% of our products, 100% of the time. So if you buy something and it's just not working out, we'll refund every single penny, including taxes and freight. We'll even schedule and pay for the return shipping!
